APPENDIX A. School offices, staff, and their functions .................................. 18
I. Introduction

This document sets forth the Pattern of Administration for the Austin E. Knowlton School of Architecture in the College of Engineering at The Ohio State University, as required by the Rules of the University Faculty. The school’s Pattern of Administration supplements and is superseded by the statutes, by-laws, rules, policies, procedures, and guidelines to which the school and its faculty are subject and which are published in documents such as Statutes Applying to the University, Bylaws of the Board of Trustees, Rules of the University Faculty and OAA Policies and Procedures. This Pattern of Administration is subject to continuing revision. It must be reviewed and either revised or reaffirmed upon the appointment or reappointment of the school’s Director. However, revisions may be made at any time. Changes are made in consultation with, and approved by a vote of, the faculty: tenure-track, professional practice, and research. All revisions, as well as periodic reaffirmation, are subject to approval by the College of Engineering and the Office of Academic Affairs.

II. Mission

The mission of the Austin E. Knowlton School of Architecture is to achieve and maintain internationally recognized excellence in education, scholarship and creative activity; shape and serve the professions of architecture, landscape architecture, and city and regional planning; contribute to the intellectual and creative purposes of the college and university; and promote and influence the quality of design and planning locally and globally. The school balances its educational and professional mandate by deploying design and planning as modes of intellectual inquiry and responsible action. At the undergraduate level, design and planning shift a liberal arts education from one of passive reception to active engagement. At the graduate level, design and planning are the critical interface between theory and technique whereby students develop the conceptual breadth and technical expertise to shape a profession’s agenda and evolution. In the scholarship and creative work of its faculty as well, design and planning build a knowledge base and project potential futures. The school’s faculty, students, and alumni are a force for the expansion of knowledge and innovative practice.

In its mission, the Knowlton School aligns with the university’s legacy of contributing to knowledge and addressing society’s needs. The school’s design and planning discourse advances the issues of contemporary society. It incorporates the arts, humanities, and sciences in its curricula, while providing design and planning courses to students in other majors. These offerings are supplemented by public lectures, exhibitions and symposia, publications, and distinguished visiting practitioners and scholars. All of these activities contribute to knowledge, the critique and evolution of contemporary culture, its institutions, and the quality of the built environment.

School faculty, working in concert with other academic and administrative offices of the university, provide their expertise to foster design and planning excellence on the campus and the world. Faculty and student creative work propose solutions to design and planning problems, and faculty scholarship offers knowledge for design and planning decisions. Frequently, these activities take place in partnership with the potential users, and they typically link local and global concerns. The school’s publications and electronic communications disseminate all these efforts to a broad, international constituency.

III. Academic Rights and Responsibilities

The Office of Academic Affairs leads the institutional effort to inform faculty (and students) about relevant policies and procedures and to promote frank, open, and respectful discussion about the issues of freedom of thought and expression. In April 2006, the university issued a
reaffirmation of academic rights, responsibilities, and processes for addressing concerns. The Knowlton School expects all faculty to follow university policies and to contribute to a climate and culture of inclusive excellence.

IV. Faculty and Governance

Faculty Appointments: Rule 3335-5-19 defines the types of faculty appointments possible at The Ohio State University and the rights and restrictions associated with each type of appointment. Detailed information about the appointment criteria and procedures for the various types of faculty appointments is provided in the school’s Appointments, Promotion and Tenure document.

The school makes tenure-track appointments with titles of Instructor, Assistant Professor, Associate Professor, or Professor. Tenure-track faculty may vote in all matters of school governance.

The school makes professional practice appointments. Professional practice faculty titles are Professional Practice Assistant Professor, Professional Practice Associate Professor, and Professional Practice Professor. Professional practice faculty may vote in all matters of school governance except tenure-track faculty promotion and tenure decisions and research faculty promotion decisions. Professional practice faculty may participate in discussions of professional practice faculty matters including promotion reviews.

The school makes research appointments. Research faculty titles are Research Assistant Professor, Research Associate Professor, and Research Professor. Research faculty may vote in all matters of school governance except tenure-track faculty promotion and tenure decisions and professional practice faculty promotion decisions. Research faculty may participate in discussions of research faculty matters including promotion reviews.

Professional Practice Faculty Appointment Cap

Professional practice faculty may constitute no more than 25% of the school’s tenure-track, professional practice, and research faculty members.

Research Faculty Appointment Cap

In accordance with Faculty Rule 3335-7-32, unless otherwise authorized by a majority vote of the tenure-track faculty, research faculty must comprise no more than 20% of the number of tenure-track faculty in the school. In all cases, however, the number of research faculty positions must constitute a minority with respect to the number of tenure-track faculty in the unit.

The school makes associated faculty appointments. Associated faculty titles include adjunct titles, tenure-track faculty on less than a 50% appointment, lecturer titles, and visiting titles. Senior Lecturers can participate in discussions and vote on non-personnel matters but are not members of the eligible faculty for new appointments, reappointments, promotion and tenure and reappointment reviews of tenure-track, professional practice and research faculty. All other associated faculty and faculty joint appointees with FTEs below 50% in the school may be invited to participate in discussions on non-personnel matters, but may not participate in personnel matters, including hiring and promotion and tenure reviews, and may not vote on any matter.

