

Landscape Architecture: Dedicated, Diverse and Probing Faculty

Though small, the faculty's interests and expertise range across a broad group of topical areas, with intersections of scale, philosophy and experience. The assembled faculty brings diversity in culture, education and ethnicity to the MLA program. With four women and three men of socially and economically diverse backgrounds the faculty engage the students in a broad array of interests. The educational and teaching background of the faculty is also diverse, with professional and advanced degrees from seven institutions (Harvard University, Duke University, University of Massachusetts, Arizona State University, University of Southern California, California State Polytechnic, and The Ohio State University). Teaching experience has been gained in the eastern, southern, and western U.S.; professional and scholarly experience has been gained in the Netherlands, Korea, China, Thailand, and Europe. This gives the faculty a firsthand connection with diverse colleagues and a range of cultures, economies and environmental issues at national and international levels.

With research interests in history, theory and criticism, site design, regional planning, urbanism, sustainability, ecology and environment, advanced materials, technology, culture and social responsibility, the group individually and collectively informs one another while providing counterpoint(s) within a vibrant faculty dialog. Senior faculty who have familiarity with the institution and the 'heritage' core curriculum anchor the program's exploration of new initiatives; an array of research grants, publications, participation in international design competitions and built work has enriched the faculty's professional and scholarly activities which in turn informs their teaching. Together the faculty balance the mission of an urban, Research 1, Land Grant University with development of a freshly framed curriculum capable of producing a benchmark program in the field.

A Spectrum of Experience

Professors Simpson and Georg each have over twenty-five years teaching experience, while Amidon, Kentner and Lara each have between eight to fourteen years of experience gained in multiple institutions (Harvard GSD, Arizona State University, The Ohio State University, University of Arizona, New Mexico, University of Texas Austin, and University of Southern California). Three faculty members have international teaching experience in five regions (Mediterranean, Northern Europe, Central Europe, China, and Southeastern Asia). Three of the regular faculty are tenured; one junior faculty member is now in the 4th year review process, and a second will follow in 2011. Assistant Professors Bennett and Cowles each bring significant professional experience and emerging research agendas. With the most recent hires in 2010, the faculty has a strong complement of experience and energy to move new and emerging research agendas forward. With the staggering of junior faculty hires the program can build and mentor new faculty as it continues to engage and refine the curriculum to respond to the importance of public space, urban greenspace and the environment and the dynamic changing needs of society. Through staggering junior faculty hires, the program is able to build and mentor new faculty.

The faculty share a commitment and dedication to the Section's mission and teaching objectives. Of particular interest is the frequency with which colleagues in other disciplines are brought in to the classroom to enrich the learning experience. For example, Assistant Professor Kentner brings in Doctoral students in environmental engineering to do charrettes in his Water in the Landscape class as well as professionals; Associate Professor Georg links her participation in outreach initiatives such as the Urban Landscape Ecology Program (ULEP) and Friends of the Lower Olentangy Watershed (FLOW) to studio research topics; Professor Simpson incorporates area professionals from designers to developers into his land planning exercises; Assistant Professor Lara integrates his work on the Center for Urban and Regional Analysis Grant into graduate seminars on healthy communities and plans to continue with these endeavors as a member of the International Poverty Solutions Center at OSU; Assistant Professor Sarah Cowles' work in social justice expressed in film, exhibits and seminars brings participation in outreach to the communities and into the cultural dialog; Assistant Professor Katherine Bennett continues to develop work and outreach projects in

Korea and Mongolia; and Associate Professor Amidon brings visiting leaders of the profession into studio for feedback on student work and continues her work in the History and Theory of Contemporary landscapes. All of these actions are a direct reflection of priorities grounded in the program mission, specifically:

- To educate students in the critical inquiry, design and technology of landscape architecture in the 21st century;
- To provide a strong foundation of professional landscape architectural training balanced with opportunities for innovation and scholarly work in landscape research, planning, design, management and communication methods;
- To generate and disseminate landscape architectural professional and intellectual knowledge to serve public, professional and academic communities.
- To guide students in integrating skills and knowledge from their undergraduate degree and life experiences into future career paths.

