Appointment decisions for continuing faculty positions must be based on criteria that reflect strong potential to attain tenure and advance through the faculty ranks.

Faculty Rule 3335-5-19 states the general criteria governing the types of faculty titles. Faculty Rules 3335-6 and 3335-7 describe in detail the tenure-track, and clinical and research appointment types.

Policy Details

1 Tenure-track, Clinical, and Research Faculty

1.0 Length of appointment

The Ohio State University Office of Academic Affairs [http://oaa.osu.edu/assets/files/documents/facultyappointments.pdf](http://oaa.osu.edu/assets/files/documents/facultyappointments.pdf)
Tenure-track, clinical, and research faculty may be offered either a 9-month or a 12-month appointment. Faculty members on a 9-month appointment typically begin their duties on the first day of autumn semester and end on the last day of examinations. Twelve-month appointments typically begin either July 1 or on the first day of autumn semester.

In accordance with Faculty Rule 3335-5-07, faculty members are expected to be on duty an average of 19 working days a month (weekdays excluding university holidays). Nine-month faculty members do not accrue vacation but are not expected to be on duty during intersessions between semesters or during their off-duty period (typically summer). Twelve-month faculty members accrue vacation per the Paid Leave Programs Policy 6.27.

2.0 Joint appointments

A joint faculty appointment is defined as one in which a faculty member has a compensated FTE appointment in two or more tenure-initiating units (TIUs). Some aspects of these guidelines may also be helpful in establishing memoranda of understanding (MOUs) for appointments where a non-TIU such as an academic center provides part of the funding for a faculty appointment, but such MOUs do not require Office of Academic Affairs (OAA) approval.

2.1 Appointing new faculty members to a joint position

The units considering making a joint appointment should determine whether this is the most appropriate means of accomplishing some shared goal. Financial reasons (neither unit has the resources to make the appointment on its own) alone do not provide an optimal foundation for joint appointments. If there are other means (such as joint service on graduate studies committees) that will accomplish the shared goal, OAA suggests not pursuing a joint appointment.

Ideally the units making a joint appointment should reach agreement on its terms before seeking an individual to fill the position so that these terms can be communicated clearly to candidates. These terms, modified as a consequence of negotiation with a particular candidate where appropriate, must be set forth in an MOU signed by the hiring units. If the hiring units are in different colleges, both deans must also sign off on the MOU.

Before being extended to candidates, letters of offer involving joint appointments as defined in these guidelines, along with the MOU noted above, must be approved by OAA. A candidate must be made aware of the terms of the MOU before asked to decide on an offer. Items that should be included in the MOU include:

- The TIU in which the candidate’s tenure will reside (see Faculty Rule 3335-6-06). This is the unit where the candidate will be a member of the eligible faculty. If it is possible for the TIU designation to be renegotiated at a subsequent time, there should be some content indicating how such a negotiation would be initiated and concluded.
- what each unit will contribute to the appointment in terms of compensation; office; research space, equipment, and research start-up funds; and any other relevant resources, as well as what the process is by which relative contributions could be changed over time
- the defined workload associated with each part of the appointment; the process by which defined the workload associated with the different parts of the appointment can be changed; and the mechanism for resolving workload issues should it be alleged by either the joint appointee or one of the hiring units that one or both of the units’ expectations differ from those agreed to in the MOU
- the annual salary decisions process and whether the units agree to reach consensus on salary increases or each provide its own recommendation based on performance in areas relevant only to its part of the appointment
- In the case of an untenured faculty member, how annual reviews and the review for tenure will be conducted; whether both units must agree on renewal of the appointment and ultimately on the award of tenure for the peer recommendation to be considered positive and if not, how a disagreement on renewal and tenure will be handled. If the units cannot reach an agreement on this extremely important matter, then the hire should not be made.
- in the case of a tenured faculty member how annual reviews and reviews for promotion will be conducted and whether both units must agree that promotion is warranted for the peer recommendation to be considered positive
Faculty Appointments
Office of Academic Affairs

Applies to: Faculty

- the governance rights of the joint appointee in each of the units sharing the joint appointee

2.2 Faculty transfer into a joint position

On occasion, a faculty member hired into a full-time faculty position in a particular TIU desires to establish a joint appointment with another unit. In such cases, OAA recommends the following procedure:

