RE 181 Credit Hour Plan for Early and Middle Childhood Education Major

Attached please find the revised curriculum plan from the School of Teaching and Learning (EDU T&L) for Early and Middle Childhood Education (EMCE) Majors, pre-licensure track available through regional campuses only. This plan allows students to complete the degree with a minimum of 181 credit hours.

After EDU T&L did a careful review of this program, it was discovered that undergraduate students were taking anywhere between 30-45 elective hours and much of the course work they were taking could be "double-counted" on the program sheet. This discovery allowed EDU T&L to utilize coursework more efficiently and effectively to facilitate the reduction in credit hours. For example, particular courses could now count as a GEC requirement and an area of concentration requirement, or as a major requirement and an area of concentration requirement.

The EHE Curriculum Committee and the College Council unanimously approved this plan.

Please feel free to contact me should you have any questions.
