Undergraduate Class Size (CDS I-3): In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2006 term. Fall 2005 data provided for your reference.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions: Please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2006. For example, a lecture class with 800 students who met at another time in 40 separate labs

with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

POPULAR MAJORS (CDS J) The first table below lists the most popular majors for 2005 graduates as reported to U.S. News during 2006 . In the second table below for 2006 Graduates, identify the five majors with the largest percent of bachelor's degrees conferred between July 1, 2005 and June 30, 2006 from your institution by entering the CIP 2000 code next to the name. Then list the percent of students graduating with degrees in those fields. Please visit this link: [CIP 2000 codes](http://nces.ed.gov/ipeds/web2000/cip2000.asp) and check it carefully before entering data. Only five majors can be entered. U.S. News will only accept CIP 2000 codes for questions 320, 321, and 322. For more information on CIP 2000, visit: <http://nces.ed.gov/ipeds/web2000/cip2000.asp>.

Note: When reporting majors in Question 321 below, please do not list majors in conjunction with a concentration, emphasis, minor, or subject area. Concentrations, etc., may be reported in question 322.

These two questions use the CIP 2000. Under the box titled "Majors Available", please click on a subject to highlight the Major category. This will open another box directly below which lists the sub-categories of majors (CIP code numbers with up to 4

digits to the right of the decimal place). The sub-categories are arranged by ascending CIP code number. Highlight a major offered by clicking on it (you may click and drag your mouse to highlight multiple selections). Then, click on the button in the middle column with the arrow pointing to the right. Clicking on this button moves the CIP code number of your selection into the right column titled "Majors Offered". To undo a selection, highlight the CIP code number in the "Majors Offered" column and click on the button with the arrow pointing to the left. There is no limit on the number of majors that can be stored in the "Majors Offered" column. The HTML file will only display the CIP code, not its name. U.S. News will only accept CIP 2000, for more information on CIP 2000 visit: <http://nces.ed.gov/ipeds/web2000/cip2000.asp>

Programs/Services for Learning Disabled Students offered during the 2006-2007 academic year.

528 . Check one type that describes your school's LD Program:

- Structured/Proactive/Comprehensive program

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

- Self-directed/decentralized services

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.
