W. Randy Smith, Vice Provost
Office of Academic Affairs
203 Bricker Hall, 190 North Oval Mall
CAMPUS

Dear Randy:

The Arts and Sciences Committee on Curriculum and Instruction (CCI) unanimously approved a **revision to two minors in Sociology (Social Stratification and Inequality and Criminology)** as well as a **new minor in Sociology (Health and Society)** on May 29, 2009. The main contacts for this proposal are Paul Bellair (bellair.1@sociology.osu.edu) and Craig Jenkins (jenkins.12@sociology.osu.edu). The CCI Subcommittee on Social, Behavioral, Biological, Mathematical, and Physical Sciences approved the minor at their meeting on May 12, 2009 and the Social and Behavioral Sciences College Curriculum Committee approved the minor on January 13, 2009.

There are no new or revised course requests associated with this proposal. The attached proposal has four components.

- 1) The retention of the current **Sociology** minor (still 25 credits) with no changes
- 2) A proposal to revise the **Social Stratification and Inequality** minor (still 25 credits), including the following changes:
 - Name change to **Inequality and Society** to make the content of the minor more transparent and attractive to students
 - The addition of Sociology 202 (Social Problems) and 306 (Sociology of Poverty) to the core, differentiating it from the Sociology minor and increasing disciplinary specialization for students
 - The movement of Sociology 101 and Sociology 487 from the core to the elective category
 - Students must complete the three core courses (15 credits) and choose two courses from a wide array of electives (Appendix A)
- 3) A proposal to revise the **Criminology** minor (still 25 credits), including the following changes:
 - Name change to **Criminology and Criminal Justice Studies** to align the name of the minor with the recently approved name change of the major
 - The addition of Sociology 209 (Introduction to Criminal Justice) and Sociology 511 (Sociology of Youth and Crime) to the core, thus differentiating it better from the Sociology minor and helping students focus on the Criminal Justice/ Criminology aspects of the discipline
 - The movement of Sociology 101 and Sociology 487 (Types of Sociological Inquiry) to the elective category
 - Students must complete the three core courses (15 credits) and choose two courses from the list of electives

- 4) A proposal for a new minor in **Health and Society** (25 credits) which gives students access to the growing disciplinary areas of population, aging, and medical sociology, allowing them to explore sociological theory as it relates to the health care industry and social trends in health-related issues. Students must complete three core courses (Sociology 290, 450 and 629 or 630) which total 15 credits and take two electives. Please see the subcommittee cover letter and the full proposal for a detailed explanation of how the Health and Society minor fills a gap in the minor curriculum and addresses this developing area of study.

As the subcommittee cover letter indicates on page two, there was debate over the inclusion of Sociology 101 in the minor and the Arts and Sciences rule that states: "The inclusion of 100-level courses [...] is discouraged. For every five credit hours of 100-level course work on the minor, the minimum total (20) required for the minor is increased by five." After communication with the Sociology faculty (see enclosed letters and detailed transmittal history) and careful deliberation, the subcommittee felt that the placement of Sociology 101 within these minors was appropriate and recommended to the full CCI that all proposals should be approved. The rule referred to above is also now included on all Arts and Sciences minor sheets to keep students clearly informed of the rule governing 100-level course work on minors.

The changes above were prompted not only by disciplinary developments, but also by student input and new faculty hires.

The CCI felt that the revisions proposed, as well as the addition of the new Health and Society minor were reasonable and that the differentiation among these minors would add value to students' experiences.

Please let me know if I can be of further assistance as CAA considers these proposals.

Sincerely,

Kathleen M. Hallihan

Sociology Minor (Sociology)

Department of Sociology, Undergraduate Student Services,
141 Townshend Hall, 1885 Neil Ave Mall, Columbus, OH
43210-1353; 614-292-1175; sociology.osu.edu/ug

Congratulations on choosing to minor in Sociology!

Overview

You must complete 25 hours of course work in Sociology, including these requirements: Sociology 101 (Introduction to Sociology and 488 (Introduction to Sociological Theory).

Sociology 487 (Types of Sociological Inquiry) is also required UNLESS you have taken an equivalent course as part of your major. Consult with an academic counselor in the Dept. of Sociology regarding this requirement.

You may then select any combination of additional courses in Sociology to meet the 25-hour requirement.

Early consultation with a counselor to discuss course choices is highly encouraged.

Any variation from the program described here, needs the approval of an academic counselor in the department.

When preparing to graduate:

- If "OK" appears next to your minor on your DAR, you have met the minor requirements and your minor can be officially approved by a college counselor.
- If "NO" appears next to your minor on your DAR, you must meet with an academic counselor in the Sociology Department.
- If your minor does NOT appear on your DAR, you must meet with an academic counselor in the Sociology Department to complete a Minor Program Form.

For further information, contact the department.

If your major is criminology, you must consult with an academic counselor in the department to develop your curriculum plan.

Required courses

Sociology 101, 488

Sociology 487 (or equivalent)

Elective courses

Sociol 202, 210, 302, 306, 309, 310, 320, 330, 345, H345, H367.01, 367.02, H367.03, 370, 380, 382, 391, 407, 430, 434, 435, 450, 460, 463, 464, 467

Sociol 508, 509, 597.01, 597.02, 601, 605, 606, 608, 610, 623, 629, 630, 635, 640, 652, 653, 655, 662, 666, 670, 671, 672, 680, 694.01, 694.02, 694.03, 694.05, 694.06, 694.07, 694.08, 694.09, 694.10, 694.11, 694.12, 694.13, 694.14, 694.15

Sociol 489 does not count on the minor.

Arts and Sciences minor program guidelines

The following guidelines govern minors.

Required for graduation No.

Credit hours required 25 hours.

Transfer credit hours allowed A maximum of 10.

Overlap with the GEC Permitted.

Overlap with the major Not allowed.

- The minor must be in a different subject than the major.
- The same courses cannot count on the minor and on the major.

Overlap between minors Permitted, however each minor completed must contain 20 unique hours.

Grades required

- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

100-level course work For every five credit hours of 100-level course work on the minor, the minimum total required for the minor is increased by five.

Approval required The minor may be approved by the student's College/School Advising Office via the Degree Audit Report (DAR). If the minor is not complete on the DAR, the student must consult with a Dept. of Sociology advisor.

Filing the minor program form A minor program form is not required. The DAR certifies the minor. The minor must be declared at least by the time the graduation application is submitted to the student's College/School Advising Office.

Changing the minor Once the minor is certified as a part of applying for graduation, any changes must be approved by an advisor in the Dept. of Sociology.

Inequality and Society Minor (Sociology)

Department of Sociology, Undergraduate Student Services, 141 Townshend Hall, 1885 Neil Ave Mall, Columbus, OH 43210; 614-292-1175; sociology.osu.edu/ug

The Inequality and Society minor is designed to provide undergraduate students with a focused sequence of coursework in a sub-field of sociology in which our faculty excel. The minor will provide students with a sociological background on the subject of stratification and inequality and will provide those attaining public sector, research-oriented jobs with valuable insight on issues pertaining to family, education, work, and politics.

Students electing a minor in Inequality and Society are required to complete 25 hours of course work.

If your major is criminology, you must consult with a departmental advisor to develop your curriculum plan.

This minor is not available to Sociology Majors.

Required courses

Sociology 202 Social Problems
Sociology 306 Sociology of Poverty
Sociology 463 Social Stratification: Race, Class, and Gender

Elective courses

Choose a minimum of 10 hours of elective course work from the list below.

SOCIOL 101, 210, 294, 302, 309, 310, 315, 320, 330, 340, 345/H345, H367.01, 367.02, H367.03, 370, 380, 382, 391, 407, 410, 430, 434, 435, 450, 460, 464, 466, 467, 487, 488

SOCIOL 508, 509, 511, 549, 597.01, 597.02, 601, 605, 606, 608, 609, 610, 623, 629, 630, 635, 640, 648, 649, 651, 652, 653, 655, 662, 666, 670, 671, 672, 680, 694.XX

Health and Society Minor (Sociology)

Department of Sociology, Undergraduate Student Services, 141 Townshend Hall, 1885 Neil Ave Mall, Columbus, OH
43210-1353; 614-292-1175;
sociology.osu.edu/ug

The Health and Society minor is designed to expose undergraduate students to sociological theory concerning the operation of the health care industry and social trends in health care phenomena. The courses focus on the realities of an aging population including a focus of the demographics and meaning of death, social factors in disease and illness, the social distribution of physical and mental health, and social aspects of the health care industry and health care delivery.

Students selecting a minor in Health and Society are required to complete 25 hours of course work.

If your major is criminology, you must consult with an academic counselor in the department to develop your curriculum plan.

This minor is not available for Sociology majors

3 Required courses:

Sociology 290 Sociology of Death and Dying
Sociology 450 Illness and Social Behavior
Choose one of the following courses:
Sociology 629 Mental and Physical Dimensions of Health
Sociology 630 Medical Sociology

Elective courses:

Choose a minimum of 10 hours of course work from the list below:

SOCIOL 101, 202, 210, 294, 302, 306, 309, 310, 315, 320, 330, 340, 345/H345, H367.01, 367.02, H367.03, 370, 380, 382, 391, 407, 410, 430, 434, 435, 460, 463, 464, 466, 467, 487, 488

SOCIOL 508,509, 511, 549, 597.01, 597.02, 601, 605, 606, 608, 609, 610, 623, 629*, 630*, 635, 640, 648, 649, 651, 652, 653, 655, 662, 666, 670, 671, 672, 680, 694.XX

*SOCIOL 629 or 630 may be chosen as an elective, if not chosen as a required course.

Subject: Revision of Sociology Minor

From: John D. Harder, Chair

CCI Sciences Subcommittee

The CCI Sciences Subcommittee first considered the proposal for revision of the Sociology Minor at its meeting on 9 February 2009. The proposed revision involves 1) retention of the current Sociology minor program with no changes, 2) restructuring and renaming of the other two existing minor programs: Social Stratification and Inequality and Criminology, and 3) the addition of a new minor program in Health and Society as outlined in the attached summary and Table 1. The proposed changes do not change the current total credit hours (25) required of Sociology minors.

Social Stratification and Inequality to be renamed: Inequality and Society, 25 credit hours.

This minor program currently suffers from low enrollment, perhaps because students are unfamiliar with the term “stratification”. Also, it is not well differentiated from the Sociology minor. These shortcomings are addressed with the name change and the addition of two courses (Sociology 202 and 306), both of which deal with social stratification. Sociology 463 is retained and Sociology 101 is dropped as a requirement. Students choose from a list of some 67 courses in Sociology (Appendix A) for two electives (5 hrs each) to complete their minor of 25 hours.

Criminology to be renamed: Criminology and Criminal Justice Studies, 25 credit hours.

This is a popular minor (67 enrolled, SP’08), but it is poorly differentiated from the Sociology minor. The department intends to strengthen this program with a name change that reflects areas of strength in the department and its major by the same name. Introduction to Criminal Justice (209) and Sociology of Youth and Crime (511) replace Sociology 101 and 487 as prerequisites. Students choose from a list of some 38 courses in Sociology (Appendix B), focused on criminology, for two electives (5 hrs each) to complete their minor.