Emeritus faculty are invited to participate in discussions on nonpersonnel matters, but may not participate in personnel matters, including appointment, promotion and tenure reviews, and may not vote on any matter.
Majority faculty rule is favored on all matters covered by the Pattern of Administration. Whenever majority faculty rule is not followed, the Director will explain the reasons for the departure to facilitate understanding within the school. Where possible, this statement of reasons shall be provided before the departure occurs. This explanation shall outline the recommendation of the majority of the faculty, the decision of the Director, and the reasons for the departure. The explanation shall be communicated to the faculty in writing and at a faculty meeting with an opportunity provided for faculty to comment.

V. Organization of School Services and Staff

See Appendix A for a description of school offices, staff, and their functions.

VI. Overview of School Decision Making

The Director in consultation with the faculty makes decisions concerning policies and programs of the school. Matters of greatest general importance receive the widest possible consultation and are discussed at a faculty meeting whenever feasible. Open discussions, both formal and informal, constitute the primary means of reaching consensus on decisions of central importance. Decisions on matters of less general importance should, whenever feasible, involve consultation with those most directly affected by the decision. The opinions of students and staff should be elicited on those matters that most directly affect them. Students and staff may serve on committees when deemed appropriate by the chair of the committee.

Finally, the school’s standing committees provide advice to the Director on particular issues facing the school. They are expected to recommend to the Director any programmatic or policy changes that may improve the school. Committee members should consult with their colleagues whenever feasible and report on their committee’s activities at school and section faculty meetings. A listing of all school and section standing and ad-hoc committees and task forces and their membership shall be posted on the school’s website. The Director may participate in any school and section committee meeting as a non-voting member.

VII. School Administration

A. Director

The Dean of the College of Engineering, in consultation with the school’s faculty and staff, appoints the Director of the school. The Director’s responsibilities are delineated in the university Faculty Rule 3335-3-35. In general, the Director has general administrative responsibility for the school, represents the school in dealing with the Dean or others in the university administration, and maintains a productive environment for its faculty, students, and staff. To this end, the Director is expected to perform the following.

- Prepare and update, in consultation with the Section Heads, faculty, and staff, documents that describe the school’s pattern of administration and the school’s appointments, promotion, and tenure procedures.
- Conduct the business of the school, including hiring and supervising staff and making school service assignments.
- Plan and promote a progressive program with the members of the faculty and the Dean.
- Evaluate and improve instructional and administrative processes; promote
improvement of instruction by providing for the evaluation of each course when offered, including written evaluation by students of the course and instructors, and periodic course review by the faculty.

- Evaluate faculty members annually and inform them of their right to review and add to their primary personnel file.
- Consult with the faculty and make recommendations to the Dean regarding faculty appointments, reappointments, promotions, and dismissals in accordance with procedures set forth in Faculty Rules 3335-6 and 3335-7 and the school’s Appointments, Promotion and Tenure Document.
- Encourage scholarship and educational investigations.
- Maintain a curriculum vitae for all personnel teaching a course in the school’s curriculum.
- Inspire morale and ensure that all faculty are offered privileges and responsibilities appropriate to their rank.
- Ensure that adequate supervision and training are given to faculty and staff.
- Prepare, in consultation with the school’s Cost Center Manager and Section Heads annual budget and forecasting in support of strategic priorities.
- Facilitate and participate in prescribed academic program review processes, in collaboration with the dean of the college and the Office of Academic Affairs.

In addition to these duties, the Director is responsible for establishing and maintaining relationships with alumni and other friends of the school, and identifying and pursuing external funding opportunities in support of the school’s mission in cooperation with University Advancement and designated staff.

Although the Director is responsible for all these endeavors, he/she may delegate them to either an Associate Director and/or Section Heads.

**B. Other Administrators**

1. **Associate Director**

The appointment of an Associate Director may be made at the discretion of the Director in consultation with the regular faculty, subject to approval by the Dean. The appointment shall not exceed the term of the Director. The Director shall determine the Associate Director’s duties. Compensation for the position shall be consistent with the college’s policies governing administrative appointments.

2. **Section Heads**

A section is a discrete discipline-based unit of faculty and students within the school. The school consists of three sections: Architecture, Landscape Architecture, and City and Regional Planning. Each section maintains curricula associated with its discipline, which is administered by a Section Head in consultation with the section faculty. The Director appoints the Section Head in consultation with the section faculty, subject to approval by the Dean. The standard term of appointment for each Section Head shall be four years, though the term may be shorter when warranted and at the discretion of the Director, but for no less than two years. Section Heads are eligible for reappointment by the Director in consultation with the section faculty,
In general, Section Heads are in charge of the section’s academic programs. Responsibilities include:

- assisting the Director in the business of the school, including hiring and supervising staff and making school service assignments;
- assigning workload according to the workload policy and faculty appointment type (and rank);
- promoting and improving individual programs within their section and establishing relationships with the other sections in the school;
- allocating and administering the section budget;
- recruiting and admitting students;
- hiring associated and visiting faculty;
- recruiting faculty and recommending candidates for tenure, professional practice, and research-track faculty positions;
- supervising faculty, which includes teaching, service, mentor, and peer evaluation assignments, and encouraging scholarship and educational investigations;
- assigning peer reviews of teaching;
- writing annual evaluations of faculty in consultation with the Director; and
- evaluating candidates for tenure and promotion.

Where necessary, the Section Head may establish committees to assist in the administration of the section. The Director may delegate other duties to a Section Head as the need arises.