- The faculty member should consult with the head of the unit with which s/he wants to establish a joint appointment and explain why such an appointment would benefit his/her academic career at Ohio State.
- The TIU head then makes a judgment about whether the joint appointment will benefit the mission of the unit of the whole and whether there are funds to cover the salary and benefits associated with the joint appointment. In making this judgment, the TIU head should consult with the dean about the effect of this joint appointment, if any, on future hires in the unit.
- If the TIU head ascertains that the transfer would benefit the unit, the TIU head consults with the dean about whether there are funds in place to support the joint appointment. At this point, the TIU head should ask the faculty member requesting the joint appointment to write a formal letter of application. At the same time, the faculty member and/or TIU head of the receiving unit should discuss the possibility of the appointment with the TIU chair.
- The receiving unit should provide information about the faculty member to its tenured faculty and request a vote, following hiring procedures laid out in the Appointments, Promotion, and Tenure (APT) Document, about whether it approves the joint appointment.
- The dean and TIU head of the receiving unit decide whether to approve the appointment.
- The two units will write an MOU about the appointment, including which unit will serve as the TIU, that will be approved by the dean(s) of the units and by OAA.

3.0 Shared position

It is possible for a unit to hire two individuals to share a single tenure-track faculty position. The following considerations apply:

The position must necessarily be split 50-50 in order for both parts of the position to be tenure-track. Letters of offer for such positions must address clearly the extent to which the two positions are independent or interdependent, specifically:

- the right or lack of right of one party to the other half of the position should that half become vacant
- untenured positions: the independence or interdependence of annual reappointment and tenure decisions
- untenured and tenured positions: the independence or interdependence of annual evaluations, salary increases, promotion in rank, and provision of resources such as space and equipment
- Generally it is best to treat the two halves of the position as independent, particularly in any matter involving performance evaluation.

4.0 Courtesy appointments

Courtesy appointments have 0% FTE and occur when a tenure-track, clinical, or research faculty member holds an appointment in one or more units outside the TIU. Units make courtesy appointments with the faculty member's title within the TIU.

TIUs must establish formal expectations for courtesy appointments. Courtesy appointments should be discontinued when expectations are not met and when a faculty member retires from or leaves the university.
5.0 Changes in appointment

5.1 Transfer of tenure-initiating unit

The concept of a TIU and the circumstances under which a tenure-track faculty member may be considered for transfer to a new TIU are described, along with the necessary approvals, in Faculty Rule 3335-6-06.

Approval of the transfer by OAA is dependent on the establishment of mutually agreed upon arrangements between the administrators of the affected academic units, including the deans(s), and the faculty member.

An MOU signed by all parties, including OAA, must describe in detail the arrangements of the transfer. Since normally the transferring faculty member will fill an existing vacancy in the receiving unit, the memorandum of understanding (MOU) will describe the resources supporting the position, including salary, provided by the receiving unit.

Rarely will a faculty line be moved from one unit to another to enable a voluntary transfer. To do so would effectively downsize one unit and enlarge another without regard for university priorities and programmatic needs.

The review schedule of probationary tenure-track faculty is not altered by transferring TIU. Requests for exceptions due to special circumstances must be submitted to OAA before the MOU is finalized.

5.2 Transfer from tenure-track to clinical or research appointments

Tenure-track faculty members who transfer to a clinical or research are required to resign their tenure-track position, relinquishing tenure if applicable.

Such transfers are initiated for consideration only upon the written request of the faculty member. Clear evidence must be offered of a change in the individual's career goals and expectations, duties, and activities.

The following Faculty Rules describe the circumstances under which such a transfer may be considered and approved:

- To clinical, Faculty Rule 3335-7-09
- To research, Faculty Rule 3335-7-38

Transfer from a clinical or research appointment to the tenure-track is not permitted (see Faculty Rules 3335-7-10 and 3335-7-39 respectively). Faculty may apply for tenure-track positions and compete in regular national searches for such positions.

5.3 Reduction in FTE

5.3.1 Tenure-track faculty

If a part-time appointment was not included in the terms of hire as stated in the letter of offer, a tenure-track faculty member who desires a reduced appointment (less than full-time but not less than 50%), whether temporary or permanent, must consult with the TIU head.

Tenure-track faculty are defined in Faculty Rule 3335-5-19 (A) as holding an appointment of 50% FTE or greater. Persons with a tenure-track faculty title on an appointment of 49% FTE or less are associated faculty.