Health and Society: a new minor in Sociology, 25 credit hours

The department proposes this minor to take advantage of growing faculty strength (4 new hires) in population, aging, and medical sociology and their participation in the Initiative in Population Research. Students completing this minor will be knowledgeable in sociological theory as it relates to operation of the health care industry and social trends in health related issues.

The revision of the Sociology minor programs builds on the strength of the current Sociology minor (105 enrolled, SP’08) to offer four programs organized around substantive areas of expertise among faculty in the department. The Subcommittee believes that the rationale for the proposed revision is compelling and that curricular structure of the four programs is well developed and differentiated.

Page 2 of 2
Sociology Minors
27 May 2009

The Sciences Subcommittee was concerned in its deliberations with two issues:

- 1) prerequisites for required courses in two of the programs: Sociology 511, 629, and 630, and
- 2) the status of Sociology 101 as a required course in the Sociology minor program but as an elective in the other three.

The use of 100-level courses in minors is discouraged (page 20 of the Curricular Operations Manual), and the subcommittee was concerned that use of Sociology 101 as an elective in three of the minors would effectively constitute a 20-hour minor for students who had taken 101 prior to enrolling in the minor, while use of 101 as a required course in the Sociology minor would constitute a 25-hour minor for students who had not yet taken the course. The proposal was returned to the department with the recommendation to remove Sociology from the elective list or to provide a rationale for retaining it as an elective in three of the four minors.

The Subcommittee considered the response (3/12/09) from Sociology on 7 April 2009. With regard to the prerequisites for Sociology 511, 629, and 630, Sociology is very confident that students will have taken a 200-400 level course prior to enrolling in the aforementioned upper level courses. They have numerous lower-level (i.e., 200-400) courses that are regularly offered and new minors will be advised to complete either 209 (Introduction to Criminal Justice) or 410 (Criminology) before taking 511 (Sociology of Youth and Crime), or in the case of Health and Society minors that they will need 290 (Sociology of Death and Dying) before enrolling in 629 or 630.

With regard to Sociology 101, the department noted that the Manual states that, if a 100-level course is included in the minor program, there must be 20 additional hours of non-100 level coursework. That is the case in the Sociology minor program. Dr. Bellair also emphasized that that most students who elect one of their minor programs will have taken 101. Thus, there would be no inequality in the rigor of the four programs or the hours required for the Sociology minor compared to the other three minor programs.

At its meeting on 12 May 2009 the Subcommittee voted to withdraw the 4/7/09 contingencies, which instructed the department to remove statements about not increasing credit hours and to remove Sociology 101 as a required or elective course within the Sociology minor programs. The subcommittee found the rationale set forth for each of the Sociology minors to be compelling and well supported by the proposed curricula and voted to unanimously approve the four Sociology minor programs.

To: CCI Sciences Subcommittee

From: Department of Sociology (Paul E. Bellair, DUS, and J. Craig Jenkins, Chair)

Subject: CCI Sciences Subcommittee comments on Sociology proposal to revise minor programs

Date: March 12th, 2009

1. Sociology 511, 629 and 630 all list their prerequisite as: 5 credit hours in Sociology at the 200-400 level. How confident is the department that a student will have taken a 200-400 level course by the time they sign up for one of these 3 courses? Any increase to time of graduation anticipated?

We are very confident that students will have taken a 200-400 level course prior to enrolling in the aforementioned upper level courses. We have numerous lower-level (i.e., 200-400) courses that are regularly offered. In the case of 511 a student would probably be seeking the *criminology and criminal justice studies* minor, and in the case of 629 and 630 the student would probably be seeking the *health and society* minor. When the new minors are eventually approved our advisors and web pages will recommend to students that they will need to complete either 209 (Introduction to Criminal Justice) or 410 (criminology) before taking 511 (Sociology of youth and crime), or in the case of health and society minors that they will need 290 (Sociology of death and dying) before enrolling in 629 or 630. Alternatively, students can also take any of our other 200-400 level offerings first and those would count towards the minor. In the rare case that a student could not take a 200-400 level prior to enrolling in an upper level course and was too close to graduation to wait we would be flexible and waive the pre-requisite and allow the student to enroll in the upper level course. This would not be ideal, but Sociology is committed to ensuring that our students can complete our programs without increasing their time to graduation and on a case by case basis exceptions can be made.

2. 101 has been removed as a required course in 2 of the minor tracks. The ASC Curriculum and Assessment Operations manual (on p.20) discourages the use of 100-level courses in fulfilling a minor. Some students will have a 25 hour minor with 101 included, while others will have a 25 hour minor with 5 higher-level courses in fulfillment. Are these 2 minors equal? Please provide a rationale for why 101 remains a suitable elective, or please remove 101 from the elective lists to fulfill minors.

We include 101 (Introduction to Sociology) as a required course in the Sociology minor program only, whereas in the other 3 proposed minor programs (Inequality and Society, Criminology and Criminal Justice Studies, and Health and Society) 101 is included as an option in the list of electives. The committee argues that this could create a situation in which the Sociology major is an "easier" minor program than the others. We disagree with this characterization.

First, as noted above, students electing any of the minor programs other than Sociology can take 101 and still apply it towards the 25 hours required in the minor (see the list of electives in the appendices). This is perfectly consistent with arts and sciences rules, although we note that it is discouraged. Nevertheless, the rules state that if a 100-level course is included in the minor program that there be 20 additional hours of non-100 level coursework. That is the case in the Sociology minor program.

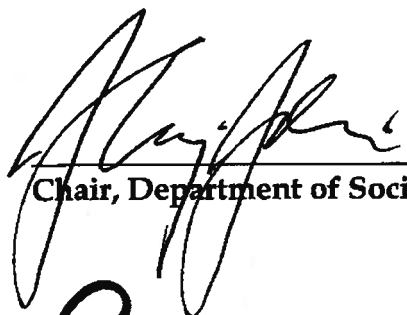

That issue notwithstanding we suspect that most students who elect one of our minor programs will have taken 101. Thus, there would be no difference in perceived difficulty. In the case of students

who opt not to take 101 in their pursuit of any of the other minor programs we still don't feel that they would be more difficult than the Sociology minor. After all, the Sociology major requires 487 (types of sociological inquiry) which is a fairly rigorous course on research methods with some statistical procedures covered. In addition 488 (introduction to sociological theory) is a rigorous treatment of classical sociological theory. In the end, the requirements of the Sociology minor program have been intact since the late 1980's and afford non-majors with a comprehensive introduction to the field. We remain comfortable with it.

**Proposal to revise undergraduate minor program requirements in the Department of
Sociology**

College of Social and Behavioral Sciences

Proposal to revise undergraduate minor program requirements in the Department of Sociology

The Faculty of the Department of Sociology proposes a revision of its *Social Stratification and Inequality* and *Criminology* minor programs, and the creation of a new *Health and Society* minor program. The proposed changes will not increase the total credit hours required of minors beyond the current requirement of 25 hours. The changes are designed to create minor programs that are focused around major substantive areas of sociological expertise among faculty within the department as opposed to sole reliance on the "mini-major" philosophy that is the basis of the current form. No changes are proposed for the *Sociology* minor program because it is our most successful minor program (enrollment in SP '08 = 105).

Current and proposed minor program requirements for each minor offered by Sociology are presented in Table 1.

Table 1 - Current and proposed changes to Sociology minor programs.

	<u>Current requirements</u>	<u>Proposed requirements</u>
<i>Sociology</i>	Intro. to Sociology (101) Types of Sociological Inquiry (487) Intro. to Sociological Theory (488) 2 electives	No changes proposed
<i>Social Stratification and Inequality</i>	Intro. to Sociology (101) Social Stratification (463) Types of Sociological Inquiry (487) 2 electives	Social Problems (202) Sociology of Poverty (306) Social Stratification (463) 2 electives ^a
<i>Criminology</i>	Intro. to Sociology (101) Criminology (410) Types of Sociological Inquiry (487) 2 electives	new title: <i>Inequality and Society</i> Introduction to Criminal Justice (209) Criminology (410) Sociology of Youth and crime (511) 2 electives ^b
<i>Health and Society</i>	Not currently a minor program	new title: <i>Criminology and Criminal Justice Studies</i> Sociology of Death and Dying (290) Illness and Social Behavior (450) Sociology of Health (629) or Medical Sociology (630) 2 electives ^a

^a Electives for this program are listed in Appendix A. ^b Electives for this program are listed in Appendix B.

RATIONALE

SOCIAL STRATIFICATION AND INEQUALITY

This minor, approved in 2004, has three requirements: Introduction to Sociology (101), Social Stratification (463), and Types of Sociological Inquiry (487). Beyond the requirements students must complete 2 additional electives of their choice for a total of 25 credit hours. To the best of our knowledge very few students are enrolled in this program. Discussion among faculty has identified two potential reasons for low enrollment. First, the minor is not well differentiated from the Sociology minor program, differing only by the requirement to take Social Stratification (463) rather than Introduction to Sociological Theory (488). Second, there was agreement that the program title, "Social Stratification and Inequality," does not resonate well with students who may be unfamiliar with the term "stratification." Based on these observations we propose to shift the focus of this program away from what is offered in the Sociology minor towards a more substantive concentration in social stratification coursework, and to re-title the minor program "Inequality and Society." We retain the requirement to take social stratification (463), and add to it two courses that are substantively focused in the area of stratification: Social Problems (202) and Sociology of Poverty (306). The requirements for the proposed *Inequality and Society* minor will provide a solid substantive foundation for students interested in learning how social cleavages impact society and their lives. Syllabi for the required course work are included in Appendix C.

CRIMINOLOGY

This minor, approved in the 1980's, has three requirements: Introduction to Sociology (101), Criminology (410), and Types of Sociological Inquiry (487). Beyond the requirements students must complete 2 additional electives of their choice for a total of 25 credit hours. This is our second most successful program (enrollment in SP '08 = 67). Discussion among faculty has identified two potential reasons why the minor is under-performing relative to the Sociology minor. First, like Social Stratification and Inequality, the minor is not well differentiated from the Sociology minor program. The difference is the requirement to take Criminology (410) rather than Introduction to Sociological Theory (488). Second, there was agreement that the program title "Criminology" should be changed to correspond with the title of our major program "Criminology and Criminal Justice Studies" because of the number of courses covering various institutions within the criminal justice system. Based on these observations we propose to shift the focus of this program away from what is offered in the Sociology minor towards a more substantive concentration that will be titled "Criminology and Criminal Justice Studies." We retain Criminology (410) as a required course and add to it two courses which help to create a well rounded minor program: Introduction to the Criminal Justice System (209) and Sociology of Youth and Crime (511). Together these courses provide a solid foundation in theories of delinquency and crime and cover the major institutions that comprise the criminal justice system (i.e., police, courts, corrections, and juvenile justice). Syllabi for the required course work are included in Appendix D.

HEALTH AND SOCIETY

We propose a new minor program titled "Health and Society" to capitalize on our growing faculty strength in medical sociology, the sociology of aging, and our participation in the Initiative in Population Research (IPR), as well as the increasing standing of the population, aging, and medical sections of the American Sociological Association. In recognition of that the

faculty as a whole expressed strong support for this program. In particular, several faculty members now teach undergraduate courses in the sociology of health and they are particularly interested in and committed to this minor program. This includes four recently hired faculty (Casterline, Frank, Schmeer, and Colin) as well as several who have been with us for a longer period of time (Williams, Browning, Schwirian, Qian). Like the revisions previously discussed we propose that students complete three substantive courses drawn from our course offerings to form a core: Sociology of Death and Dying (290), Illness and Social Behavior (450), and either Sociology of Health (629) or Medical Sociology (630). These courses focus on the realities of an aging population including a focus on the demographics and meaning of death, social factors in disease and illness, the social distribution of physical and mental health, and social aspects of the health care industry and health care delivery. Students completing this minor program will be heavily exposed to sociological theory concerning the operation of the health care industry and social trends in health phenomena. Syllabi for the required courses are included in Appendix E.