3. Undergraduate and Graduate Chairs

Each Section will have an Undergraduate and Graduate Chair that report to the Section Head and work closely with Student Services. The Chairs are responsible for ensuring that the curricular goals of each program are being met, and general oversight of day-to-day activities related to the execution of the curriculum as well as student advising, recruitment, and admissions. The Chairs also represent each section on the school Academic Affairs Committee.

C. School Committees

School committees help develop and implement policies in support of the school’s mission. Ideally, committees should represent a diversity of disciplines and voices while being equitably distributed. Every effort should be made to staff standing committees with tenure-track and professional practice faculty from all three sections and to rotate membership every three years. School committee members and committee chairs are annually appointed by the school director in consultation with the section heads. Except as noted below, chairs of committees can invite students and staff to serve. At the discretion of the committee chair, students may vote on all matters, although they will be excluded from committee sessions that involve student confidentiality.
1. Academic Affairs Committee

The Academic Affairs Committee consists of the Undergraduate and Graduate Chairs from each section, the Sections Program Coordinator, and student services staff, as appointed by the Director/Associate Director in consultation with the Section Heads.

The committee coordinates school-wide activities as they relate to the curricula. Voting rights are restricted to faculty members. The committee’s responsibilities include the following.

- Review of all curriculum changes proposed by sections, authorization of course and program proposals, and forwarding approved changes to the Council on Academic Affairs in accordance with Faculty Rule 3335-3-34-D-4.
- Establish templates for syllabi
- Annual review of undergraduate admissions policies, and adjustments, as necessary.
- Review of Academic Standards and Procedures criteria, and students on probation.
- Academic initiatives in consultation with the Director and Section Heads.
- Program assessments in cooperation with the Section Heads.

2. Diversity, Outreach and Inclusion Committee

The Diversity, Outreach and Inclusion Committee consists of at least one faculty member from each section and three staff as appointed by the Director in consultation with the Section Heads, and one student from each section (at least one undergraduate and one graduate student). The committee advocates for diversity, equity and inclusion at the school, in alignment with the university values, by proposing and reviewing initiatives, communicating with faculty and students around the topic of school culture, and reporting to the Executive Committee on such matters.

3. Executive Committee

The Executive Committee consists of the Director, the Section Heads, and the Associate Director, though the Director may place additional faculty and staff on the committee on an annual basis after consultation with the Section Heads. The committee reviews all essential matters concerning the school.

4. Baumer Lecture Series Committee

The Baumer Lecture Series consists of one faculty member from each section, with one of these acting as chair. The committee establishes the direction of the upcoming series and invites speakers in consultation with Section Heads. The committee will provide the list of invited speakers to the Communications team in time to produce promotional materials.

5. Library and Collections Committee

The Library and Collections Committee consists of the Architecture Librarian and one faculty member from each section appointed by the Director in consultation with the Section Heads. The committee advises the Library on acquisitions, procedures, and policies and integrates these into the school’s pedagogy. The committee also oversees policies on information literacy and e-learning.
6. Promotion and Tenure (P&T) Committee

The Promotion and Tenure Committee is composed of five to six tenured faculty members with no more than two faculty members coming from any individual section. Students and staff are ineligible to serve on the Promotion and Tenure Committee. The committee includes at least two professors in fourth-year and sixth-year promotion cases. In cases of promotion to professor, the Promotion and Tenure Committee is composed of four to six professors with no more than two professors coming from an individual section. The Director in consultation with the Section Heads appoints all members of the Promotion and Tenure Committee annually, and assigns the roles of Chair and Procedures Oversight Designee. In addition, the Director in consultation with the Section Heads may add more non probationary committee members to provide sufficient representation of the school’s diverse scholarship. The Chair of the Promotion and Tenure Committee shall serve as Chair for no more than four consecutive years. The committee prepares a report on fourth and sixth year review candidates according to the school’s Appointment, Promotion and Tenure document. In addition, the Committee prepares a report on new faculty hires with tenure, and acts on other matters related to promotion and tenure.

7. Technology Committee

The Technology Committee consists of one faculty member from each section, the Shop Coordinator, at least one staff member from Engineering Technology Services (ETS), and one staff member from the school. The Director, in consultation with the Section Heads, appoints all committee members. The committee reviews and develops policies related to school instructional technology and makes recommendations for future investments. Students may be invited to serve on the committee, at the discretion of the chair, to advise on matters pertaining to the student pedagogical and research experience.

D. Section Committees

Section committee members and committee chairs are annually appointed by the section heads. Student committee members may vote.

1. Faculty Search Committee

Faculty searches are section-based. The Section Head appoints a Search Committee composed of at least three tenure-track or professional practice faculty and one student from the hiring section, and at least one faculty member from one of the other two sections. The Section Head appoints a Chair of the committee and a Diversity Advocate who ensures that vigorous efforts are made to gather a diverse pool of qualified applicants. Every effort should be made to rotate faculty serving on search committees. The committee consults with the section faculty in the initiation, review, and recommendation of a short list of at least three candidates, as specified in the APT document. The committee makes a final report, which is advisory to the Director. The Section Head makes a separate recommendation to the Director. The school Director will make a final decision after considering all candidates and after reviewing all recommendations of the Section Head, the Search Committee and faculty vote. In the case of joint hires, any additional relevant constituencies will also be consulted. Faculty search committees will operate in accordance with relevant Knowlton, CoE, and OAA policies.