Upon the faculty member's request, the TIU head, with the approval of the college dean has the authority to grant a reduction in FTE. In colleges without units, the dean has final authority. The letter directed to the dean should state all relevant information (the amount of the reduction, when it will take effect, whether it is permanent or temporary).
5.3.2 Probationary tenure-track faculty

A reduction in FTE does not involve an automatic extension of the probationary period, even though the projected revised dates may be mentioned in the letter approving the reduction, as is often the case. Probationary tenure-track faculty whose appointment is less than full-time but not less than 50% may request an extension of the probationary period in accordance with Faculty Rule 3335-6-03 (F).

By policy OAA does not approve extensions in advance. Rather, during the second year of a faculty member's reduced appointment, OAA will approve an extension of one year, for example, in recognition of two years of service at 50% FTE. At the appropriate time a letter requesting approval of the extension is forwarded by the TIU head to the dean and then OAA.

For probationary faculty, the letter directed to the final level of approval should state (in addition to the amount of the reduction, when it will take effect, and whether it is permanent or temporary) a projected revision of the review schedule and the projected year in which the adjusted Fourth-Year Review would fall (if the Fourth-Year Review has not already occurred).

5.3.3 Clinical and research faculty

Clinical and research faculty who wish to renegotiate their FTE during a contract period must consult with the TIU head. The agreement of the parties who initially approved the appointment is required to approve a change in FTE.

5.4 12- and 9-month appointment conversions

Faculty who do not hold an administrative appointment will normally convert between a 12- and a 9-month appointment using a 12/9 or a 9/12 salary conversion ratio. Any other arrangement requires the approval of OAA.

See the Faculty Compensation Policy for information regarding faculty who step down from an administrative appointment.

5.5 Transfer of campus

The circumstances under which a faculty member may be considered for a transfer from one campus to another are described in Faculty Rule 3335-6-07.

The provost's approval of the transfer is dependent on the establishment of a mutually agreed upon financial arrangement between administrators of the affected academic units, including the dean(s).

6.0 Endowed chairs or professorships

Only the BOT can establish a chair or professorship and appoint an individual to hold that position. Units and colleges should defer publicity regarding the establishment of a chair/professorship or the appointment of an individual to that position until action has been taken by the BOT.

6.1 Establishing an endowed chair or professorship

Units and colleges requesting the establishment of a chair/professorship submit their requests to the BOT for approval only after the required funding level has been reached.

Chairs/professorships are established using the same process as an endowment fund. Units and colleges submit description to Development Administration (by the appropriate deadline, to ensure that it can be reviewed prior to going to the BOT for approval. (See the Endowment Approval Schedule maintained by Development Administration.)
After the BOT has approved the establishment of the chair/professorship, the BOT Office will send certified copies of the description to Development Administration for distribution.

6.2 Appointing a faculty member to an endowed chair or professorship

The college transmits a draft letter of offer to OAA for approval before extending the offer to the candidate. OAA does not require a CV for internal candidates. Since appointments to endowed chairs or professorships are ordinarily made at senior rank, the college must follow OAA guidelines for such appointments and include all required documentation with the draft letter of offer when making an offer to an external candidate.

The letter must state the effective date and length of term, not to exceed five years, at which time the appointment will be up for renewal. After OAA returns the draft letter of offer to the college, the unit may extend an offer to the candidate. The candidate must acknowledge acceptance of the position in writing.

The college sends to OAA a copy of the final offer on letterhead along with the candidate’s acceptance, either as a signature on the offer letter or as a separate letter.

OAA forwards the offer letter with the candidate’s acceptance to the BOT for final approval.

The appointment becomes official only upon approval by the BOT.

The dean must conduct a formal review prior to submitting an individual for reappointment to an endowed chair.

7.0 College distinguished professors

Colleges wishing to recognize distinguished faculty members may establish distinguished professorships, the titles of which shall be (College Name) Distinguished Professor.

Criteria for review and procedures for awarding such distinctions must be included in the college pattern of administration.

8.0 Emeritus faculty

Tenure-track, clinical, and research faculty are potentially eligible for emeritus status regardless of their length of service at The Ohio State University (see Faculty Rule 3335-5-19 (E)).