Active Contributors

Both full time and auxiliary faculty are productive members of their professional and scholarly communities, actively contributing knowledge to the profession. Professor Simpson published Dam! Water, Power, Politics in 2005, a well reviewed consideration of the Hetch Hetchy dam controversy. In 2008 Professor Georg led the field research which was foundation for the published the *Sand Beach Master Plan* with auxiliary faculty member Vincent Bednar and City & Regional Planning Professor Jennifer Cowley as well as the *Landscape Action Plan for North Longbeach and Pineville*, Harrison County Mississippi in collaboration with Assistant Professor Lara , Associate Professor Cowley and students. She also led a ULEP charrette Studio in 2008 for an Edible Landscape Demonstration Project in conjunction with the Wooster Community Hospital. Professor Amidon has presented numerous lectures in the past five years, including presentations at universities (Minnesota, Illinois, Ball State, Berkeley, Colorado and conferences (*Second Wave of Modernism* and *International Garden Symposium*, both 2008) and has edited the initial Landscape SourceBook Series, framing the discussion and critical review of works by contemporary leaders in the field. Professor Kentner has been a finalist on a team in the internationally recognized design competition: *Flight 93 Memorial* (2004-5) and recipient of an Honorable Mention (with his collaborator, Karen Lewis) of the Boston Architect's *Massachusetts Bay WindScapes Competition* (2005-2006) and the *Bronx Grand Concourse Competition*. Professor Lara has received the CURA grant to investigate connections between Public Health and Open Space, is a member of the Provost's funded Center for Poverty Solutions (competition 2008-2009). Assistant Professor Lara presents frequently, including peer-reviewed venues such as CELA, ACSP and EDRA as well as at professional conferences across North America and around the world. Assistant Professor Katherine Bennett continues to pursue work in collaboration with the University of Seoul and her work in Mongolia. Assistant Professor Cowles continues her work in exhibitions and landscape investigations curating and designing "Fence Ditch Repeat", El Paso Texas, and the "Monuments of Columbus" at the Battelle/OSU Urban Arts Space as well as being an Invited panelist Roy G. Biv Gallery Talk, "2012".

Auxiliary faculty active in scholarly pursuits and original contributions to the profession include: Lecturer Jake Boswell's presentation at CELA in 2008 and his collaboration with fellow lecturer Jason Brabbs in "Drifts, Debris, Deposits" as part of the "Monuments of Columbus" exhibition; Karla Trott's work (with Jane Amidon and Jonathan Barnes Architects) in the Whittier Design Competition 2006 gained a finalist award; lecturer Charles Cartwright published the paper "Public Perception of Productive Land Uses" in the EDRA 2006 proceedings.

INDIVIDUAL TEACHER'S RECORD

Name: **Jane P. Amidon** Rank: **Associate Professor**

EDUCATION: (College and higher)

<i>Institution</i>	<i>Number of Years Attended</i>	<i>Degree/Date Granted</i>
Harvard University	3	Master of Landscape Architecture 1995
Williams College	4	BA 1988

PROFESSIONAL & ACADEMIC ACTIVITIES: Offices held, exhibitions, competitions, committee memberships in professional societies or boards, etc., for last five years:

Professional Activities

- 2008 Jury Chair, International Garden 2008 Competition, Langenlois, Austria (other jurors: Petra Blaisse, Erik Dhont, Eduard Francois).
- 2008 Juror, Ohio Chapter ASLA Annual Awards.
- 2006 Invited consultant for the National Park Service to evaluate proposed renovation of the Jefferson National Archway riverfront zone in St. Louis.
- 2007 Presenter, EPA Ohio River Conference, St. Louis.
- 2006-07 Member, Dublin Arts Council Memorial Advisory Committee.
- 2006 Facilitator, Urban Design Workshop for the Turner Foundation, Westcott House Foundation, Wittenburg University, Mercy Health Partners and the City of Springfield, OH.
- 2006 Member of the City Council Advisory Panel, Whittier Peninsula development.
- 2006 Contributor to The Cultural Landscape Foundation/ASLA Landscape Legends auction.
- 2006-09 Board Member, Neighborhood Design Center, Columbus, OH.
- 2005 Testimonial letter for US Dept. of the Interior, The Cultural Landscape Foundation/Historic Landscapes Initiative to the Florida Trust for Historic Preservation's "Florida's 10 Most Endangered Historic Places 2005: NationsBank Plaza" report.

2004-05 Member, High Street Redesign Advisory Committee, Columbus, OH.

