Dear Dean Miriti,

Please accept this notice of revision to the Master of Health Administration (MHA) curriculum offered by the College of Public Health. The Academic Studies Governance Committee in the College of Public Health approved this revision on September 19, 2025.

The change is a result of minor curriculum revisions. Current learning goals, objectives and the assessment plan will not change for the degree. Attached is a revised curriculum guide, which includes a term-by-term plan, illustrating the changes in the degree.

The modifications include:

- Removing the requirement that students complete PUBHLTH 6001 (Methods in Quantitative Data Analysis, 4 credit hours and PUBHLTH 6002 (History, Values and Essential Services of the U.S. Public Health System, 2 credit hours) and replacing it with PUBHLTH 6010 (Essentials of Public Health, 3 credit hours). This change is a result of the College of Public Health changing the foundational course requirements and no longer offering PUBHLTH 6001 and 6002 starting autumn semester 2026.
- Reducing the total number of required credit hours from 60 to 57 because of this change.

The goal is to implement the revised curriculum effective AU26. The proposed curricular change will have no adverse impact to current MHA students relative to increased credit, costs, or time-to-degree. Current MHA students (n=48) are able to access the curriculum guide from the time of entry on the College of Public Health website and are aware that their degree requirements may differ from MHA students entering the program in Autumn 2026. If feasible, we would appreciate an expedited review and approval as recruitment for the next academic year is underway.

Thank you very much for your time and attention.

Sincerely,

Aram Dobalian, PhD, JD, MPH
Associate Dean of Graduate Studies

2025-2027 Curriculum Guide for Master of Health Administration Degree

MHA graduates will have the knowledge and skills for management and policy positions in health services careers. Master of Health Administration (MHA) students will have access to a designated team of professionals including the MHA Program Manager, MHA Program Director, faculty advisors, and other HSMP and CPH faculty to guide them as they complete the program. This document outlines the 2-year, full-time MHA academic curriculum. This is not considered an on-line degree program; however, students will enroll in a combination of courses designed for on-campus in-person delivery (IP), distance learning (DL). All students are expected to be familiar with the College of Public Health (CPH) Graduate Student Handbook: <https://cph.osu.edu/students/graduate/student-handbook>, the Graduate School Handbook: <https://gradsch.osu.edu/graduate-school-handbook-gsh> and the CPH competencies: <https://go.osu.edu/cphcompetencies>.