2. Undergraduate Studies Committees

Each section will have an Undergraduate Studies Committee. Each committee is led by the section’s Undergraduate Chair with at least two additional faculty members, a representative
from student services staff. The committee oversees the curriculum of its respective degree program and proposes improvements, including interdisciplinary offerings, to its Section Head. The committee is also responsible for recruitment and admissions in coordination with the school staff and college and university initiatives.

3. Graduate Studies Committees

Each section will have a Graduate Studies Committee. Each committee is led by the section’s Graduate Chair with at least two additional faculty members, a representative from student services staff, and one student appointed by the Section Head. The committee oversees the curriculum of its respective degree program and proposes improvements, including interdisciplinary offerings, to its Section Head. The committee is also responsible for recruitment and admissions in coordination with the school staff and college and university initiatives. As part of its recruitment and admissions efforts, the committee is responsible for making scholarship awards and other financial aid offers in consultation with its Section Head. A complete listing of committee responsibilities is available here.

VIII. Faculty Meetings

The Director will distribute a schedule of school faculty meetings at the beginning of each academic year. Typically, there will be two school faculty meetings per semester, with the exception of summer semester. The Director, in consultation with faculty, may cancel a meeting if the agenda is insufficient to justify the meeting. In such cases, the Director shall attempt to provide at least one week’s notification to faculty. Conversely, the Director may call additional meetings as necessary, and additional meetings may also be scheduled at the request of at least one-half of the tenure track, professional practice and research faculty. Faculty meeting minutes shall be taken, distributed, and archived.

The Director prepares the agenda for each faculty meeting in consultation with the Executive Committee. Faculty, staff, and student leaders may suggest agenda items for consideration by the Director and Section Heads up to three days before the meeting. Tenure track and professional practice faculty must attend all faculty meetings as attendance constitutes a minimum level of service performance.

A simple majority will pass motions, provided that a majority of the faculty is present. If a majority of the faculty membership is not present, then the voting must be done again at a meeting when a majority of the faculty is present. When a matter must be decided and a simple majority of all faculty members eligible to vote cannot be achieved on behalf of any position, the Director will necessarily make the final decision.

In general, faculty meetings are for the exchange of ideas, to inform the faculty of news relevant to the school, and to discuss important issues. Roberts Rules of Order will be used to determine procedure on issues when special limitations need to be placed on debate and when a critical vote is necessary. Voting on all personnel matters shall be by secret ballot only. Other voting shall be by secret ballot, voice vote, or show of hands as determined by the Director. However, a secret ballot may be taken on any issue upon the request of at least 50 percent of the faculty present. The presumption of majority rule will prevail in all matters requiring a vote. Special policies pertain to voting on personnel matters, and these are set forth in the School’s Appointments Promotion and Tenure Document. Section Heads schedule faculty meetings on a regular basis, but not less than once a month during the academic year. The Section Head prepares the agenda, and distributes and archives meeting minutes.
IX. Faculty Duties and Responsibilities

Depending on their appointment type, faculty members must share in meeting the school’s teaching responsibilities, must be engaged in scholarship, and must share in administration and service obligations. It is recognized that teaching, scholarship, and service activities may overlap and not all require the same amount of time or have the same impact. The Director and the Section Heads strive to maintain equitable distribution of overall workload obligations. The duties and responsibilities of the faculty are described, in accordance with Faculty Rule 3335-3-35-C-2-6. The typical percentages of time dedicated to teaching, scholarship, and service go as follows: Architecture and landscape architecture tenure-track and practice faculty follow a teaching/scholarship/service model of 60/30/10, since their sections do not have PhD programs. City and Regional Planning has a PhD program and follows a teaching/scholarship/service model of 50/40/10, with the exception of its professional practice faculty, who do not advise PhD candidates and follow the 60/30/10 model. Scholarship productivity, teaching release, and special service assignments may affect these percentages. However, excellence in one area never excuses negligence in another. Section Heads may assign additional service duties to tenure-track faculty who are less research-active.

During on-duty periods, faculty members are expected to be available for interaction with students, scholarship, and meetings and events even if they have no formal course assignment. Faculty must hold office hours for two hours per week during the academic year, and list the hours in course syllabi. On-duty faculty members should not be away from campus for extended periods of time unless on an approved leave (see section XII) or on approved travel.

Telework exception: Faculty members with responsibilities requiring in-person interaction are to work at a university worksite to perform those responsibilities. Telework and the use of remote, virtual meetings are allowed at the discretion of the school director if such work can be performed effectively and faculty members are able to fulfill their responsibilities. Telework will be encouraged under certain circumstances if it serves the needs of school, college, university, and/or community. The school director, in consultation with section head(s), has the discretion to require faculty to work on campus if there are concerns that responsibilities are not being fulfilled through telework.

The duties and responsibilities listed here do not constitute a contractual obligation. Fluctuations in demands and resources in the school and/or each section and the individual circumstances of faculty members may warrant temporary deviations from the plan of action.

A full-time faculty member’s primary professional commitment is to Ohio State University and the guidelines below are based on that commitment. Faculty who have professional commitments outside of Ohio State during on-duty periods (including teaching at another institution; conducting research for an entity outside of Ohio State; external consulting) must disclose and discuss these with the Director in order to ensure that no conflict of commitment exists. Information on faculty conflicts of commitment is presented in the university’s Policy on Outside Activities and Conflicts.