Academic Service

2009-10 Member, Dean Search Committee
2009-10 Member, KSA P&T Committee
2009 Member, College of Engineering Performance Plan Acceleration Task Force
2009 Review critic, University of Pennsylvania, LSU
2008 External evaluator, Harvard Graduate School of Design, University of Pennsylvania
2008-ongoing Head, Landscape Architecture Section, KSA.
2008-ongoing Chair, Graduate Studies Committee, Landscape Architecture Section, KSA
2008 Chair, Landscape Architecture Faculty Search Committee, KSA
2008 Review critic, Harvard Graduate School of Design, USC, University of Toronto
2008-2009 Member, Strategic Planning and Budget Committees, KSA
2007-2008 Member, College of Engineering Diversity Council
2006-ongoing Member, University Design Review Board
2006, 2007 Member, Director Search Committee, KSA
2006 Representative to the Design Consortium, OSU
(Contributor to the white paper "Design for Resilience: Cross-Functional Knowledge Integration: The Ohio State University Initiative on Integrative Design for the 21st Century").
2004-2007 Member, Graduate Studies Committee, Landscape Architecture Section, KSA
2004-2006 Member, Masters Exam Subcommittee, Landscape Architecture Section, KSA
2003- 07 Member, Landscape Architecture Section Head and Faculty Search Committees KSA
2003- 09 Member, Architecture Section Head and Faculty Search Committees, KSA
2002-2005 Member, Lectures Committee, KSA
2003-ongoing Member, Campus Arts and Memorials Committee, OSU

CONTRIBUTIONS: Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years:

In the past five years my research and creative work have focused on the following:

- 1) Design criticism: the emergence and legacy of modernism in landscape architecture.
- 2) Landscape architectural contemporary theory: establishment of critical frameworks for the spatial, visual, systemic and programmatic potential of productive urban landscapes.

Presentations

- 2009 "Contemporary Parks: Productive and Seductive," *Landscape Days* keynote speaker, Colorado State University.
 2008 "Big Nature: entrepreneurial environments," invited presentation, College of Environmental Design, UC Berkeley.
 2008 "Big Nature: entrepreneurial environments," the JJR/Deb Mitchell Lecture, University of Illinois.
 2008 "Contemporary Parks: Productive and Seductive," invited presentation, Ball State University.
 2008 "Big Nature: toward productive and seductive landscape ecologies," invited presentation, Ohio State University.
 2006 "Eclogue," invited public lecture at the University of Kentucky.
 2006 "Sustainable Green Infrastructures: Making It, Faking It, Reinhabiting, Reinventing," invited presentation at the ASLA Ohio Chapter Annual Conference.
 2006 TERRAGRAM practitioner podcast series: featured interviewee.
 2005 "Dan Kiley: Modernism in the Garden" invited presentation at the Chicago Botanic Garden.
 2004 "6 Natures," H.W.S. Cleveland Distinguished Professor annual lecture, University of Minnesota, College of Architecture and Landscape Architecture.

Symposia and Exhibitions

- 2009 On the Riverfront: St. Louis and the Gateway Arch, Washington University, St. Louis. Invited panel participant and presenter; "Lessons Learned in St. Louis: Grounds for Kiley's Early Work."
 2008 The Second Wave of Modernism in Landscape Architecture in America, Chicago Architecture Foundation. Co-developed and moderated conference with Charles Birnbaum of The Cultural Landscape Foundation (participants: Andrea Cochran, Paul Friedberg, Walter Hood, Tom Oslund, Doug Reed, Mark Rios, Martha Schwartz, Ken Smith, Michael Van Valkenburgh, Thomas Woltz).
 2008 International Symposium on Garden Architecture 2008, Langenlois, Austria. Invited juror and presenter (other participants: Petra Blaisse, Erik Dhont, Edouard Francois).
 2006 Between Form and Circumstance: Re-thinking the Contemporary Landscape exhibition, Harvard Graduate School of Design, curated by Anita Berrizbeitia "Time and Event: Allegheny Riverfront Park," invited critic.