Time to graduation

We chose not to alter the current credit hour requirements for our proposed minor programs so that time to graduation is not impacted.

Comparison to benchmark institutions

We examined the minor programs of Big Ten and non-Big Ten benchmarks (Texas, UCLA, Arizona, and Washington) and found variability in required coursework for minor programs suggesting that there is not one model that is universally adopted. The University of Wisconsin (Madison) does not have a minor program in Sociology. UCLA also does not have a minor program, opting instead for a "Sociology immersion" sequence of two courses that focus on conducting and writing ethnographic research. The rationale for our minor programs does not entail physical "immersion" in the UCLA sense but it does entail "substantive" immersion. The mean number of credit hours required by the aforementioned institutions (that have a minor program) is 27.59 (in quarter hours) which is slightly higher although similar to our requirements.

Undergraduate student input

Our advisors have been actively soliciting input from our current undergraduate minors and they are as a group, strongly supportive of the proposed changes to the minor programs (see Appendix F).

Implementation

Upon approval the revised minor programs will take effect on or subsequent to the first day of the AU 2009 academic quarter. Students electing minor programs prior to that date will fall under the purview of our current program requirements.

Final one! H&S Minor

Just to recap...overall, the SOC 489-Internship should NOT be included on the minor, not sure why it was added in the appendices.

SOC 508- Violence, when it was approved, should have been added to all of the minors.

REQUIRED Text:

Eitzen, Stanley D. and Maxine Baca Zinn. 2006. *Social Problems: Tenth Edition*. Boston: Pearson: Allyn & Bacon ISBN: 0-205-44969-7

Course Description:

A sociological course that examines how social problems come to be defined, how perceptions of social problems change over time, and the causes and consequences of social problems for individuals and groups. Possibilities for institutional change as well as future issues and trends will also be discussed.

Problems covered include: work and power; education; health and well being; social and interpersonal violence; and inequality associated with poverty, minority status, gender, sexual orientation and sex roles.

Course Goals:

Students should be able to demonstrate an understanding of:

1. The process through which social problems are identified, legitimized and addressed.
2. How the major theoretical perspectives and the scientific method are used to evaluate and analyze social problems, develop proposals for addressing social problems, and compare and contrast specific social problems in cross cultural contexts.
3. The effect of social structure and culture on social policy and the role social policy plays in resolving or exacerbating social problems.
4. The impact of social structure in generating social problems, such as structures of inequality, the political system and the economy.
5. The role of social movements in constructing and/or resolving social problems.

University Policies and Student Services:
--

Disability Services:

Students with disabilities that have been certified by the Office for Disability Services will be appropriately accommodated and should inform the instructor as soon as possible of their needs. The Office for Disability Services is located in 150 Pomerene Hall, 1760 Neil Avenue; telephone 292-3307, TDD 292-0901; <http://www.ods.ohio-state.edu/>.

Academic Misconduct:

Academic integrity is essential to maintaining an environment that fosters excellence in teaching, research, and other educational and scholarly activities. The Ohio State University, the Committee on Academic Misconduct (COAM), and I take academic misconduct very seriously. You are expected to be familiar with, understand, and agree to comply with all of the policies listed in the OSU *Code of Student Conduct* (see section 3335-23-04). The Ohio State University's *Code of Student Conduct* defines academic misconduct as: "Any activity that tends to compromise the academic integrity of the University, or subvert the educational process."

Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the University's *Code of Student Conduct* is not an "excuse" for academic misconduct.

Plagiarism is the act of representing directly or indirectly another person's work as your own. It can involve presenting someone's speech, wholly or partially, as yours, quoting without acknowledging the true source of the quoted material, copying and handing in another person's work with your name on it, and similar infractions. Even indirect quotations, paraphrasing, etc., can be considered plagiarism unless sources are properly cited. Plagiarism will not be tolerated.

Academic Misconduct continued:

If I suspect that a student has committed academic misconduct in this course, I am obligated by University Rules to report my suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the University's *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the University.

University Fees: Rules About Unpaid Fees

Faculty rules specify that students are to have their fees paid by the first day of enrollment for the quarter. [Faculty Rule 3335-9-12]. If you have not paid your fees, you will not be allowed to continue attending class until:

1. Your fees are paid, OR
2. You have a signed letter from Financial Aid stating that you are working with them to get your fees paid.

Course Policies

Attendance: You are expected to attend every class and **arrive on time**. Attendance is extremely important, but being an involved member of this class encompasses more than simply showing up. Attentive listening, group interaction, and participation in group discussions and other assigned projects are critical. Therefore, everyone is expected to be an active participant in class and in small group discussions. **Tardiness** disrupts the class and you will often miss quizzes given at the beginning of class. Also, please do not pack your bags before class ends. This is disrupting to both me and the other students. Please make sure you come to class with the appropriate materials everyday (books/articles, paper, pen/pencil, etc). If you are absent from class lectures, discussions, and films, **you are responsible for securing missed material from fellow classmates**. I do not give out copies of my lecture notes, nor do I meet with students to go over the notes they missed in class.

Participation: I expect that you will complete the assigned readings ***before*** class begins and that you will be able to participate in all class discussions. This course will deal with many controversial issues and discussion from every point of view is expected and encouraged. However, all comments must be expressed in a respectful manner that is sensitive to differences in ability, class, gender, sex, race and ethnicity, sexual orientation, religion, etc. Having respect for other people is the most important prerequisite for enrollment in this course. Everyone must feel comfortable to express their opinions in order to have quality in-depth discussions of the material; therefore RESPECT is paramount!

Technology: E-mail is by far the best way to contact me, but please be advised that I do not check my e-mail every hour. You should expect a written email response within two business days. If you e-mail me the night before an exam or a paper is due, you may not receive a response with enough time to be beneficial, so plan ahead!

Cell phones should be turned off or silenced before coming to class.

Course Requirements***Letter(s) to Representatives and Senators and "People Who Work for You" Assignments:***

These two assignments will demonstrate your ability to evaluate and analyze social problems and develop proposals for addressing those problems through social policy recommendations to your elected officials. Each letter should be approximately 1 page. I will provide a separate handout with the specific requirements for these two assignments. As you will be sending the letters to all of your representatives, you will need to purchase **five (5) letter-size envelopes appropriate for mailing through the U.S. Postal Service as well as 5 stamps (at current postal rate for business-size envelopes)**. More detailed instructions regarding this assignment will be handed out in class. *The "People Who Work for You" assignment is due on Thursday, April 3rd. The Letters to your Representatives (and addressed envelopes) are due Thursday, May 29th (rough draft is due May 20th.)*

Media Paper: This assignment is designed to encourage you to think critically about how the media presents social problems. Each student will choose a movie and will conduct a brief analysis of the social problem depicted within it. You should use the knowledge learned in class to discuss how social problems are presented in popular culture and what implications these images may have for society. The paper should be approximately 3-4 pages in length and in that space should integrate relevant theories, descriptions, definitions, and evidence covered in the class readings – 3 *scholarly* references must be included! More detailed instructions regarding this assignment will be handed out in class. *The due date for this assignment varies. See the course outline for specific due dates.*

Reading Response: This assignment is designed to help you synthesize what you learned from each chapter and/or Carmen reading(s). A question will be put on Carmen which you must answer using information from that day's assigned readings. Your paper should directly address the social problem, and each response should include your opinion on the assigned readings. The paper should be approximately 1 page in length, and you will be required to share your thoughts with the class concerning this topic on the same day you turn in your paper. *The due date for this assignment varies.*

Gender Paper: For this assignment, you will be a novice sociologist conducting preliminary research for a paper about gender. You will use your observational skills and the knowledge you have gained from the readings/class lectures to examine and analyze gender roles and gender structure (definitions to be explained in class). You will then write a paper about how they relate to gender inequality. This paper should be approximately 3-4 pages in length and should integrate your empirical data (observations) with relevant theories and definitions surrounding gender - 3 *scholarly* references must be included! More detailed instructions regarding this assignment will be handed out in class. *This assignment is due Thursday, April 24th.*

Current Events Paper: Before the end of the quarter, you must bring in a news article that directly relates to a social problem we have discussed in class. The news article must be printed (or cut out) and should include the date, source, title and author. You must write a 1 page paper discussing the article and how it is connected to a social problem. You should first state why the topic is a social problem and then discuss the connections between the article and what you have learned in class including relevant theories, definitions, etc. The last day to turn in this assignment is *Thursday, May 15th.*

NOTE about ALL written assignments: All papers (except the Letter to Representatives) *must* be typed, double-spaced, 12 pt. font, with 1-inch margins. Page requirements for each assignment are the minimum number and going over the page limit (within reason) is fine, as each assignment will be graded on how well you meet the requirements for that specific assignment. Therefore, adjusting margins and changing font type or size in order to make your assignments appear longer are of no benefit and should be avoided. **You must re-read your papers for grammatical errors and run spell check before you bring them to class.**

Extensive grammatical and spelling errors can make it difficult to convey your thoughts and ideas, thus grammar and spelling are considered as portion of your grade. You should never miss class to work on your papers! Plan ahead and turn assignments in on time. Late papers will be penalized **10 points per class day** it is late, and I will NOT accept papers electronically.

Examinations: Two (2) exams will be given in this quarter, a midterm and a non-cumulative final. Exams will be made up of multiple choice, short answer and essay questions. Exam questions will be taken from the text, lectures, in-class films, and CARMEN reading assignments. It is impossible to do well on the exams if you do not attend the lectures *and* read all of the required assignments.

I do **not** give make-up exams, except in extreme circumstances (for such a case, you *must* have a doctor's note, documentation of a family emergency, etc.). Make-up for the midterm will be assessed a penalty of 5 (FIVE) points off per day, regardless of the circumstances for lateness. There is absolutely **NO** make-up for the final exam, so please plan accordingly and do not miss the final.

Evaluation:

Course evaluation will be based on the following components, weighted as indicated.

Attendance/Participation	5%
People Who Work for You	5%
Midterm:	20%
Gender Paper	15%
Media Paper	15%
Current Events Paper	5%
Reading Response	5%
Letter(s) to Representatives	10%
<u>Final Exam:</u>	<u>20%</u>
Total:	100%

Grading Scale:

A	94-100 %
A-	90-93 %
B+	87-89 %
B	84-86 %
B-	80-83 %
C+	77-79 %
C	74-76 %
C-	70-73 %
D+	67-69 %
D	60-66 %
E	< 60 %

Course Outline*

*NOTE: The course outline is **subject to change** and I may modify this syllabus throughout the quarter to better fit the needs of the class. Also, additional readings may be added *at any point* in the term. Students are responsible for any revisions to this syllabus that are announced in class, via email or on Carmen.

