Review Data Set Form D: Majors (2007-2008)

[Instructions and Help](#)

[Glossary of Terms](#)

Major Series

We have updated a list of Majors for 2007-2008 to comply with the most recent Classification of Instructional Programs (CIP) from 2000. The CIP is divided into three levels: Series, Programs, and Majors. Due to an increase in requests from students to be as specific as possible, we have expanded our data collection to include all three levels. The CIP codes are used only for storage purposes, and only the names of the selected majors will appear on www.review.com or in our publications.

Please select all undergraduate majors offered at your institution by following this simple 3 step process:

STEP 1: Select the majors your institution offers from the "All Majors" list and click the "Add Majors" button that appears below the list. To remove a major, select the major from the "Your Majors" list and click the "Remove Majors" button

STEP 2: From among the list of majors you offer, select the three most popular majors by clicking on the major name and clicking the "Add Popular Major" button. To remove, click the "Remove Popular Major" button.

Or, select majors by series, using checkboxes, by clicking [here](#)

Please note: Be sure to save your changes periodically using the Save button at the bottom of this form. Please note switching between forms without saving your work might result in changes being lost.

Review Data Set Form G: Campus Safety (2007-2008)

Instructions and Help

Glossary of Terms

Campus Safety

Provide a URL to a page on your website where your Campus Security Report can be found (in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act).

<http://userv1.police.ohio-state.edu/police/cam>

Fire Safety

Information provided should be for the latest 12 month period for which data is available

1. What percentage of your student housing sleeping rooms are protected by an automatic fire sprinkler system with a fire sprinkler head located in the individual sleeping rooms? %

NOTE: A student housing sleeping room is defined as the actual room in which the occupants live and sleep.

Student housing can include typical residence halls, graduate student housing, married student housing or any housing that is under the control or affiliated with the school, such as private, third-party residence halls built under contract with the school. This does not include Greek housing.

2. What percentage of your student housing sleeping rooms are equipped with a smoke detector that is connected to a supervised fire alarm system? %

NOTE: When the smoke alarm/detector is activated it must transmit a signal to a supervised location, initiating an immediate response by a staff member to investigate. This alarm does not necessarily activate the building fire alarm system.

3. How many malicious fire alarms occur in student housing per year?

NOTE: A malicious fire alarm would be defined as one where a building's fire alarm system is activated even though it is known that there is no emergency condition. For example, someone blows smoke into a smoke detector or a manual pull station is activated.

4. How many unwanted fire alarms occur in student housing per year?

NOTE: An unwanted fire alarm would be defined as one where a building's fire alarm system is activated by non-emergency conditions, yet the fire alarm system responds appropriately to stimuli that it interprets as a fire condition. For example, a smoke alarm that is located too close to a shower and is activated by steam, or is adjacent to a cooking area.

5. What percentage of student housing building fire alarm systems, if activated, result in a signal being transmitted to a monitored location, and security investigates before notifying the fire department? %

6. What percentage of student housing building fire alarm systems, if activated, result in a signal being transmitted immediately to the fire department so they can begin responding? %

7. How many students are trained in fire safety in campus provided housing each semester?

NOTE: This includes contact time where fire safety information is distributed/provided to students. A fire exit drill can be included if education/training is a component of the drill. Simply holding an exit drill will not count towards fire prevention training/evacuation.

Examples of contact hours would include resident assistant floor meetings with the residents or fire extinguisher training that is provided to 30 students in one hour which would equal 30 contact hours. For online training, provide an estimate of how long it would take the average person to complete the training and multiply by the number of people receiving the training.

8. What percentage of RAs and housing directors receive fire safety training?

NOTE: For purposes of this question, housing staff will include only personnel such as resident assistants and/or resident directors who live in student housing.

9. How many contact hours of fire safety training is provided to students not living in student housing (i.e., off-campus, including Greek)?

NOTE: This will not include fire safety training provided to specialties such as laboratory assistants. This must be actual training with contact time and not include simply handing out brochures, fire safety articles in the student newspaper, etc. An example of contact hours would include fire extinguisher training that is provided to 30 students in one hour which would equal 30 contact hours.

10. How many regularly scheduled, supervised exit drills are held per year in student housing?

11. How many fires did your school experience last year in student housing?

NOTE: A fire must result in damage to the structure or contents.

12. What is the dollar loss related to fire that has occurred on your campus in residential housing?

NOTE: Dollar loss is direct property damage to the structure and contents and does not include costs such as alternative housing, staff response, etc

13. How many students have been injured by fires in student housing?

14. How many students have been killed by fires in student housing?

15. Does your school ban any of the following items or activities in student housing sleeping rooms?

- candles
- halogen lamps
- smoking
- cooking
- live christmas trees
- ceiling tapestries
- Other (please specify)

NOTE: The "cooking" option excludes cooking done with school-approved/supplied appliances or in school-approved areas, such as kitchens.

If you selected Other please specify:

16. Does your school require fire-resistance ratings on furniture (including, but not limited to, beds, mattresses, desks, and chairs) in student housing sleeping rooms?

Yes No

17. Does your school require that furnishings brought in by the students have fire-resistance ratings?

Yes No

18. How often are fire safety rules-compliance inspections conducted in your school's student housing?

NOTE: This refers to regularly scheduled, in-room inspections conducted by an inspector or trained individual who is knowledgeable about fire safety issues. It does not refer to a security officer making regular rounds. ALL of the rooms must be inspected during these inspections and checked for hazards.