- 2006 Design Ecologies: Sustainable Potentials in Architecture symposium, Knowlton School of Architecture, organized by B. Blostein and L. Tilder. Invited moderator for the symposium's Landscape Ecologies panel (panel members: D.I.R.T. Studio and Latz & Partners).
- 2005 Built/Unbuilt exhibition, Hopkins Gallery, OSU College of Art. Invited team exhibitor of "ActiveSurface:LivingSystem" Whittier Peninsula proposal.
- 2005 Dan Kiley exhibition, Chicago Botanic Garden. Guest Curator and invited Subject Specialist for a show of significant Kiley landscapes within the "Gardens of Paradise" exhibition curated by Penelope Hobhouse.
- 2003 Allegheny Riverfront Park/MVVA symposium, Knowlton School of Architecture. Developed and moderated round table panel of landscape architects, artists and critics (participants: Ethan Carr, Ann Hamilton, Gary Hilderbrand, Erik de Jong, Michael Mercil, Laura Solano, Matthew Urbanski, Michael Van Valkenburgh).
- 2003-07 Curator, Banvard Gallery at the Knowlton School of Architecture Selected shows:
 - 2003 "Reclaiming the American West: Mapping the Post-Technological Landscape," Alan Berger
 - 2004 "Borneo Sporenburg: Residential Waterfront, Amsterdam," West 8/Adriaan Geuze
 - 2004 "Mack Scogin/Merril Elam: Selected Competitions"
 - 2005 "GnuFORM" Heather Roberge and Jason Payne
 - "Walter Hood: Recent Work"
 - 2005 "Kathryn Gustafson/Gustafson Guthrie Nichol"
 - 2005 "Wall Flowers," Ken Smith installation
 - 2006 "Field Operations: Recent Work"
 - 2006 "BioThing" Alisa Andrasek installation

Graduate and Undergraduate Advisees – published or presented

- 2006-07 "Ambiguously Green: Clarifying Sustainable Design Intentions for Ecoroofs," Committee member for doctoral dissertation of Reid Coffman (PhD Hort. 2007).
Received a Merit Award in Professional Research from the Central States ASLA, 2008
- 2006-07 "Reconsidering the Role of the Pastoral in America," Advisor for Graduate Thesis of Jacob Boswell (MLA/MCRP 2007). *Abstract accepted; presented at CELA 2009 conference*
- 2006-07 "Productive Urban Landscapes," Advisor for ASLA-PPN Student Web Journal Editor Shan Wu (MLA 2008)
- 2006 "Continuous Productive Urban Landscape: Kansas City Floodlands," Advisor for the Graduate Independent Study of Rudraksha Jhaveri (MLA 2008).
Project published in Journal of the Indian Institute of Architects, November 2007, pp.35-37
- 2005 "Public Perception of Productive Land Uses," Advisor for the Graduate Independent Study of Charles Cartwright (MARCH/MLA/CRP 2007), Lisa Cutshaw (MLA 2006), Tristan McMannis (MLA 2005) *Presentation and publication at EDRA 2006 conference and proceedings.*

Presentations

2009	ULEP, Second Urban Ecological Landscaping Conference, "Enhancing Self-Reliance and Resilience of Cities", <i>Greensward2: new Approaches to Community Land</i> : December 4, 2009, Cleveland Ohio. **
2007	ULEP, Urban Ecological Landscaping Conference, <i>Urban Biodiversity, Wildlife and Public Health: A Panel Discussion</i> : Chair, "Our public health environmental legacy: Roots in taking charge of the land, building an agricultural base, and sacrificing an ecological balance". October 26, 2007, Cleveland Ohio.
2007	Pineville Landscape Design Workshop and Action Plan, Presentation Harrison County Mississippi, funded by US Department of Housing and Urban Development and the Mississippi Coastal Impact Assistance Program administered by the Mississippi Department of Environmental Quality. December 2007 and March 2008

Grants

2009	IGERT OSU submission to NSF 2009, Program proposed a university multidisciplinary degree (Graduate or Phd. targeted toward an Ecological Landscape Focus, with options for Landscape Architecture, Health Sciences, Geography etc. students to receive advanced degrees). Selected in University wide competition for submission to NSF <i>selected for 2nd stage review at NSF</i> .
2007-09	College of Engineering Video Classroom Teaching /Learning Enhancement Grant, Knowlton Hall, 2007-8, completion March 2009
2009	Center for Water and Ecosystem Services , Finalist Team (1 of 4) selected for final submission for OSU Provost's \$2.5million Innovation Center Grant (Collaborating member and editor of proposal)
2008	IGERT OSU submission to NSF, expanded Faculty and Departmental involvement outside ULEP Selected in University wide competition for submission to NSF <i>(1 of 2 which went forward from OSU internal competition.)</i>
2007	IGERT OSU submission to NSF, with limited number of collaborators all from ULEP. Selected in University wide competition for submission to NSF <i>(1 of 4 which went forward from Ohio State University competition.)</i>