8.1 Perquisites

Various offices within the university offer perquisites to emeritus faculty. Some of these include:

- emeritus parking hangtag free of charge (application provided by the Office of the Board of Trustees (BOT))
- emeritus permanent university ID card permitting library privileges
- continuing use of OSU e-mail account (request by calling the Office of Information Technology's Help Line at 614-688-HELP [4357])
- reduced membership fee offered by the Faculty Club
- use of recreational facilities on same basis as faculty
- athletic tickets (including football ticket applications) offered by the Department of Athletics at faculty prices
- emeritus faculty are eligible to receive campus-wide news publications issued by the university, and to attend Senate and other university and faculty meetings without vote
- use of hotel contracts and car rental contracts with OSU/Big Ten
- The provision of office space, secretarial support, office supplies, and computer use is strictly at the discretion of each unit and/or college.
8.2 Graduate faculty status

See the Graduate School Handbook for details on graduate faculty status when a faculty member leaves or retires from the university.

8.3 Procedures for faculty emeritus requests

Colleges should forward written requests for faculty emeritus status to OAA using the Request for Emeritus Status Form (Form 207). Requests require approval of the TIU head and the dean.

The title request should be tied to final faculty status (e.g. associate professor emeritus). The only honorific title the BOT recognizes is distinguished university professor emeritus. The request for emeritus status must be received by the BOT prior to the date of retirement, if the perquisites of emeritus status (see 8.1) are to become effective by that date.

Only after the college knows the emeritus request is approved by the BOT may HR personnel in the unit and/or college enter the emeritus appointment into the HR system. A retirement action must be entered prior to entering the emeritus action, and the emeritus effective date in the HR system must correspond exactly to the effective date in the letter approved by the provost. The emeritus effective date does not affect the retirement effective date.

Enter emeritus status as a rehire action [0% FTE] using job code 4612 for faculty emeritus.

The HR action of "rehiring" a retired faculty member into emeritus status should not be confused with the reemployment of retired faculty.

8.4 Emeritus titles for endowed chairs/professorships

Faculty members who hold an endowed chair/professorship or an Ohio eminent professorship at the time of retirement may continue to use the chair designation upon request by their TIU with the approval of the dean, OAA, and BOT.

The request can only be made for a faculty member retiring from the university and from the chair/professorship (not for those who may have held the chair/professorship in the past or those simply ending a term holding the chair/professorship).

The request can only be for carrying the name of the chair/professorship with the “emeritus” designation preceding the name. No chair/professorship resources can be allocated to the individual carrying the emeritus designation.

8.5 Criteria for emeritus eligibility of clinical associate professors of practice and clinical professors of practice in the health sciences colleges

OAA reserves the appointment of clinical practice faculty to emeritus status for those who have made outstanding contributions to the college. Over time it is expected that emeritus appointments will be awarded to clinical practice faculty appointees whose performance is consistently among the top 5%. Specific criteria include:

- minimum of 20 years of service to the unit and the college
- unit certification of a minimum of 96 hours of service per year for the 20 years
- hold a clinical practice appointment at the time emeritus status is recommended
- unit certification that the quality of service ranks in the top 5 to 10 % of all clinical practice appointees
- unit P&T committee concurs with chair's recommendation

9.0 Reemployment of retired faculty
For eligibility requirements and guidelines on the rehiring of faculty who have retired from The Ohio State University, see the OHR Policy on Reemployment of Faculty and Staff (Policy 4.25).

It is acceptable for units, in consultation with their college offices, to negotiate some post-retirement work with non-retired faculty in order to facilitate retirement. However, long-term agreements are inappropriate and even short-term agreements should be made subject to availability of funds, programmatic needs, and performance. Re-employment of retired faculty is not an entitlement and cannot be guaranteed. Note that faculty may be rehired into the same position at greater than 75% FTE only if the salary is not greater than 75% of the salary at the time of retirement.

Use the guidelines in Section III 1 and 2 of this policy to determine appointment classification and FTE.

Rehiring a retired faculty member requires approval of the TIU head, the college senior human resources officer, the college dean (or campus dean/director), and OAA prior to extending an offer. Colleges should forward requests to hire a retired faculty member using the Request to Rehire Retired Faculty/Staff Member Form.

10.0 Reemployment of tenure track faculty following nonrenewal of appointment or denial of tenure

OAA must approve the rehire of a tenure-track faculty member denied reappointment or tenure. This requirement for approval applies to faculty members rehired within three years of the final day of the original tenure-track appointment. Approval will be based on the nature of the proposed appointment in relationship to the reasons for denial of reappointment or tenure.

Proposals unlikely to be approved would be those to rehire a faculty member to teach or to conduct research in some capacity when unacceptable teaching or research, respectively, was a factor in the denial of reappointment or tenure.

