

April '06 Update – Message from Martha

Message from Martha Garland, Vice Provost and Dean Office of Enrollment Services and Undergraduate Education SIS Project Sponsor

A great team is being assembled!

It's hard to believe that April is here! Much of the winter months have been spent preparing for the Fit/Gap phase of our project which begins May 1, 2006. A gathering was held at The Ohio Union's Stecker Lounge on March 9th to welcome the 12 project teams, and to once again, emphasize the importance of the SIS project to the university community over the next several years.

April promises to be another busy and productive month. More members are being added to our team every month. By month's end, almost all will be moving into offices located on Kinnear Road for the duration of the project. Moving so many people into office space at one time is no small feat, but it certainly is worth the effort as it enables our teams to work more efficiently and effectively together.

I am also happy to report that training and education about the SIS Project continues on all levels. Project Team members will continue to attend a variety of Functional Training sessions. Overview sessions about the project are also continuing for our various sponsor areas, and special sessions are being held in mid-April for college users. Our goal is to provide an overview of the SIS Project to everyone and anyone on campus who is or may be a user of the system.

As always, if you have any questions about the project, I encourage you to use the "Ask Us" feature of this SIS project site.

Martha Garland
addresses SIS Project Team
members on March 9th at
the Ohio Union.
