Being a Faculty Member at a Public Institution

PANEL

Alexandra Shimmer
Brandon Lester
Gates Garrity-Rokous
Jan Neiger
• I have authority to sign contracts/agreements on behalf of the University.

• If I am sued by a student or another professor, the University will always represent me.

• My emails are not public records and therefore will not be released to the public or anyone else.

• I can sell goods and services from my personal business to the University.

• When a student informs me that he or she has been discriminated against or sexually harassed, I should first attempt to resolve the matter before moving it forward.