Units should exercise equivalent judgment in considering the rehire of probationary tenure-track faculty who withdraw from a mandatory review and resign.

11.0 Reemployment of tenure-track faculty who have resigned

There may be rare circumstances when a unit is unable to retain a truly exceptional faculty member (e.g. a member of a national academy), and the unit and college wish to facilitate his/her return to the university. The chair and dean may request approval from OAA, within two years of departure, to rehire the faculty member into a vacant position without a national search. The unit/college may not promise the faculty member in advance to rehire him/her at some future date since intervening events could make it undesirable or not feasible to follow through on such a commitment.

II Faculty fellow

See the Faculty Fellow Appointments Policy.

III Associated faculty

For definitions and rules regarding associated faculty, see Faculty Rule 3335-5-19.

Regardless of title, all associated appointments must entail a letter of offer stating the start and end date not to exceed three years. Appointments carry no presumption of academic tenure.

Associated appointments do not require OAA approval except in instances where the individual does not have degrees beyond a baccalaureate degree. Such appointments should be rare and will only be approved if it is clear that the expertise of the faculty member fulfills a specific instructional need.

Initial appointments at senior rank require prior approval of the college dean and OAA.
Renewal requires a new letter of offer and a new action in the human resources (HR) system. Nonrenewal requires termination in the HR system effective on the end date as stated in the letter of offer.

Persons with tenure-track faculty titles employed at \( \geq 50\% \) FTE, clinical, and research faculty may not hold an associated faculty appointment.

1.0 General concerns

1.1 Appointment classification

Temporary and Term appointment status is determined by the length of the appointment. These appointments are renewable.

Temporary:
- Appointment is for one semester (four months) or less.
- While a faculty member may be appointed for back-to-back semesters, continuous consecutive back-to-back appointments should be reviewed to determine if a term appointment would be more appropriate.

Term:
- Appointment is for a minimum of two semesters (eight months) up to three years (36 months).
- Faculty members with a multiple-year commitment to work for only part of the year, e.g., to teach courses each fall for three years in a row would only be appointed for the period they work.

Benefit eligibility for multiple appointments will follow the principles in section 2 of OHR Policy 4.20.

1.2a FTE in semesters

In cases where associated faculty members have duties limited to formal class instruction, the FTE is determined by the number of credit hours assigned per term. The university-wide baseline for fall and spring semesters is that one three-credit course equals 0.25 FTE. This translates into approximately 10 hours/week, or 3.33 hours/week/credit hour. Compensated associated faculty teaching fewer or more than 3 credits have their FTE adjusted accordingly. For example, faculty teaching one course should be appointed at 25% FTE, regardless of hiring unit. Faculty teaching more than four 3-hour courses should be paid supplemental compensation for this overload. No associated faculty member should teach more than five 3-hour courses in a single semester.

Using this standard, a 100% FTE lecturer or other associated faculty appointment would be distributed by credit hour across 2 semesters as follows:

<table>
<thead>
<tr>
<th></th>
<th>Autumn semester</th>
<th>Spring semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit Hours</td>
<td>12</td>
<td>12</td>
</tr>
<tr>
<td>Courses</td>
<td>4</td>
<td>4</td>
</tr>
</tbody>
</table>

Colleges and the regional campuses may develop formal guidelines (written into their Patterns of Administration) for addressing types of courses that warrant a different credit-hour to FTE equivalency. This allows units to address concerns about the differing amounts of time required for the preparation or evaluation of types of courses due to enrollment size, assistance from GTAs, studios, labs, one-on-one instruction, and so on, while at the same time providing a standard ensuring that all associated faculty members within a college or campus are treated equitably.

In addition, in cases where associated faculty members have duties beyond formal class instruction, the TIU head must adjust the FTE accordingly. For example, in a given semester a lecturer could teach 3 courses and be assigned 25% FTE
duties in other teaching areas, such as advising, guest lecturing, or developing curriculum. All appointment letters for associated faculty members must specify the FTE of the appointment.

1.2b FTE in May session and summer term

Lecturers and other associated faculty teaching in May will be appointed 100% FTE for teaching one 3-hour course. A May course may be appended to a 2-semester appointment. Lecturers and other associated faculty teaching in the summer term will be appointed at 100% FTE for 3 courses taught; the FTE for fewer courses will be adjusted down by 1/3 per course. This higher FTE per course, in comparison to semester, is due to the compressed calendar of the summer term. In rare circumstances, summer appointments can also be made as part of a 12/12 appointment (for a total of the equivalent of 12 courses).