**Indicates that a reading is ONLY available on CARMEN and is not in your *Social Problems* textbook.

^ Indicates that only people assigned to that topic have an assignment due.

Date	Topics and Assigned Readings DUE	Assignment Due

WEEK 11

T June 3 FINAL EXAM: 11:30 am - 1:18pm

Students in the class whom I can contact for notes, etc.:

NAME	EMAIL ADDRESS	PHONE NUMBER

This material is available in alternative formats upon request. Please contact an advisor in 302 Bricker Hall, 292-1175.

We will do our best to assist you in the course. However, students with disabilities must make their needs known to us, and seek the available assistance in a timely manner.

SOCIOLOGY 306 -POVERTY
Winter 2006 -18015-5
T/R 9:30-11:18 - MP1046

Instructor: DR. STEPHANIE SPEARS
Office:363A -Journalism Building
Office hours 10-11AM M/W
by appointment, and before and after
class
Phone#: 292-1385/Dept.#292-6681

REQUIRED BOOKS:

Schiller, Bradley R. 2004. **THE ECONOMICS OF POVERTY AND DISCRIMINATION**, Ninth Edition, Upper Saddle River: Pearson Education, Inc.

Eitzen, D. Stanley and Kelly Eitzen Smith. 2003. **EXPERIENCING POVERTY: VOICES FROM THE BOTTOM**, Belmont:Wadsworth.

A study of the social forces which give rise to poverty, and the effects of those social forces on people of all incomes. Sociology 306 meets the requirement for social diversity in the United States. Courses in social diversity will foster an understanding of the pluralistic nature of institutions, society, and culture in the United States.

LEARNING OBJECTIVES:

1. Students describe the roles of such categories as race, gender, class, ethnicity and religion in the institutions and cultures of the United States.
2. Students recognize the role of social diversity in shaping their own attitudes and values.

These objectives will be met through the study of the impact of class, gender, race, ethnicity, and religion on such social forces as: 1) government programs which give aid to the poor as well as programs which give aid to the wealthy; 2) the criminal justice system; 3) the nature of stratification in the United States as well as other developed countries and developing countries; 4) the education system; 5) the family; 6) media; and 7) the impact of an understanding of personal choice. Each student will also gain an understanding of the impact of these forces on society by working on a poverty journal throughout the quarter. This journal will personalize the nature of poverty for each student by connecting the readings and issues to their own personal biography. The journal will give each student a chance to problem solve the issues of poverty in a "hands on" way by demonstrating how unforeseen events can change a life in an instant.

COURSE OBJECTIVES:

This course will be an introduction into a sociological understanding of poverty. During the quarter we will explore poverty from many angles with the goal of gaining an understanding of poverty as one of the social forces which make-up everyday life. The course will attempt to give you a chance to "feel" and experience how fragile economic health in society can be. Through your exploration of poverty this quarter you will gain an understanding for both the breadth and depth of a sociological importance of poverty in our society.

COURSE REQUIREMENTS AND STUDENT EVALUATION:

Grades will be determined on the basis of performance on two tests, one paper project. Dates for these are given on the class schedule. Exams will consist of short answer and essay questions from the reading materials, lectures, and any other class activities.

THE PAPER PROJECT- The paper project for this class will be a major part of the work you do this quarter for 306 (final journals due March 2 in class). This paper will be your budget journal. You are going to be asked to keep track of the money you spend during the quarter. At several points I will add a crisis that will cut into your budget. While you will not need to change your lifestyle, you will be asked to keep a journal of the things that you were able to do in your real life that

you would not have been able to do if the crisis were real. [Example; Crisis - transportation issues - cut budget by 5%. In your real life you will still have that 5% to live on and you will journal those things you did - I will explain later.] You will turn your journal in every two weeks and your grade will be given at the end.

<u>WEEK</u>	<u>DATE</u>	<u>ASSIGNMENTS</u>
1	1/3	Welcome - to 306 - no readings
	1/5	Journal set-up and class introduction exercise
2	1/10	Schiller Chapter 1- Views of inequality and Poverty
	1/12	Schiller Chapter 2 - Inequality
3	1/17	cont.
	1/19	Schiller Chapter 3 - Counting the Poor
4	1/24	Schiller Chapter 4 - Labor force participation
	1/26	Schiller Chapter 5 -The Working Poor Eitzen Part I - Poverty in the United States and the Sociological Imagination and Eitzen Part II - Theories of Poverty: Why Are the Poor ? Chapter 1- Individual/Cultural and Structural Explanations
5	1/31	Schiller Chapter 11 - Discrimination in the Labor Market
	2/2	catch up
6	2/7	Test 1
	2/9	Schiller Chapter 7 Family Size and Structure - Eitzen Chapter 2 - Survival and Finances - Eitzen Chapter 4 - Parenting in Poverty
7	2/14	Schiller Chapter 8 The Underclass:Culture and Race - Eitzen - Chapter 3 Discrimination/Racism/Stigma
	2/16	Schiller Chapter 6 - Age and Health - Eitzen Chapter 7 - The Health Care System
8	2/21	Schiller Chapter 9 - Education and Ability
	2/23	Schiller Chapter 10 - Discrimination in Education - Eitzen Chapter 8 - Schools and Schooling
9	2/28	Schiller Chapter 12 - Welfare Programs - Eitzen Chapter 6 - The welfare system
	3/2	Schiller Chapter 14 - Employment Policies - Eitzen Chapter 9 - Work and Working Journals due in class
10	3/7	Legal summary of policies and the future - Readings - Eitzen Chapter 10 - Changes from the bottom and Schiller Chapter 16 - Direction and Prospects
	3/9	wrap-up

GRADING PROCEDURES:

Test 1	30%	Tuesday Feb. 7 - in class
Test 2	40%	Thursday March 16 - 9:30- 11:18
Paper Project	30%	Due in Class March 2

SOCIAL STRATIFICATION
SOCIOLOGY 463
SPRING 2008

"The power of fortune is confessed only by the miserable; for the happy impute all their success to prudence and merit."

-Jonathan Swift

Professor: Dr. Rachel Dwyer
Email: dwyer.46@sociology.osu.edu
Office: 339 Bricker Hall
Office Phone: 247-6682

Class time: TR 1:30-3:18pm
Classroom: 205 Boyd Laboratory
Office hours: W 2:30-3:30pm & by appt

Course Description and Objectives

The study of social inequality is the central problem in the field of sociology. In this course we will examine the sociological perspective on the causes and perpetuation of the structure of social stratification. We will be especially concerned with identifying how factors beyond individual's actions and abilities affect their social status. Most of our attention will be on the United States, though many of the ideas in the class can be applied to the analysis of stratification in other societies as well. We focus on inequalities by class, race and ethnicity, and gender, three of the most important dimensions along which people are socially divided. Each form of inequality has a distinct character, but they are also intertwined in complex ways. Contemporary American society is marked by profound—and in some cases growing—disparities along the dimensions discussed in this course. While belief in equality and opportunity for all to achieve the "American Dream" can obscure the degree of stratification in the US, enduring conflicts over the appropriate distribution of social resources and prestige between classes, races, and men and women reveal the gap between dream and reality.

GEC Objectives

Sociology 463 fulfills the GEC Social Science requirement. The course will develop student understanding of human behavior and the structure of human societies, cultures, and institutions through an engagement with sociological perspectives on inequality.

The key learning objectives of the GEC Social Science requirement are:

1. Students understand the theories and methods of scientific inquiry as they are applied to the studies of individuals, groups, organizations, and societies.

2. Students comprehend human differences and similarities in various psychological, social, cultural, economic, geographic, and political contexts.
3. Students develop abilities to comprehend and assess individual and social values, and recognize their importance in social problem solving and policy-making.

The objectives will be met in this course through study of the major sociological theories and empirical analyses of class, race, and gender inequality, with attention to individual, organizational, and social structural factors in the causes and consequences of social stratification. The course emphasizes critical reasoning using theory and evidence to aid student assessment of policies, values, and beliefs involving social inequality. Specifically, students will be required to engage this material and develop their abilities through: 1) participation in class discussion and periodic assignments; 2) two exams testing knowledge of the material presented in lectures and readings; and 3) two short position papers on an important issue in the study of inequality, drawing on both course material and outside sources.

Reading Materials

Required:

Scott Sernau. *Worlds Apart: Social Inequalities in a Global Economy*. Second Edition. Pine Forge Press.

Stephen J. Rose. 2007. *Social Stratification in the United States: The American Profile Poster*. New Press.

Readings accessible through the course Carmen web page, log in at www.carmen.osu.edu

Recommended:

Eric Klinenberg. 2003. *Heat Wave: A Social Autopsy of Disaster in Chicago*. University of Chicago Press. Selections from the book are part of the required readings, but students would benefit from reading the entire book as well.

Evaluation

Course evaluation will be based on the 5 following components, weighted as indicated:

1) class exercises and participation	10%	40
2) paper 1	20%	80
3) paper 2	20%	80
4) mid-term exam	25%	100
5) final exam	25%	100
		400 points

Class attendance and participation

I expect you to attend class regularly and be punctual.

This course involves both lecture and discussion. Discussion will be a very important part of developing our understanding of the course material. Sometimes we will have a large group discussion, other times small group. I expect you to participate in discussion activities to the best of your ability and temperament. I expect respectful discussion behavior. I may ask you to prepare for a discussion in advance of the class, for example by bringing discussion questions, by thinking about discussion questions I provide you ahead of time, or by collecting a cultural artifact like an advertisement and bringing it to class for discussion.

At some point during each class session, I will ask you to produce a brief piece of writing. I may ask you to write your response to a question, or write a question of your own. I may ask for a summary of a particular reading, or of the most interesting idea addressed in class that day. I will not give these assignments a letter grade, but will review them to assess whether you have made an effort to do the exercise, and they will also serve as a record of your attendance. These exercises will contribute to your class participation grade.

Papers

Everyone in the class will write two papers on assigned topics. You will receive detailed instructions for each paper later in the quarter. Each paper will require supplemental readings and research. The first will require analysis of Stephen Rose's *Social Stratification in the United States* and the second will require reading selections from Eric Klinenberg's *Heat Wave*.

Paper 1 is DUE at the beginning of class on **Tuesday, April 22nd**.

Paper 2 is DUE at the beginning of class on **Tuesday, May 27th**.

I do not accept late papers except in unusual circumstances, in which case I may require documentation.

Exams

There will be two exams, a midterm and a final. The final will focus mostly on material from the second half of the course, but also include some questions that require you to integrate material from the first half.

The mid-term exam will be in class on **Tuesday, April 29th**.

The final exam will be on **Monday, June 2nd at 1:30-3:18pm**.

I expect you to be at the exams. I do not give make-up exams except in cases of major emergencies or conflicts because I believe they are not fair to the other students. Thus, I am relatively *inflexible* about acceptable reasons for missed exams and will require documentation (doctor's note, etc.) of the reason.

Accommodations

Any student who feels he/she may need an accommodation based on the impact of a disability should contact me privately to discuss your specific needs. Please contact the Office of Disability Services at 614-292-3307 in 150 Pomerene Hall to coordinate reasonable accommodations for students with documented disabilities. Students are responsible for communicating with me about requested accommodations in a timely manner.

Academic Misconduct

It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term "academic misconduct" includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct.

COURSE SCHEDULE

Note: I may occasionally change the syllabus as circumstances warrant.