2007 to date: Co-Pi for riparian Vegetation, Olentangy River Restoration and Dam Removal OEPA funded 319 Grant for River restoration habitat monitoring. (City of Columbus, through the Schermer Wetland Center, the Ohio State University

2003-2005 SLR Grant sponsored by the Ohio State University Service Learning Initiative, in conjunction with NR/FABE/CE 618, NR 835, and NR715, work supported by a \$15,000 grant.
<http://swamp.osu.edu/Research/OlentangyRiver/index.htm>.

Projects submitted and CD Documentation of work available. This project and other initiatives won the Ohio State University a National Wildlife Federation **Green Campus Recognition** for exemplary work in demonstrating sustainable practices during the 2003 academic year. Fifty-eight Colleges and Universities sought this recognition, thirteen were honored. Citation: Ohio State University, OH 2003 - 2004

Other

A Primary contribution during the 2003-2009 period has been to stabilize and maintain delivery of highest quality education to students, mentoring and forging a faculty working together, within and complementary to the other Units in the KSA. Though officially Interim Section Head from July 2006 to December 2007, many administrative functions were performed to sustain the program through very dynamic and challenging times.

Design Competitions and Exhibits

- 2009 Exhibit – Intersections: The Grand Concourse Beyond 100. Exhibit Sponsored by the Bronx
Museum of Art, the Design Trust for Public Space and the Center for Architecture New York.
"Inner Space" project was centerpiece of exhibition featuring seven honorable mention projects.
- 2009 Exhibition – "Flat" (digital print) featured in Monuments of Columbus exhibit at OSU Urban Arts
Space. Show was organized and curated by Sarah Cowles.
- 2009 Competition – Intersections: The Grand Concourse Beyond 100. Sponsored by Bronx Art
Museum and the Design Trust for Public Space. Entry "Inner Space" w/ Karen Lewis received
Honorable Mention
- 2008 Lecture – *Deep Green* Columbus AIA InDesign Panel – "Sustainability Redefined" invited panelist
for event organized by Roberto Jimenez, Columbus AIA
- 2008 Competition – Nordhavnen, Copenhagen: The Sustainable City of the Future Sponsored by
Architects' Association of Denmark, CPH City and Port Development Entry "C/O₂: Cycles and
Overlaps" w/ Jake Boswell, Adjunct Faculty KS Jurors include: Ritt Bjerregaard, Lord Mayor Klaus
Bondam, Mayor Flemming Hansen, Director, former Danish Minister Stein Halvorsen, Architect
MNAL Annemarle Lund, Landscape Architect MDL
- 2008 Lecture – 1010 (google) Talk 20 Event hosted by KSA invited lecture as part of Talk 20 event
organized by Eric Elingson and Isabella Gould
- 2008 Lecture – Field Work Knowlton School of Architecture invited lecture as part of Arch 200 Course
- 2008 Lecture – scarCITY vs. denCITY KSA mini-symposium – "On Scarcity" invited by symposium
organizer John McMorrough
- 2007 Competition – *Envisioning Gateway* Sponsored by Van Allen Institute, National Parks
Conservation Association and Columbia University Graduate School of Architecture Planning
and Preservation Entry "BioMASS Transit" Jurors include: Walter Hood – Principal, Hood Design
Peter Latz – Principal, Latz + Partner Landscape Architecture Anuradha Mathur – Principal,
Mathur/da Cunha and Associates
- 2007 Lecture – *Space Race* U.S. EPA Conference "Sustainable Development in the Ohio River
Valley" invited panelist as part of conference proceedings
- 2007 Lecture – *Suburban Infrastructure* University of Kentucky College of Design invited lecture as
part of Karen Lewis's Architecture Seminar on Infrastructure

- 2006 Lecture – *blur*: landscape's shifting image Columbus Museum of Art, Columbus, Ohio invited lecture as part of Lecture Series and William B. Post Photography Exhibit
- 2006 Exhibition – Synthetic Landscapes: ACADIA Conference 2006 University of Kentucky, Louisville, KY "110% juice" included in Conference Gallery Exhibit and Proceedings Publication
- 2006 Exhibition – WindScape Ideas Competition Traveling Exhibition Recognized Entry "110% juice"

