**WITHDRAWAL OR DEACTIVATION OF AN EXISTING MAJOR**

A unit requesting a withdrawal or deactivation must clearly state if the major is to be deactivated or terminated. Termination is a final step which removes the major from the possibility of future reactivation. To deactivate a major means that it is held in abeyance until reactivation becomes feasible. In both cases no new admissions into the major are possible. Withdrawal or deactivation of an existing major must be reviewed and approved by the same bodies that approved the existence of the major. The proposal must include information on how the withdrawal or deactivation will impact on the University, justification and an explanation of the withdrawal or deactivation. Forms should be submitted for the permanent elimination of any courses necessitated by the withdrawal or deactivation of the major.

Form approved 3/2/88, Council on Academic Affairs
REINSTATEMENT OR REACTIVATION OF A MAJOR

The reinstatement or reactivation of a major must follow the same procedures and guidelines as the establishment of a major, except that the approval process ends with the approval of the Council on Academic Affairs for majors in effect prior to September 20, 1963.