THE SOCIOLOGICAL PERSPECTIVE ON INEQUALITY

- T March 25 Introduction
 Sernau. Chapter 3. "The Gordian Knot of Race, Class, and Gender"
- R March 27 Theories of social stratification
 Sernau. Chapter 1. "The Great Debate"
 Recommended: Marx & Engels. "Manifesto of the Communist Party"
 (Carmen)
 Recommended: Weber. "Class, Status, Party" (Carmen)
 Recommended: Davis and Moore. "Some Principles of Stratification"
 (Carmen)

CLASS, STATUS, AND PRESTIGE

- T April 1 NO CLASS SESSION
- R April 3 Consumption, status, and prestige
 Sernau. Chapter 7. "Status Prestige"
- T April 8 The American class structure
 Sernau. Chapter 4. "Class Privilege"
 Fischer et al. "Why Inequality?" (Carmen)
 Recommended: Wright. "A General Framework for the Analysis of
 Class" (Carmen)
- R April 10 Economic structure, the labor market, and earnings inequality
 Morris and Western. "Inequality in Earnings at the Close of the Twentieth
 Century" (Carmen)

- T April 15 Wealth stratification and elites
Sernau. Chapter 8. "Power and Politics"
Domhoff. "Who Rules America?" (Carmen)
- R April 17 Poverty
Sernau. Chapter 11. "Reversing the Race to the Bottom: Poverty and Policy"
Rank. "As American as Apple Pie: Poverty and Welfare" (Carmen)
Gans. "The Positive Functions of Poverty" (Carmen)
- T April 22 **Paper 1 due**
Social mobility
Sernau. Chapter 9. "Moving Up: Education and Mobility"
Macleod. "Social Immobility in the Land of Opportunity" (Carmen)
- R April 24 Summing up, overflow, and review
- T April 29 **Midterm Exam**

RACE AND ETHNICITY

- R May 1 Theories of racial and ethnic inequality
Sernau. Chapter 5. "Race and Class"
Zhou. "Are Asian Americans Becoming 'White'?" (Carmen)
- T May 6 Racial and ethnic inequality in America
Oliver and Shapiro. "Black Wealth/ White Wealth" (Carmen)
Recommended: Bonacich. "A Theory of Ethnic Antagonism: The Split Labor Market" (Carmen)
Recommended: Du Bois. "The Problem of the Twentieth Century is the Problem of the Color Line" (Carmen)
- R May 8 Immigration
Portes and Zhou, "The New Second Generation: Segmented Assimilation and Its Variants" (Carmen)

GENDER

- T May 13 Theories of gender inequality
Sernau. Chapter 6. "Gender and Class"
- R May 15 Gender inequality and the family
Hochschild. *The Second Shift*. Chapter 1. (Carmen)
- T May 20 Gender inequality in work and the labor market
Kessler-Harris. "The Wage Conceived: Value and Need as Measures of a Woman's Worth." (Carmen)

INTERSECTIONS

- R May 22 Spatial inequalities I: Ghettos and Enclaves
Sernau. Chapter 10. "Abandoned Spaces, Forgotten Places: Poverty and Place"
Farley and Squires. "Fences and Neighbors: Segregation in 21st-century America" (Carmen)
- T May 27 **Paper 2 due**
Spatial inequalities II: Education and social mobility
Kozol. "Savage Inequalities" (Carmen)
Cookson and Persell. "The Vital Link: Prep Schools and Higher Education" (Carmen)
- R May 29 Social change

- M June 2 **Final Exam** (1:30-3:18pm)

INTRODUCTION TO CRIMINAL JUSTICE

Sociology 209 - Winter 2008

Dr. Debbie Wilson
Office: 363C Journalism Bldg
Phone: 292-1386 / 292-6681
Hrs: Tues. & Thurs. 10 - 11:45 am
E-mail: Wilson.1028@osu.edu

Grader: Heather Washington
Office: 151 Journalism Bldg.
Hrs: Mon. & Wed. 9:30-11:30 am
E-mail: Washington.198@osu.edu

The purpose of this course is to introduce students to the agencies responsible for detecting, prosecuting, and adjudicating criminal offenders. The first portion of the course will examine the historical development of the criminal justice system along with the origin and types of law. The primary methods used to measure crime, the frequency of crime, and problems with crime measurement will be discussed. The elements of a crime, causation, and criminal defenses will be presented.

The second portion of the course will address the roles and functions of the police. We will focus specifically on the U.S. Constitution and basic constitutional rights provided citizens in the Fourth, Fifth, Sixth, Eighth, and Fourteenth Amendments. Primary principles governing police search and seizure and interrogation tactics will be discussed. Various types of police operations including community policing and problem oriented policing will be presented.

The final portion of the course focuses on the courtroom workgroup, criminal trials and sentencing procedures. The working relationship between judges, prosecutors, and defense attorneys will be examined. We will study the formal stages of the criminal justice system beginning with arrest and proceeding through the sentencing stage. Legal and extra-legal factors influencing the proceedings at each stage will be discussed along with current problems plaguing the legal system. Numerous sentencing strategies will be examined along with their impact on our correctional system.

REQUIRED TEXTS

CRIMINAL JUSTICE: A BRIEF INTRODUCTION, 7th Edition, Frank Schmalleger

COURSE REQUIREMENTS

There are a total of 340 points to be earned in this course. Final course grades are based on three separate components. These components include: (1) exams (2) quizzes, and (3) writing assignments.

COURSE REQUIREMENTS - cont'd

Each of the two examinations are worth 120 points. Students are responsible for all assigned reading, material covered in class, and information presented by speakers and videos. The examinations will consist of multiple choice questions. The second examination will not be comprehensive; it only covers lectures and material assigned after the first examination. The format will be similar to the first exam. The final exam must be taken at the scheduled time. The only authorized exception is documentation of an OSU sponsored activity.

There will be four quizzes worth 20 points each. Quizzes will be short answer and fill in; they will cover previous class discussions **and** the assigned reading for that class. Quizzes are not scheduled in advance, but rather will be announced in class the meeting prior to the quiz. The lowest quiz scores for each student will be dropped - leaving 3 quiz scores worth a total of 60 points. **THERE WILL BE NO MAKE-UP QUIZZES UNDER ANY CIRCUMSTANCES.** The rationale for this policy is to recognize that students will have legitimate reasons for missing class. Dropping the lowest quiz score ensures that students will not be penalized for legitimately missing class on a scheduled quiz day.

Lastly, there will be two writing assignments worth 20 points each. The writing assignments will consist of several critical thinking questions. Students will write essay responses that incorporate concepts discussed in lecture and the text. Writing assignments will be graded as to relevance, content, and style. Papers will naturally be marked down for spelling and grammatical errors, inappropriate punctuation, and inaccuracies. Papers will be marked down one letter grade for each day they are late. All papers must be turned into the instructor **[e-mailed assignments will not be accepted]**.

CHEATING:

Any and all suspected cases of academic dishonesty will be reported to the Committee on Academic Misconduct. Sharing information with other students during an exam or about an exam that you have taken but they have not taken is a violation of academic conduct. Writing assignments are expected to be individual work and any collaboration or copying from fellow students is academic misconduct. For further information on academic dishonesty and the accompanying procedures and penalties, see the Code of Student Conduct at:
http://studentaffairs.osu.edu/resource_csc.asp.

MAKE-UP EXAMINATION POLICY

Make-up examinations will be given to students who have a **valid medical excuse** for missing the scheduled examination. The instructor must be notified of the emergency within 24 hours of the scheduled exam. Students must provide a written excuse from a doctor/emergency room in order to take the make-up exam. The make-up **MUST** be taken within one week of the scheduled exam. The make-up will be entirely essay.

CLASS ATTENDANCE AND PARTICIPATION

Class attendance is highly encouraged and will be taken at the beginning of each class. Students are expected to read the assigned material **prior to class** and come prepared to discuss it. Typically students who do not attend regularly do not perform well in the course. Also, note that the syllabus is subject to change - as announced in class. **STUDENTS ARE RESPONSIBLE FOR ALL ANNOUNCEMENTS MADE IN LECTURE.** A change of date is not a sufficient excuse to make up an exam. Please be certain that all **CELL PHONES** are **TURNED OFF** prior to class.

READING SCHEDULE

The following is intended as a suggested reading schedule for student preparation for class. Additional readings may be assigned by the instructor in class and slight modifications to the assigned readings may be made from time to time. The required readings should be completed for each topic **before** the scheduled class.

<u>DATE</u>	<u>TOPIC</u>	<u>ASSIGNMENT</u>
January 4 th	INTRODUCTION TO COURSE	None
January 7 th	WHAT IS CRIMINAL JUSTICE [CH. 1]	pp. 3-25
January 9 th	THE CRIME PICTURE [CH. 2]	pp. 28-71

SPECIAL NEEDS STUDENTS:

Students should contact the Office of Disabilities in 150 Pomerene Hall, 1760 Neil Avenue (292-3307) to make special arrangements for this course. Students with disabilities are responsible for making their needs known and seeking available assistance in a timely manner. This syllabus is available in alternative formats upon request from the Sociology Advising Office in 304 Bricker Hall (292-9416).

Disability Services: Students with disabilities that have been certified by the Office for Disability Services will be appropriately accommodated, and should inform the instructor as soon as possible of their needs. The Office for Disability Services is located in 150 Pomerene Hall, 1760 Neil Avenue; telephone 292-3307, TDD 292-0901; <http://www.ods.ohio-state.edu/>.

SOCIOLOGY 410 – Criminology (9:30 a.m., CL 120)

Professor Bellair (bellair.1@osu.edu)

341 Bricker Hall (292-5831, please only in the case of emergency)

Office hours: Tuesday and Thursday from 11:30a.m. - 12:30 p.m., and by appt.

Course Overview

This course is designed to provide a comprehensive review of the most respected theories of crime from biological, psychological, and social disciplines, although the emphasis is sociological. You will be exposed to the methods used to construct and trends in the most relied upon indicators of crime, including official, uniform crime reports (UCR), victimization surveys (NCVS), and self-report surveys. In addition, we discuss the correlates of offending and examine crime trends and drug use patterns.

Student Learning Objectives

Students successfully completing this course will: (1) have a detailed understanding of criminological data, (2) be familiar with the correlates of offending and crime / substance abuse trends, (3) familiar with theory and research on biological, psychological, and social causes of criminal behavior, (4) be prepared to succeed in advanced criminology courses, and (5) substantively prepared for an entry-level analyst / researcher position in a criminal justice related agency.

Required Text: (1) *Criminology: The Core (3rd edition)* by Larry J. Siegel. Available in OSU bookstores and also online.

COURSE FORMAT AND REQUIREMENTS:

Class Meetings. I am hoping that the class will be a mixture of lecture and discussion with considerable opportunity for you to ask questions and stimulate discussion on a topic of interest. I normally stop the class and take a break after the first hour. Please ask for a break if I forget. I often discuss testable information about a topic during a lecture that is not in the book, so I encourage you in strong terms to attend class if you are looking for a good grade.

Exams. There will be 3 multiple choice exams roughly equally spaced throughout the course. All assigned reading and class discussion is testable. The first exam covers the content of lecture and assigned readings through the third/fourth week, and the second exam tests material covered roughly through the seventh/eighth week. The third exam, which covers everything subsequent, is the final (not cumulative). All students are required to take the final exam at its scheduled time.