Exhibit Locations include but are not limited to:

- Boston Society of Architects, Boston, MA
- NESEA's Building Energy Conference, World Trade Center, Boston, MA
- Massachusetts State House, Boston, MA
- Zuiderkerk Amsterdam
- Truro Center for the Arts at Castle Hill, Truro, MA
- Ministry of VROM Aterlier Rijksbouwmeester Den Haag
- 2006 Lecture – Flight 93: Competition Entry Review Knowlton School of Architecture, Columbus, OH invited Speaker in Jane Amidon's LA 253
- 2005 Exhibition – Flight 93 Memorial Competition Finalists Exhibition Somerset, PA and Washington D.C.
- 2005 Lecture – Flight 93: Competition Experience w/ Karen Lewis UT School of Architecture Summer Academy, Austin, TX

CONTRIBUTIONS: Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years:

In the last five years I've focused on participating in design competitions and presentations that are all very public in nature while also speaking directly to professional colleagues in landscape architecture and allied professions. Design competitions have provided a platform for me to position landscape within the general public's attention while presentations at professional conferences/meetings have allowed me to add to the dialog surrounding landscape and issues of sustainability.

- Lara, Jesus (2004) EPA "Alamar River-Sustainable Restoration" March SCERP conference San Diego State University.

RESEARCH AND FUNDED REASEARCH:

- 2009-present "The Ohio State University International Poverty Solutions Collaborative". Role: additional senior support. The International Poverty Solutions Collaborative involves more than 60 faculty members from 14 colleges. Recognizing the multifaceted nature of poverty, faculty members will work to develop and evaluate comprehensive, culturally-sensitive solutions that allow individuals, families, and communities to thrive. The center will clarify the interrelations among economic, social, cultural, educational, health, and political factors that combine to create poverty conditions..
- 2009 NSF / IGERT, The Urban Landscape: Training pioneers in an ecosystem approach to environment, energy, and health. Role: Co-Pi (currently under review). Our vision is to create an interdisciplinary graduate program in urban landscape ecology. This program will train a new generation of researcher-scholars in an ecosystem approach to urban landscape planning and management as a new frontier that includes humans as integral components of ecosystems.
- 2008- 09 "Identifying and quantifying critical urban green spaces in the Columbus metropolitan region" Role: Principal Investigator (currently being funded by the Center for Urban and Regional Analysis, \$30,000). The research (1) explores current knowledge on the benefits of green urban spaces and their impact on mental, physical and community health, (2) assesses the quantity and quality of green-open spaces and their accessibility as measures of the social capital of a community through a Columbus, Ohio, case study, and (3) establishes a framework for future research in this area.
- 2007 Pineville: Landscape Action Plan for Harrison County, Mississippi (site study leader) As part of The Ohio State University Landscape Architecture Team, I led a group of ten senior landscape architecture students in a week long design workshop for the Pineville Neighborhood Center and the Beatline/County Farm Road regional center in Harrison County MS.
- 2003-06 "Sustainable Phoenix: Lessons from the Dutch Model" Dissertation. Learning from the Netherlands, this dissertation explores the concept of the sustainable urban design and its applications in the context of Phoenix through the investigation and the transfer of knowledge from the Dutch model.
- 2003-04 Fulbright Research Fellowship, "Responsive and adaptive urban environments in the Netherlands." The purpose of this research was to study current trends in planning and urban design in the Netherlands.

CONTRIBUTIONS: Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years:

My teaching, research, and community service emphasize a social consciousness that focuses on the improvement of the built environment as a generator of social capital. This approach creates an academic agenda that seeks the balance between social, cultural and ecological needs. My interdisciplinary education and professional experience allow me to draw from other areas, and enables me to work in diverse teams and settings. I expect to continue to contribute to both theoretical investigations and applied research projects involving designs and policy strategies through collaborative design and community participation towards the creation of social capital and "Healthy Cities". These endeavors will contribute to my teaching activities, and I plan to publish research findings and stay articulated in different media. In addition, I see myself having a critical role in the promotion and creation of international research and academic collaboration with universities in other countries. Currently I have an established network with colleagues in universities in Mexico, Colombia, and the Netherlands with whom I have worked in the past and continue to engage in research and teaching collaborations.