Assignments and expectations for the upcoming year are addressed as part of faculty annual reviews by the Section Heads and Director.

In crisis situations, such as life-threatening disease (COVID, for example) or physical dangers (natural disasters, for example), faculty duties and responsibilities may be adjusted by the school director head to take into account the impact over time of the crisis. These adjustments may include modifying research expectations in order to maintain teaching obligations. These assignment changes must be considered in annual reviews.
A. Tenure-Track Faculty

Teaching
Tenure-track faculty are expected to address the school’s curricula; promote inclusive teaching and a diversity of voices, and provide all students the opportunity to realize their full capabilities for learning and, for the most capable and motivated students, an enhanced learning experience. The typical school teaching workload for tenure-track faculty in architecture and landscape architecture consists of four courses per year (usually two design studios and two other courses) plus academic advising, supervision of independent studies, advising of Master theses and other teaching obligations as required by the curricula of each section. In City and Regional Planning, the typical teaching workload for tenure-track faculty is of four courses in addition to participating in PhD advising and committees.

Teaching is assessed according to credit hours generated, GAs supervised, awards, SEIs, peer assessments, and course development. Course revisions according to advances in the field are integral to teaching obligations. The Section Head takes development of new courses into account in making teaching assignments. Faculty should refer the APT document for teaching expectations.

Scholarship
Faculty Rule 3335-6-02-A-1 states that scholarship “is broadly defined to include discovery, scholarly and creative work, applied research, and the scholarship of pedagogy.” Tenure-track faculty are expected to be engaged in scholarship that makes a contribution to the discipline, is gaining or has gained national and/or international recognition, and promises continued growth. Scholarship is assessed according to quantity (the amount produced) and quality (the impact of what is produced). Faculty should refer to the APT document and the workload policy for scholarship expectations.

Service
Tenure-track faculty are expected to make substantive contributions to the governance and advancement of the school in a collegial manner that facilitates positive contributions by others. Service is assessed according to impact and role: assigned task, chair of committee, or member of committee. However, service requirements will vary according to faculty rank and annual demands as managed by the Section Heads and Director. In particular, tenure-track faculty have reduced service obligations during their probationary period. Tenured faculty should also contribute to one or more publics—the university, the civic community, and/or the professions—while understanding that service outside the school does not discount obligations within the school.

All faculty members are expected to attend and participate in faculty meetings, recruitment activities, and other school events. Faculty should refer the APT document and the workload policy for service expectations.

The school recognizes that some of its faculty members bear an inherent additional service burden. That burden accrues when faculty members, often women and/or underrepresented colleagues, are recognized as uniquely positioned to assist with work at the school, college, or university levels. Such individuals may be expected to provide more service than normal because their particular expertise, perspective, or voice can help working groups, for example, or task forces or students (through their mentorship of them) understand context, options, and opportunities in new ways. This additional service burden does not derive from volunteerism. Rather, it is an unwarranted and inequitable expectation.
Service loads should be discussed and agreed to during annual performance and merit reviews. When heavy service obligations are primarily volunteer in nature, the school director is not obligated to modify the service load of the faculty member (reduce teaching and/or scholarly obligations). If, however, a heavy service load is due to the faculty member’s unique expertise, perspective, or voice, this should be noted in the annual performance review letter, considered when distributing the faculty member’s other duties, and taken into account for the AMC Process. The school director should also consider this additional service burden in managing equity of service loads among faculty.

**Release Time**

The purchase of release from teaching must be negotiated by the faculty member with the Section Head and approved by the Director. Faculty seeking release time must have a positive record of achievement, service, and commitment to the school and demonstrate the benefits of the requested release to their continuing professional development and to the school. In general, the purchase of release time is calculated according to the faculty member’s salary, the percentage of workload being bought out, and the faculty member’s rank. Applicants must work with the Section Head to ensure the Section’s ability to accommodate the release time.

**Special Assignments (SA)**

Information on special assignments is presented in the Office of Academic Affairs Special Assignment Policy. The information provided below supplements these policies. A Special Assignment (SA) redistributes some of the regular teaching duties a faculty member for a period of up to one full semester so that he or she may concentrate on a unique teaching, research, or service endeavor or invest in a professional development opportunity. SA’s are subject to the need to assure that sufficient faculty are always present to carry out section work, and whether a faculty member has been granted a leave in the recent past. Preference is given to junior faculty.

Proposals must be submitted to the school director at the close of the autumn semester of the year preceding the proposed SA. Proposals will be evaluated by the director and section heads based upon the degree to which the proposal will: a) enhance the faculty member’s teaching, research, or service; b) strengthen the school’s programs; and c) fulfill its goals during the period requested. Special Assignments must be approved by the dean of the college.

Probationary tenure-track faculty will normally be provided a two-course reduction over the course of their probationary period. The two-course reduction can be combined as an SA. Faculty applying for fellowships or other opportunities requiring a reduction of duties must first be approved for a special assignment or faculty professional leave or agree to purchase release time.

**B. Professional Practice Faculty**

Professional practice faculty members are expected to contribute to the university’s mission via teaching and service, and professional practice. Service expectations are similar to those for the tenure-track. Professional practice faculty should refer to the APT document for teaching, professional practice, and service expectations.