1.3 Benefits

Associated faculty members on appointments ≥0.75 FTE for two semesters or the 9-month academic year may be offered the option of having their compensation paid out over twelve months as either 8/12 (two semester) or a 9/12 appointment respectively. Such appointments carry benefits across the entire 12-month year, from September-August.

2.0 Tenure-track titles <50% FTE

Individuals who perform across the full range of faculty duties and responsibilities (teaching, scholarship, and service) at <50% FTE are given tenure-track titles. The only distinction between an associated faculty member and a tenure-track faculty member is the FTE.

3.0 Clinical practice faculty

These appointments are appropriate for persons who provide significant service to the university such as:

- teaching the equivalent of one or more course
- advising graduate students or serving on graduate committees
- serving as a co-investigator on a clinical trial or scholarly project that entails regular interaction with unit faculty and students as part of the collaboration
- providing necessary university affiliation so that non-university health care providers may practice in university facilities and/or engage in teaching activities

Such individuals may be either non-university employees or university employees compensated on a non-instructional budget.

Clinical practice faculty appointments are limited to the health sciences.

3.1 Clinical practice faculty (compensated)

Clinical practice titles are appropriate for persons who teach and provide patient care at FTE ranging from 1% - 100%.

3.2 Clinical practice faculty (uncompensated)

0% FTE clinical practice appointments are made for the period in which the uncompensated service is provided, not to exceed three years.

Units should renew uncompensated clinical practice appointments only in cases where the purpose of the appointment continues to be met.
4.0 Visiting faculty

4.1 Visiting faculty (compensated)

Fiscal or programmatic circumstances may sometimes make it appropriate to hire fully qualified faculty under time-limited contracts. Visiting faculty appointments may be renewed for up to three consecutive years or given a contract for up to three years at 100% FTE. Part-time appointments may be renewed until the equivalent of three years at 100% FTE is reached.

TIUs may also use the visiting faculty title for the temporary appointment of a faculty member from other institutions, who may or may not be compensated by Ohio State, and for foreign national faculty members who have been awarded tenure but do not have permanent residency status.

Only TIUs may make visiting faculty appointments for temporary duties. A non-TIU unit such as a center that wishes to appoint persons must use an appropriate non-faculty title.

4.2 Visiting faculty (uncompensated)

TIUs may use the visiting faculty title for the temporary appointment of faculty from other institutions who are not compensated by Ohio State, typically when the faculty member is compensated by his/her home institution.

5.0 Adjunct faculty

These appointments are appropriate for persons who provide significant service to the university such as:

- teaching the equivalent of one or more course
- advising graduate students or serving on graduate committees
- serving as a co-investigator on a research project that entails regular interaction with department faculty and students as part of the collaboration

Such individuals may be either non-university employees or university employees compensated on a non-instructional budget.

APT Documents, as well as letters of offer to adjunct faculty, should clearly state that adjunct appointments are:

- recommended at the discretion of the unit
- made for periods not to exceed three years
- entail no commitment to renew the appointment beyond that period

The following are examples of inappropriate situations for adjunct appointments:

- Ohio State University staff members whose activities, even if somewhat "faculty-like," are covered by their job description. If a staff member requires a faculty title to perform her or his regular job, then that position should be a faculty position rather than a staff position.
- The service provided does not require a faculty title and faculty titles are not typically given for such service (supervising off-campus student internships or giving occasional guest lectures).
- Persons who do not provide significant uncompensated service to the university but want to feel affiliated with a unit and/or want the privileges associated with faculty status.

5.1 Adjunct faculty (compensated)
As stated in Faculty Rule 3335-5-19 (C) (1), adjunct appointments are normally not compensated.

Colleges may approve compensation for services provided by adjunct faculty in the rare instances when an individual who normally provides considerable uncompensated services takes on exceptional responsibility. Compensation above 20% of base salary requires OAA approval.

5.2 Adjunct faculty (uncompensated)

Adjunct appointments are made for the period in which the uncompensated service is provided, not to exceed three years. Renewal is contingent upon continued significant contributions.

6.0 Lecturers

When personnel other than graduate teaching associates are needed for teaching, usually on a part-time basis and mainly for lower division courses, Lecturer or Senior Lecturer is the appropriate appointment.

Individual colleges and the regional campuses shall establish appropriate criteria and associated pay scales for differentiating lecturers from senior lecturers.