Relative weight of course requirements in computing your final grade:

Exam 1:	33%
Exam 2:	33%
Exam 3:	34%

**** Extra credit of 1 point on final grade (up to 3 points) for attending class when “The Promised Land” (three parts) is shown.**

A: 93-100; A-: 90-92; B+: 87-89; B: 83-86; B-: 80-82; C+: 77-79; C: 73-76; C-: 70-72; D: 60-69; E: 59 and below.

READINGS SCHEDULE

	<u><i>Criminology: The Core</i></u>
Week 1	Chapt 1
Week 2	Chapt 2
Week 3	Chapt 3
Week 4	Exam 1, Video 1
Week 5	Chapt 4, 5
Week 6	Chapt 6
Week 7	Chapt 7
Week 8	Exam 2, Chapt 9
Week 9	Video 2, Video 3
Week 10	Chapt 9 (continued)
Week 11	Chapt 8

Exam 3 is Tuesday, Dec 4th, 2007

Policies

1. Advice for doing well in this class.

A. Read all of the assigned material carefully and thoroughly before it is covered in class, and take a good set of notes from the reading. Study the notes you take from reading several times before you take the exam.

B. Listen carefully to lecture and take good notes to help stay focused during class, and study those notes before the exam.

2. Open Classroom - Students should feel free to express their opinion in class but should also exercise responsibility. It is important that we create an atmosphere of mutual respect within the classroom. The issue of racism and other biases in the criminal justice system is a common concern and we should feel comfortable discussing it openly.

3. Please do not leave while I am lecturing unless you have spoken with me beforehand. - If you have a legitimate reason to leave early just inform me at the beginning of class and sit close to the door. If you need to leave during lecture and haven't told me beforehand just raise your hand and let me know. I usually stop lecture and give the class a five-minute break after the first hour although if we are far behind it could get pushed back. Students should feel free to leave during the break without permission, but I don't recommend it. It will be much harder to earn a good grade without attending the entire class.

4. If you miss an exam you get a 0. However, students who have valid reasons for missing an exam will be allowed to take a make-up without penalty. The makeup will be given as soon as possible after the scheduled exam. Please contact me in person, by phone, or email before the test if you will not be present (or leave voice mail). Documentation is **required**. **I reserve the right to reduce your score by up to 10 points if you do not take your make-up in a timely manner.**

5. Students should take steps to avoid the appearance of impropriety during exams, and in preparing the writing assignment.

If I observe misconduct, I will follow faculty rule #3335-5-54 which requires "Each instructor ... [to] ... report to the committee on academic misconduct all instances of what he or she believes may be academic misconduct."

Academic Misconduct

It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term "academic misconduct" includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct (http://studentaffairs.osu.edu/info_for_students/csc.asp).

SOC 511 Youth and Crime
Fall 2007
M/W 11:30-1:18
Page Hall Room 60

Instructor: Valerie Wright
Office Hours: 1:30-3:30 p.m. M & W or by appt. (JR 151)
E-mail: vlwright642@aol.com

Course Goals and Objectives:

The purpose of this course is to provide an exploration of a sociological perspective of youth and crime. Students will examine broad features of juvenile delinquency on a range of topics such as the extent of youth crime, theories explaining youth crime, the juvenile justice system and prevention and control efforts. Within these frameworks we will also discuss how participation in and prevention efforts vary by class, gender, race, and how many of these aspects interact with each other to create very different social worlds for at-risk youth. Attention will also be given to social factors that influence youth crime such as the media, family characteristics, schools and other social forces.

Required Textbook:

- *Juvenile Delinquency: Theory, Practice, and Law* 9th edition by Siegel, Welsh and Senna.
- And 1 of the following:
 - *All God's Children* by Fox Butterfield
 - *Manchild in the Promised Land* by Claude Brown

Grading:

The course grade will be based on a writing assignments, 2 examinations, and a group presentation. Each person will be a member of a 3-5-person presentation group and will be responsible for presenting a summary and assessment of empirical articles to the class. All group presentations will be given one grade. Attendance and participation in class is strongly encouraged and opportunities to earn at least 20 bonus points will be provided throughout the quarter.

2 Exams (30% each) -	60%
Writing Assignment-	20%
<u>Class Presentation</u>	<u>20%</u>
	100% of course grade

Exams:

The exams will cover material discussed in assigned readings, lecture, handouts, films, and class presentations. The final exam is NOT comprehensive and will be multiple choice. You are responsible for material that is assigned but is not covered in class.

Writing Assignment:

Students will read one of the required books and write an essay outlining an overview of the book, its value for understanding juvenile delinquency, and how it relates to various theoretical, sociological, and policy initiatives discussed in class. The paper will be 6-8 pages in length and due in class on Monday, July 30th. A handout regarding this assignment will be given in class.

Group Presentations

You will be assigned to a 3-4 person group which will meet outside of class to organize a 30 minute oral presentation to the class. The presentation is worth 20% of your total score and all group members will receive the same grade. The presentation has 4 main components:

- 1) **Empirical Article:** The presentation will cover an empirical article related to the corresponding chapter covered in class. In summarizing the research, you should include a discussion of the major research question(s), the articles contribution to the field, hypotheses, data/sample used, findings, limitations, and policy implications of the work.
- 2) **Current Event:** The presentation should include a current event related to the empirical article and the corresponding chapter covered in class. Place the current event within a sociological framework tied to the main theoretical/empirical points of the article.
- 3) **Visual Aids:** A handout summarizing the major research questions, the articles contribution to the field, hypotheses, data/sample used, findings, and implications should be handed out to the class. Please be sure that these are well organized and can be used as a study guide for your classmates. **Use of an additional visual aid is also required** (i.e. overheads, statistics, charts, film, demonstration, pamphlets, etc...).
- 4) **Facilitation of Discussion:** As presenters you will be expected to facilitate a brief interactive discussion on the topic with the class. The format of the discussion can be decided among group members. As facilitators you are responsible for getting the class involved and gearing the discussion toward the main points of your presentation.

Make-Ups and Late Assignments

Make-up and late papers will be accepted **ONLY** for documented excused absences and must be approved in advanced. Please bring all necessary documents when attempting to schedule a make-up exam or turn in a late paper. Papers turned in late without an excuse will not be graded.

Students with Disabilities

Students with disabilities that have been certified by the Office for Disability Services will be appropriately accommodated, and should inform the instructor as soon as possible of their needs. The Office for Disability Services is located in 150 Pomerene Hall, 1760 Neil Avenue; telephone 292-3307, TDD 292-0901; <http://www.ods.ohio-state.edu/>.

Academic Misconduct:

It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term "academic misconduct" includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct.

Unpaid Fees: Faculty rules specify that students are to have their fees paid by the first day of enrollment for the quarter. [Faculty Rule 3335-9-12]. If you have not paid your fees, you will not be allowed to continue attending class until:

1. Your fees are paid, OR
2. You have met with a Sociology Advisor and a Financial Aid Counselor and are working to get your fees paid.

APPENDIX E.

Sociology of Death and Dying

Soc 290

Spring 2008

Professor:	Dr. Kristi Williams	Class Meetings:	TBA
Office Hours:	Th 11:00 – 1:00	Classroom:	TBA
Office:	Bricker 342	E-mail:	williams.2339@osu.edu
Phone:	688-3207		

Course Description:

This course provides a sociological overview of death and dying. Course topics include definitions of death, the demographics of death, social epidemiology, social meanings of death and dying, treatment of the dying and the dead, the process of dying, and grief and bereavement. By the end of the course, students will have an understanding of: (a) the social distribution and demography of death/mortality, (b) societal and cultural influences on the meaning of death, reactions to death, and the process of dying, (c) significant social problems associated with death and dying (e.g., suicide, euthanasia, AIDS, bio-ethics), (d) the effects of bureaucratic settings and institutional structures (e.g., hospitals, hospice, nursing homes) on the dying and their family members, and (e) major legal and ethical issues associated with death and dying (right to die, informed consent, living will, organ donor programs, etc.).

Required Readings:

- (1) *Understanding Dying, Death, & Bereavement* (2007) by Michael R. Leming and George E. Dickinson, 7th edition, Wadsworth.
- (2) *Tuesdays with Morrie* (1997) by Mitch Albom, Doubleday. (Available in paperback)
- (3) *Death of a Parent: Transition to a New Adult Identity* (2006) by Debra Umberson, Cambridge University Press (Available in paperback).
- (4) Selected readings on course web site

Course web site: [on carmen.osu.edu](http://carmen.osu.edu)

Disability Statement: Students with disabilities that have been certified by the Office for Disability Services will be appropriately accommodated, and should inform the instructor as soon as possible of their needs. The Office for Disability Services is located in 150 Pomerene Hall, 1760 Neil Avenue; telephone 292-3307, TDD 292-0901; <http://www.ods.ohio-state.edu/>.

Course Requirements:

- (1) Mid-term exam: 35%
- (2) Final exam: 35%
- (3) Course project: 30%

Exams (70%) There will be two exams: a mid-term and a final. There are two components of each exam: (1) a section that consists primarily of short answer and multiple choice questions and (2) an essay

component. A set of likely essay questions will be distributed in class prior to the exam. Each exam constitutes 35% of your grade.

If you miss an exam, you will be permitted to make it up **ONLY** if **ALL** of the following three conditions are met: (1) you have a legitimate excuse, like a serious illness, (2) you can document the reason for missing the exam, (3) you contact the instructor by e-mail or phone **BEFORE** the exam, or as soon as is practically possible thereafter. Make-up exams must be taken within one week of the original exam date and may given in an alternative format.

Class project (30%): There will be one course project. Students are required to compile a collection of images of death in the media. This exercise is designed to increase students' awareness of the social definition of death experiences and the attitudes and behaviors that the media fosters toward death. Sources may include the print media of magazines, newspapers, books—fiction, nonfiction, and children's, and the visual media of television news and entertainment presentations and movies. Additional information on this assignment is provided on page 3 of the syllabus. This project will constitute 30% of your final grade.

Attendance: Although attendance does not directly constitute a portion of the course grade, regular attendance is necessary for success in the course. Although lectures generally correspond to the assigned reading topics, additional information is often introduced in lecture that is not included in the assigned reading.

Extra Credit / Bonus Points: Occasionally, short in-class assignments, group-work, and quizzes will be offered during the lecture portion of the course. These opportunities are unscheduled and can only be completed during the class in which they are offered (i.e., you must be present to receive credit and there are no opportunities to make these up). Students completing these assignments will receive a check mark. Each check mark earned adds 1 point to the score of the next exam.

Academic Misconduct: It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term "academic misconduct" includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct.

Unpaid Fees: Faculty rules specify that students are to have their fees paid by the first day of enrollment for the quarter. [Faculty Rule 3335-9-12]. If you have not paid your fees, you will not be allowed to continue attending class until:

1. your fees are paid, OR
2. you have met with a Sociology Advisor and Financial Aid and are working to get your fees paid.

Disposition of Exams and Assignments: ALL EXAMS AND HOMEWORK WILL BE DISCARDED at the end of Winter Quarter 2009. If you have questions about individual grades or your final course grade, please raise them immediately so they can be resolved well before this deadline.