The typical Knowlton School teaching workload for professional practice faculty in architecture and landscape architecture consists of four courses per year plus academic advising, supervision of independent studies, advising of Master theses, and other teaching obligations as required by the curricula of each section. In City and Regional Planning, professional practice faculty who do not advise PhD candidates teach five courses to meet the 60/30/10 model.
C. Research Faculty

Research faculty members are expected to contribute to the university’s mission via scholarship. In accord with Faculty Rule 3335-7-34, a research faculty member may, but is not required to, participate in limited educational activities in the area of his or her expertise. However, teaching opportunities for each research faculty member must be approved by a majority vote of the school’s tenure-track faculty. Under no circumstances may a member of the research faculty be continuously engaged over an extended period of time in the same instructional activities as tenure-track faculty.

Scholarship expectations are similar to those for the tenure-track, albeit proportionally greater since 100% of effort for research faculty members is devoted to scholarship. Specific expectations are spelled out in the letter of offer.

D. Associated Faculty

Compensated associated faculty members are expected to contribute to the university’s mission via teaching or scholarship depending on the terms of their individual appointments (e.g., scholarship is a part of work expectation for associated faculty with tenure-track titles). Faculty members with tenure-track titles and appointments <50% FTE will have reduced expectations based on their appointment level.

Expectations for compensated visiting faculty members will be based on the terms of their appointment.

The standard teaching assignment for full-time lecturers is 24 credit hours per academic year.

E. Mentoring

During their first term of appointment, all tenure-track, professional practice and research faculty will be assigned a faculty mentor in consultation with the Section Head and Director. Mentors will come from the faculty member’s discipline and will be tenured. The mentor will regularly communicate with the faculty member to offer direction on teaching, scholarship/creative practice/service as needed.

F. Modification of Duties

The Knowlton School strives to be family-friendly in its efforts to recruit and retain high quality faculty members. To this end, the school is committed to modification of duties to provide its faculty members flexibility in meeting work responsibilities within the first year of childbirth/adoption/fostering or care for an immediate family member who has a serious health condition, or a qualifying exigency arising out of the fact that the employee’s immediate family member is on covered active duty in a foreign country or call to covered active duty status. This can include a 50% reduction in course teaching for the academic year. See Appendix C of the College of Engineering’s POA for details. The faculty member and the Section Head, in consultation with the Director, will be creative and flexible in developing a solution that is fair to both the individual and the section while addressing the needs of the university. Expectations must be detailed in a form that is approved by the college Dean.

G. Workload Adjustments

Variations in scholarship are a normal feature of academic life and variations may also occur in teaching and service performance. However, a consistent pattern of underperformance in teaching, scholarship, and/or service may lead to increased assignments in the remaining
areas. Conversely, a reduction in teaching requirements is possible for faculty who regularly exceed expectations in scholarship or service.

X. Course Offerings and Teaching Schedule

The Section Heads will annually develop a schedule of course offerings and teaching schedules in consultation with the faculty, both collectively and individually. While every effort will be made to accommodate the individual preferences of faculty, the school’s first obligation is to offer the courses needed by students at times and in formats, including on-line instruction, most likely to meet student needs. To assure classroom availability, reasonable efforts will be made to distribute course offerings across the day and week. To meet student needs, reasonable efforts will be made to assure that course offerings match student demand and that timing conflicts with other courses students are known to take in tandem are avoided. A scheduled course that does not attract a minimum number of students required by Faculty Rule 3335-8-16 will normally be cancelled and the faculty member scheduled to teach that course will be given another teaching or service assignment for that or a subsequent semester. The minimum course enrollment is eight students with the exception of seminars and PhD courses where a six-student average over two years is the minimum. This minimum can be waived by the section head, in consultation with the director, if sufficient resources and programmatic justifications exist.

XI. Allocation of School Resources

The Director, in concert with the Section Heads, is responsible for the fiscal and academic health of the school and for assuring that all resources—fiscal, human, and physical—are allocated in a manner that will optimize achievement of school goals. The Director will discuss the school budget at least annually with the faculty and attempt to achieve consensus regarding the use of funds across general categories. However, final decisions on budgetary matters rest with the Director. Research space will be allocated on the basis of scholarship productivity including external funding and will be reallocated periodically as these faculty-specific variables change. The allocation of office space will include considerations such as achieving proximity of faculty in sections and productivity and grouping staff functions to maximize efficiency. Faculty or staff may be asked to share space, should the necessity arise.

The allocation of salary funds is discussed in the school’s Appointments, Promotion and Tenure document.

XII. Leaves and Absences

The university’s policies and procedures with respect to leaves and absences are as per the Office of Academic Affairs Policies and Procedures Handbook and Office of Human Resources Policies and Forms website. The following sections supplement these policies.

A. Discretionary Absence

Faculty planning to travel for consulting or professional meetings must request an approved Spend Authorization (SA). Approvals must be documented in Workday prior to the trip. Estimated costs and the business purpose associated with travel must be included. Faculty may not approve their own travel. For an extended absence of more than ten days, faculty must enter a Leave of Absence request in Workday. In both cases, the request must be completed well in advance to provide time for approval. Discretionary absence from duty is not a right and the Section Head and Director retain the authority to disapprove a proposed
absence when it will interfere with instructional or other comparable commitments. Such an occurrence is most likely when the number of absences in a semester is substantial. The Rules of the University Faculty require that the Office of Academic Affairs approve any discretionary absence of ten or more consecutive days (see Faculty Rule 3335-5-08).

B. Absence for Medical Reasons

When absences for medical reasons are anticipated, faculty members are expected to complete a Leave of Absence request in Workday as early as possible. When such absences are unexpected, the faculty member, or someone speaking for the faculty member, should let the Section Head know promptly so that instructional and other commitments can be managed. Faculty members are always expected to use sick leave and, when applicable, Family and Medical Leave (FML) for any absence covered by sick leave (personal illness, illness of family members, medical appointments). Sick leave is a benefit to be used—not banked. For additional details see OHR Policy 6.27.

C. Unpaid Leaves of Absence

The university’s policies with respect to unpaid leaves of absence and entrepreneurial leaves of absence are set forth in the Office of Human Resources Unpaid Leave Policy 6.45.

D. Faculty Professional Leave (FPL)

Information on faculty professional leaves is presented in the OAA Policy on Faculty Professional Leave. The college provides deadlines and procedures at the beginning of every academic year. The Section Heads will review all requests for faculty professional leave and make a recommendation to the Director. The Executive Committee and Director will give priority to those applicants who have a positive record of achievement, service, and commitment to the school and can show the benefits of the requested leave to their continuing professional development and to the school. Applicants must also work with the Section Head to ensure the Section’s ability to accommodate the release time. Applicants will be judged on the above criteria and the lapsed time since their last leave.

Faculty applying for fellowships or other opportunities requiring a reduction of duties must first be approved for a special assignment or faculty professional leave or agree to purchase release time.

E. Parental Leave

The university, the college, and this school recognize the importance of parental leave to faculty members. Details are provided in the OHR Parental Care Guidebook, Paid Time Off Policy 6.27, and the Family and Medical Leave Policy 6.05.

XIII. Additional Compensation and Outside Activities

External consulting can serve the academic interests of a professional school. However, faculty must follow the Ohio State University policy on paid external consulting. Information on paid external consulting is presented in the university’s Policy on Outside Activities and Conflicts.. The school expects faculty members to carry out the duties associated with their primary appointment with the university at a high level of competence before seeking other income-enhancing opportunities. All activities providing additional compensation must be approved by the school director regardless of the source of compensation. External consulting must also be approved. Approval will be contingent on the extent to which a faculty member is carrying out regular duties at an acceptable level, the extent to which the extra income activity appears likely
to interfere with regular duties, and the academic value of the proposed consulting activity to the school. It is university policy that faculty may not spend more than one business day per week on supplementally compensated activities and external consulting combined, and additional pay may not exceed 20% of an employee’s salary in the AMCP year. Faculty who fail to adhere to the university’s policies on these matters, including seeking approval for external consulting, will be subject to disciplinary action.

Faculty with an administrative position (for example, chair or director, associate/assistant dean, center director) remain subject to the Policy on Outside Activities and Conflicts and with appropriate approval, are permitted to engage in paid external work activities. However, faculty members with administrative positions are not permitted to accept compensation/honoraria for services that relate to or are the result of their administrative duties and responsibilities.

Faculty members must request permission to use a textbook or other material that is authored by that faculty member and the sale of which results in a royalty being paid to him or her. Requests must be submitted to the director three months before the course is offered and include the reasoning for the textbook or other material’s selection.

Faculty who fail to adhere to the university’s policies on these matters, including seeking approval for external consulting, will be subject to disciplinary action.

XIV. Financial Conflicts of Interest

A conflict of interest exists if financial interests or other opportunities for tangible personal benefit may exert a substantial and improper influence upon a faculty member or administrator’s professional judgment in exercising any university duty or responsibility, including designing, conducting or reporting scholarship. For further details, see the University’s Policy on Outside Activities and Conflicts.

Faculty members are expected to review their professional activities to avoid conflicts of interest as defined in the Ohio State University conflict of interest policy. Faculty members are required to file conflict of interest screening forms annually and more often if prospective new activities pose the possibility of financial conflicts of interest. Faculty who fail to file such forms or to cooperate with university officials in the avoidance or management of potential conflicts will be subject to disciplinary action.

In addition to financial conflicts of interest, faculty must disclose any conflicts of commitment that arise in relation to consulting or other work done for external entities. Further information about conflicts of commitment is included in Section IX above.

XV. Grievance Procedures

Members of the school with grievances should discuss them with the Section Head or Director, as appropriate. The procedures for the review of specific types of complaints and grievances are provided below.

A. Salary Grievances

A faculty or staff member who believes that his or her salary is inappropriately low should provide documentation and discuss the matter with the Director. Faculty members who wish to discuss dissatisfaction with a salary increase with the school Director must be prepared to explain how their salary (rather than the increase) is inappropriately low, since increases are solely a means to an optimal distribution of salaries.

Faculty members who are not satisfied with the outcome of the discussion with the Director
should meet with the college’s Associate Dean of Academic Affairs who can set up a Salary
Grievance Committee to review the case and make a recommendation to the dean, as per the
College of Engineering’s POA (XVI, D). More information can be found online in the OAA’s

Staff members who are not satisfied with the outcome of the discussion with the Director should
contact the college’s Director of Human Resources who can advise them on appeal processes.
More information can be found through Employee and Labor Relations in the Office of Human
Resources.

B. Faculty and Staff Misconduct

Complaints alleging faculty misconduct or incompetence should follow the procedures set forth
in Faculty Rule 3335-5-04.

Any student, faculty, or staff member may report complaints against staff to the school director.
The Office of Employee and Labor Relations in the Office of Human Resources can provide
assistance with questions, conflicts, and issues that arise in the workplace.