TENTATIVE CLASS SCHEDULE AND ASSIGNED READINGS

Note: Readings should be completed PRIOR to the class date on which they are listed as they will be discussed in class that day. The following is only a guide. At times during the quarter, the course may move slightly faster or slower than indicated below. The instructor will inform students of any major deviation from this outline.

1. 3/31 : Course Introduction and Psychosocial Epidemiology
2. 4/2: Group Differences in Health and Mortality (e.g., sex, race, and socioeconomic status)
Reading: Cockerham, William C. 2006. "The Social Demography of Health," Pp. 34-61 in *Medical Sociology*, Prentice Hall. (available on class web site)
3. 4/7: Stress, Personality, and Relationships: Impact on Mortality
Reading: Cockerham, William C. 2006. "Social Stress," Pp. 62-83 in *Medical Sociology*, Prentice Hall. (available on class web site)
4. 4/9: Defining Death: Social Meanings / Social Construction of Reality
Reading: Leming and Dickinson, Chapter 1
5. 4/14: Defining Death: Landmark Legal Cases
Reading: Leming and Dickinson, Chapter 2
6. 4/16: Views of Social Theorists / Death Socialization
Reading: No Reading
7. 4/21: Legal and Ethical Aspects of Death
Reading: Leming and Dickinson, Chapter 12
8. 4/23: Religion and Death
Reading: Leming and Dickinson, Chapter 4
9. 4/28: **MIDTERM EXAM**
10. 4/30: Deliberate Termination of Life: Murder, Suicide, and Capital Punishment
Reading: Leming and Dickinson, Chapter 9
11. 5/5: Dealing with Dying: Medical Model
Reading: Leming and Dickinson, Chapter 7
Albom (1997) *Tuesdays with Morrie* (pp. 1-31)
12. 5/7: Dealing with Dying: Euthanasia and Hospice
Reading: Leming and Dickinson, Chapter 8
Albom (1997) *Tuesdays with Morrie* (pp. 32-61)
13. 5/12: The Personal Experience of Dying / Stage Theories
Reading: Leming and Dickinson, Chapter 5
Albom (1997) *Tuesdays with Morrie* (pp. 62-80)

14. 5/14: Aging and Death

Reading: Leming and Dickinson, Chapter 6

15. 5/19: Funerals and the Business of Death

Reading: Leming and Dickinson, Chapter 11

16. 5/21: Loss and Bereavement: Widowhood

Reading: Umberson, Debra. *Death of a Parent: Transition to a New Adult Identity*, Chapters 1 and 2

Leming and Dickinson, Chapter 14

COURSE PROJECTS DUE

17. 5/26: NO CLASS. Memorial Day Holiday

18. 5/28: Loss and Bereavement: Death of a Parent in Adulthood

Umberson, Debra. *Death of a Parent: Transition to a New Adult Identity*, Chapters 3, 4, 8, and 9

19. 6/2: Advice to the bereaved and those helping the bereaved

Reading: Leming and Dickinson, Chapter 13

20. 6/4: Review and Catch Up

FINAL EXAM: Date and time to be announced (See Official University Schedule)

COURSE PROJECT
IMAGES OF DEATH IN THE MEDIA

GOALS:

We are exposed to many media deaths each day. These media portrayals reflect society's attitudes toward death and affect attitudes toward death and the dying.

This assignment is designed to increase awareness of "media death"--of the social definition of death experiences and the attitudes and behaviors that the media fosters toward death.

The main objective is to compile a collection of death images as they are presented in media forms and to analyze these images using information you learn from the course.

PROCEDURES:

Identify and collect portrayals of death in the media. Sources may include the print media of magazines, newspapers, books--both fiction and nonfiction, children's books, and comics, and the visual media of television, video, and movies.

Develop a sheet to summarize your findings. This sheet will specify particular types of information that you will gather. Depending on whether you are gathering your information from print or visual media, you may collect information on specific media source; type, cause, and circumstances of death; references to death; response of others to the death; death vocabulary; disposal of the body; social impact of the death; mourning processes; or whether any values were expressed about life or death--e.g., denial of death. This list is only suggestive. Develop your own summary page. Make sure that you include a number of the important issues covered in the lectures and readings.

Following your **summary page**, you should include the **specific examples**. These may include clippings from newspapers, magazines, or other print media; passages or xeroxed visual portrayals from books; transcribed quotations from television news or entertainment shows or written descriptions of visual media portrayals. Be creative--all media sources are acceptable (e.g., in the past, students have examined graffiti content, tattoos, and cartoons).

The final part of the project is a three page (**typed, double-spaced--please number the pages**) overview of the project. This essay should provide a sociological assessment of these images. For example, describe how the project illustrates denial of death, inequality in death, the social construction of reality, or other concepts explored in our lectures and reading. Describe how these media images define death and how that definition may affect the attitudes and behaviors of individuals who consume the media source. Suggest sociological reasons that might explain why the media portray death in this particular way. **An essential aspect of this project is the integration of lecture and reading materials with the analysis of media images.**

SUMMARY:

Materials should be collated and presented in a report binder (Stapled together is fine). In summary, you should include:

1. A summary page of your findings.
2. Specific examples from the media.
3. A concluding essay about three pages in length (typed, double-spaced).

Syllabus, Spring Quarter 2007

Sociology 450 Illness and Social Behavior U 5

OSU Catalogue Description:

This course is a study of cultural, social, psychological, and sociological factors in disease processes, distribution of disease, definition of illness, organization of health professions and facilities.

Instructor: Kent Schwirian, Ph.D.

Professor Emeritus of Sociology

Professor Emeritus of Family Medicine

**Chair, Inner City Health Research Group, Primary Care Research Institute,
The Ohio State University College of Medicine and Public Health**

Office: 374 Bricker Hall

Bricker Hall Office Hours: Mon,Thur: 2:00-3:00

E-mail: schwirian.2@osu.edu

Phone message-- Sociology: 292-6681

Text Books to Purchase:

1. Cockerham, *Medical Sociology, 10th edition*. Prentice Hall, 2007
2. Fitzpatrick and LaGory, *Unhealthy Places: the Ecology of Risk in the Urban Landscape*. Routledge, 2000

For students wanting a more advanced and specialized treatment of the material see (not required to purchase):

- Gary Albrecht, Ray Fitzpatrick, and Susan Scrimshaw, (eds.) 2003. *The Handbook of Social Studies in Health and Medicine*. Thousand Oaks, CA: Sage
- Chloe E. Bird, Peter Conrad, and Allen M. Fremont, (eds.) 2000. *Handbook of Medical Sociology*. Upper Saddle River, NJ: Prentice Hall.
- William C. Cockerham and Michael Glasser, (eds.) 2001. *Readings in Medical Sociology*. Upper Saddle River, NJ: Prentice Hall.

Course Objectives:

1. To understand the contributions of sociology, human ecology, and social epidemiology to the study of health and illness.

2. To understand the impact of the social processes of globalization, industrialization, bureaucratization, urbanization and rationalization on health and illness
3. To understand the historic and current impact of diseases on society
4. To understand the cultural, social, and social psychological factors in the processes of disease and health care.
5. To understand the role of place and social inequality in health and illness.
6. To understand the dynamics of society's responses to diseases and to the promotion of health.
7. To understand the issues and problems in the organization of health care today.

Evaluation:

Students will be graded on the basis of the total points they acquire over the quarter. There will be two tests. Each is worth 100 points. They will be a combination of true/false, multiple choice, and fill-in. The tests total 200 possible points. Material for the tests will come from the readings, reports and Dr. Schwirian's lectures.

There will be three short papers. The first deals with social issues in health and health care. The second is a summary of the Fitzpatrick and LaGory Book written in class. The third is an application of course material to health and illness issues in the news. Each paper is worth 20 points. These papers total a possible 60 points. The nature of these papers is discussed in the attached study guide for the course.

Grades will be assigned on the basis of the percentage of the total possible points the student acquires. The grades will be:

- A = 93%-100%
- A- = 90%-92%
- B+ = 88%-89%
- B = 83%-87%
- B- = 80%-82%
- C+ = 78%-79%
- C = 73%-77%
- C- = 70%-72%
- D+ = 68%-69%
- D = 60%-67%
- E = below 60%

The grades will be curved. The average of the two highest student totals will be set as the 100% point for the distribution

Policy on Late Assignments and Missed Tests

If an assignment is not handed in on time for the reasons of: serious illness receiving medical attention, family crisis or death, court appearance, or travel with a university team the assignment may be turned in at the next

class meeting with no penalty in grade. The absence must be supported by hard copy—such as an obituary for a family member. For late assignments for other reasons, they may be handed in within the next week from the assigned date with a penalty of 50% off. After one week they will no longer be accepted and a score of zero will be recorded.

If a test is missed, it may be made up if the reason is one of the ones cited above and supporting hard copy is provided. **ALL MAKE UP TESTS ARE ESSAY—TERM DEFINITIONS AND ESSAY QUESTIONS.** The missed test must be made up in a timely manner.

Early Finals

All finals will be taken at the Registrar's designated time and place for the class. Exceptions are possible but for only dire circumstances and those would be essay.

Dates, Topics, and Assignments (C = Cockerham; F= Fitzpatrick and LaGory)

March 26 Mon.	Introduction to the Course
March 28 Wed.	Health, Illness, and Medical Sociology, C:1
April 2 Mon..	Epidemiology, C:2
April 4 Wed.	No class—work on paper 1
April 9 Mon..	The Demography of Health, C:3
April 11 Wed.	Social Stress and Illness, C:4 and F:1—paper 1 due
April 16 Mon.	Life Styles and Health Behaviors, C:5 and F:2
April 18 Wed.	Illness Behavior, C:6 and F:3
April 23 Mon.	Film: Influenza of 1918

May 28 Mon.	No-Class Memorial Day
May 30 Wed.	Health Care in Other Societies, C:15 and 16—paper 2 due

Final Exam: Wed. June 6 from 3:30 until 5:18. In this room

Who Is Dr. Schwirian?

Dr. Schwirian's areas of specialization are: health and illness in the city, urbanization and urban systems, and human ecology and environmental sociology.

Dr. Schwirian is Professor Emeritus of Sociology. He is also a professor in the College of Medicine and Public Health's Department of Family Medicine. He is a member of the faculty of the Medical College's Primary Care Research Institute where he chairs the Inner City Health Research Group. He is currently researching the health and illness—both physical and mental—of inner city residents; the health and illness of new immigrant and refugee groups including Somalis, Hispanics, and Russians with particular emphasis on the links among family structure, psychological distress, and physical illness; the factors in the political culture and capacity of communities to respond to plagues, natural disasters, and potential bioterrorism; and neighborhood factors in population illness with particular attention to infant mortality, asthma hospitalization, and childhood lead poisoning.

Dr. Schwirian has published six books. The most recent is *High Stakes: Big Time Sports and Downtown Redevelopment*. It was published last year by Ohio State University Press (Coauthors: Tim Curry and Rachael Woldoff). He is presently working on two books tentatively titled *Children of Job: the Medically Underserved in the Inner City*, and *Microbe War: Globalization, Plague, and the Local Community*. He has also authored over 100 research-based articles published in professional journals and/or presented at scientific meetings. His most recently published articles are (2005): "Globalization, Plague and the Local Community: Healthcare Capacity, Politics, and the Microbe War" in *Sociological Focus* 38:151-170, and (2006) "Measuring Psychological Distress in Somali Refugees" in *New Research in Mental Health* 16:229-233 (Co-author Patricia Schwirian). His most recent presentations at scientific conferences are at the 2006 Conference of the North Central Sociological Association: "Who's at Fault? The Politics of Blame in Natural Disasters, Terrorists Attacks, and Plague Outbreaks" and "Unhealthy Places: Neighborhood Distress and the Lead Poisoning of Children" (coauthors: Pat Schwirian and Lisa Nicholson).