C. Faculty Promotion and Tenure Appeals

Promotion and tenure appeals procedures are set forth in the school’s APT document and
Faculty Rule 3335-5-05.

D. Harassment, Discrimination, and Sexual Misconduct

The Office of Institutional Equity exists to help the Ohio State community prevent and respond
to all forms of harassment, discrimination, and sexual misconduct.

1. Ohio State’s policy and procedures related to affirmative action and equal
employment opportunity are set forth in the university’s policy on affirmative action
and equal employment opportunity.

2. Ohio State’s policy and procedures related to nondiscrimination, harassment, and
sexual misconduct are set forth in the university’s policy on nondiscrimination,
harassment, and sexual misconduct.

E. Violations of Laws, Rules, Regulations, or Policies

Concerns about violations of laws, rules, regulations, or policies affecting the university
community should be referred to the Office of University Compliance and Integrity. Concerns
may also be registered anonymously through the Anonymous Reporting Line.

F. Complaints by and about Students

Student complaints about courses, grades, and related matters are brought to the attention of
individual course instructors. In receiving such complaints, faculty should treat students with
respect regardless of the complaint’s merit and provide a considered response. If the complaint
cannot be resolved between the student and faculty member, either party may ask the Section
Head for a judgment. In such a case, the Section Head will first ascertain whether the student
requires confidentiality or not. If confidentiality is not required, the Section Head will investigate
the matter as fully and fairly as possible and provide a response to both the student and any
affected faculty. In this effort, the Section Head may enlist an advisory committee of three
faculty.

If confidentiality is required, the Section Head will explain that it is not possible to fully
investigate a complaint in such circumstances and will advise the student on options to pursue without prejudice as to whether the complaint is valid or not. See Faculty Rule 3335-8-23.

Faculty complaints regarding students must be handled in accordance with university rules and policies. Faculty should seek the advice and assistance of the Section Head, Director, and other administrators with knowledge of policies and procedures.

G. Academic Misconduct

In accordance with the Code of Student Conduct faculty members will report any instances of academic misconduct to the Committee on Academic Misconduct. See also Board of Trustees Rule 3335-23-05.
APPENDIX A. School offices, staff, and their functions

Operations and Administration

Business Operations Manager: Assists the director and school leadership in the general administration of the school and its operations. Serves as liaison to Engineering Technology Services and manages projects requiring cross-team collaboration. Supervises the school’s Academic Program Services Specialist, Coordinator-Building Services, Engagement and Alumni Relations Specialist and student staff.

Coordinator-Building Services: Manages operations and building services for the school, coordinates space and A/V equipment scheduling.

Materials and Fabrication Lab Manager: Manages operations of the school’s materials and fabrication lab.

Academic Program Services Specialist: Provides curricular and programmatic support for the three academic sections of the Knowlton School. Coordinates course scheduling and supports accreditation processes. Serves as liaison between sections and staff.

Administrative Assistant to the Director: Manages the affairs of the Director and coordinates efforts with Section Heads, faculty, staff, and students.

Fiscal

Cost Center Manager: Serves as the Business Manager for the Knowlton School and collaborates with school leadership to implement fiscal processes and strategies. Supervises the Financial Operations Coordinator and Materials and Fabrication Lab Manager.

Financial Operations Coordinator: Processes internal and external purchasing, p-card transactions, reimbursements, travel requests and post-travel reimbursement requests.

Student Services

Academic Program Services Manager: Manages the school’s Student Services office, undergraduate advising, graduate programs coordinator and student staff. Liaises with the section heads, chairs, and the college—advising, scholarship, and career services. Supports recruitment and retention initiatives.

Senior Academic Advisor: Advises Knowlton School undergraduate students, second majors and students minoring in architecture, landscape architecture, or city and regional planning.

Academic Program Coordinator: Advises Knowlton School undergraduate students; supports the process for transfer students; acts as liaison for Knowlton Student Organizations.

Graduate Programs Coordinator: Oversees graduate admissions and provides support for Knowlton School graduate students on academic program policies, financial support, enrollment, curriculum, and graduation requirements. Develops recruitment and retention strategies.

Communications and Marketing

Communications & Marketing Manager: Is responsible for the Communications and Outreach
plan and design identity of the Knowlton School. Manages all projects in print and digital form, including social media. Supervises the media production coordinator, school’s graphic designer, and digital archivist.

- **Media Production Coordinator**: Produces the creative print and digital media content—text, photographic and video—for the Knowlton School.

- **Senior Graphic Designer**: Develops Knowlton School brand materials and visual identity in collaboration with school leadership. Is responsible for the design and production of promotional materials (digital and print).

- **Digital Archivist**: Is responsible for the collection and curation of student and faculty work for marketing, accreditation and archival purposes.

**Advancement**

- **Director of Development**: Develops and implements plans to secure major gifts in support of the Knowlton School. Works closely with the Director, the College, and the Engagement and Alumni Relations Senior Associate.

- **Engagement and Alumni Relations Senior Associate**: Is responsible for developing programming that engages Knowlton alumni and friends, the Office Associateship Program, and annual giving initiatives. Plans all Knowlton School advancement events.

**Architecture Library**

- **Architecture Librarian**: Manages the Architecture Library and acts as a liaison between Ohio State library system and the Knowlton School.

- **Library Associate**: Compiles reserved materials for courses and oversees maintenance of library collections.