Dr. Schwirian graduated from high school in the Chicago suburb of Oak Park. He received his B.S. in secondary social science education from Illinois State University and taught sociology and American Government at University High School. His M.A. and Ph.D. in sociology are from the University of Iowa. He joined the Ohio State faculty in 1962. He was chair of the sociology department from 1977-1982.

STUDENTS WITH DISABILITIES:

THIS MATERIAL IS AVAILABLE IN ALTERNATIVE FORMATS UPON REQUEST. PLEASE CONTACT AN ADVISOR IN THE UNDERGRADUATE STUDENT SERVICES OFFICE AT 292-1175. STUDENTS WITH DISABILITIES ARE RESPONSIBLE FOR MAKING THEIR NEEDS KNOWN AND SEEKING AVAILABLE ASSISTANCE IN A TIMELY MANNER.

Note: Changes in due dates, assignments, meetings, class topics, and lectures are possible as unanticipated events arise

Sociology of Health: Mental & Physical Dimensions (Soc 629)

Winter 2008

Biological Sciences Building 0668
Tuesdays & Thursdays, 2:30–4:18 PM

Dr. Cynthia Colen
Bricker Hall, Room 376
colen.3@sociology.osu.edu

Office Hours: Tuesdays & Thursdays 4:30-5:30 or By Appointment

Course Description

Health has long been a topic of interest for sociologists. Indeed, sociological perspectives have greatly informed (and increasingly continue to inform) efforts to understand and improve health in the United States and around the globe. This course is designed to serve as an introduction to the broad area of study termed the “sociology of health and illness” while placing special emphasis on the exploration of health inequalities.

The overarching objective of this course is to explore the ways in which social, economic, and political processes operating on a macro-structural level influence the mental and physical health status of individuals or groups of individuals. Since other Sociology courses focus on an analysis of the medical system and the social organization of medical care, these topics will not be examined in depth here.

Course Materials

Required readings are listed below and are divided into four sections: Introduction and Key Concepts, the Social Distribution of Health and Illness, Dominant Yet Inadequate Explanations for Health Disparities, and How Do Social Factors Become Embodied or “Get Under the Skin”. They will be made available to you through the course website on Carmen (<http://carmen.osu.edu/>).

In addition to the articles and book chapters I have placed on Carmen, you will be required to purchase the following text:

Johnson, S. 2006. *The Ghost Map: The Story of London's Most Terrifying Epidemic – and How It Changed Science, Cities, and the Modern World*. New York, NY: Riverhead Books.

Format

While lectures may be used occasionally, due to the small class size, this course will predominantly be conducted using a seminar format whereby course material will be covered using discussion and debate that is led and facilitated by the instructor and (sometimes) the students. Consequently, it is incumbent upon all students to contribute to each class meeting. This includes reading the assigned material *prior* to class and arriving prepared to offer thoughts and raise questions as well as participate in all class discussions and debates. Doing so will make the course a richer experience for all. Due to this format and what it requires, class participation constitutes a substantial portion of the

final grade. Should you wish to explore a topic further, feel free to ask me for suggestions regarding additional source material.

Requirements

1. Class participation will be assessed not simply by attendance, but by the degree to which you engage the subject matter in each class meeting. You must come to class prepared! This means that you should have read the assigned readings **before** class.

NOTE: I reserve the right to hold random quizzes and incorporate them into the final grade evaluation if I feel that a significant proportion of students are not reading the material.

2. The midterm will be a take-home exam comprised of short answer and/or essay questions. It will cover material from the required readings as well as class lectures through February 5th. Each exam is expected to represent the student's original, individual work and will require critical thought, precise writing, and explanation of evidence to support one's arguments. You will have one week to complete it. Each student is expected to work independently on the midterm exam and will not be allowed to turn in the same or similar answers. Graduate students will have the option of turning in a research proposal or paper in lieu of the midterm exam. Please see me if you would like to pursue this option.

3. In-class debates will be held on March 6th. The purpose of this exercise is to facilitate a more thorough understanding of how health disparities become "embodied" or get under the skin. The class will be divided into small groups of 4-5 people. Each group will be responsible for writing a brief argument in support of one of the 4 theories/hypotheses covered in class (the stress process, allostatic load, weathering, and John Henryism) and convincingly presenting their argument during a mock debate.

4. The final will be held on **Tuesday, March 11th from 1:30-3:18 PM**. This will be a cumulative exam; therefore, any material from the required reading list, my lectures, and class discussions is fair game and may find its way onto the exam.

Grading

Class Participation	15%
Midterm Exam	30%
In-Class Debates	20%
Final Exam	35%

Prerequisites

Sociology 487 & 488 or Graduate Standing

Additional Notes

Extra Credit: I will not be providing opportunities to receive extra credit. No exceptions.

Religious Holidays: Please contact me regarding any conflict between religious observance dates and course examinations or assignments.

Disability Statement: Students with disabilities that have been certified by the Office for Disability Services will be appropriately accommodated, and should inform me as soon as possible of their needs. The Office for Disability Services is located in 150 Pomerene Hall, 1760 Neil Avenue; Telephone 614-292-3307, TDD 614-292-0901; <http://www.ods.ohio-state.edu/>.

Unpaid Fees: Faculty rules specify that students are to have their fees paid by the first day of enrollment for the quarter. [Faculty Rule 3335-9-12]. If you have not paid your fees, you will not be allowed to continue attending class until all fees are paid OR you have a signed letter from Financial Aid stating that you are working with them to do so.

Academic Misconduct: The term "academic misconduct" includes all forms of student academic misconduct wherever committed - illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Please see the student resource guide for a comprehensive description of academic misconduct (http://studentaffairs.osu.edu/resource_csc.asp). It is my policy to report all violations. Unless otherwise notified, you should complete all assignments by yourself.

Final Exam

Syllabus, Spring Quarter 2007

Sociology 630 Medical Sociology U 5

OSU catalogue description:

Sociological analysis of the distribution of disease, and the nature of health care institutions, health professions and the delivery of health care services.

Professor Schwirian's description:

The course provides an advanced overview of the demographic, ecological, social psychological, and sociological aspects of health and illness with a special emphasis on social epidemiology. We trace the develop of scientific medicine as well the rise and development of health care bureaucracies and their implications for the delivery of health care to social status, age, sex, and race/ethnic groups. We examine the role of stress in health and illness and the link between physical illness and mental disorders. We study the global health crisis with emphasis on plagues such as AIDS, SARS, and the potential H5N1 (Bird Flu) and the increasing role of the WHO in monitoring and working to contain and control such outbreaks. We also examine the delivery of health care in irregular settings such as in the war in IRAQ and how the challenges faced by health care professionals in such settings and the solutions they find impact the delivery of care in general practice at home.

Instructor: Kent Schwirian, Ph.D.

Professor Emeritus of Sociology

Professor Emeritus of Family Medicine

Chair, Inner City Health Research Group, Primary Care Research Institute,

The Ohio State University College of Medicine and Public Health

Office: 374 Bricker Hall

Phone message-- Sociology: 292-6681

Text Books to Purchase:

1. Weiss and Lonnquist, *The Sociology of Health, Healing, and Illness*, 5th edition. 2006
2. Abraham, *Twenty-First Century Plague: The Story of SARS*. 2005
3. Oshinsky, *Polio: An American Story*. 2005.

For students wanting a more advanced and specialized treatment of the material see (not required to purchase):

- Gary Albrecht, Ray Fitzpatrick, and Susan Scrimshaw, (eds.) 2003. *The Handbook of Social Studies in Health and Medicine*. Thousand Oaks, CA: Sage
- Chloe E. Bird, Peter Conrad, and Allen M. Fremont, (eds.) 2000. *Handbook of Medical Sociology*. Upper Saddle River, NJ: Prentice Hall.
- William C. Cockerham and Michael Glasser, (eds.) 2001. *Readings in Medical Sociology*. Upper Saddle River, NJ: Prentice Hall.

Also central scholarly journals are: *Social Science and Medicine* and the *Journal of Health and Social Behavior*.

Course Objectives:

1. To understand the effect of social change on health, illness, and the institution of health care and medicine
2. To understand the development of scientific medicine and its link to medical practice and health care
3. To understand the historic and current impact of diseases on society
4. To understand the role of stress in physical illness and the link between physical illness and psychological distress
5. To understand health and health care inequalities especially in the terms of socioeconomic status, sex, race/ethnicity, age, and place
6. To understand the basic theoretical models that shape the field of medical sociology
7. To understand how power and politics shapes the delivery of health care.

Evaluation: This course has both advanced undergraduate and graduate students registered

Undergraduate Evaluation:

- Students will be graded on the basis of the total points they acquire over the quarter.
- There will be two tests. Each is worth 100 points. They will be a combination of true/false, multiple choice, and fill-in. The tests total 200 possible points. Material for the tests will come from the readings, class discussions, and Dr. Schwirian's lectures.
- There will be four written exercise. Each is worth 20 points. The first is an in-class summary of the Abraham book. The second will be an in-class summary of the Oshinsky book. The third will be an in-class summary of the film Baghdad ER. The fourth will be an out-of-class paper applying the class material to a health item in the news.
- The total possible points are 280. The distribution of points will be curved. The two students with the highest grade will have their total points averaged. This average will be taken as 100. Each students

total will be calculated as a percent of this average. A = 93+, A-=90-92, B+=88-89, B= 83-87, B-=80-82, C+=78-79, C= 73-77, C-=70-72, D+= 68-69, D= 60-67, E= <60

Undergraduate Paper :This paper is due on Thursday May 24th.

Go to a newspaper, news magazine, a web source of news, etc, and select an item dealing with any of the topics covered in this class' readings and lectures. Possibilities include health and illness, organization of medical care, news about diseases, etc. from a newspaper or magazine from the last three months. Xerox the item or print it out. Write: 1) a one page summary of the item, and 2) a two page discussion of the item in terms of what we have covered in the class—lecture and/or reading.

This paper is due in class on May 24th. It is worth 20 points. The text of the paper should be no longer than 3 pages—1 inch margins, double spaced, 12 pitch, Times New Roman or similar font. The copy of the article should be attached. It should have a cover page in this format:

**Sociology 450
Spring Quarter
May 24, 2007
Dr. Schwirian**

**Title (e.g. New TB Outbreak)
Your Name**

WORK INDEPENDENTLY—THIS IS NOT A GROUP PROJECT. IF YOU NEED IT, YOU MAY OBTAIN HELP FROM THE WRITING CENTER BUT FROM NO OTHER

Graduate Students Evaluation

The final grade of each graduate student in class will be determined holistically by his or her by performance over the following activities:

- A comprehensive review of the literature on a given topic relevant to the readings and/or lectures of the class. This is based on 15 sources. The report will contain 1) a one page statement on the topic being researched along with the reason it is worth pursuing; 2) a one page summary of each article (or book chapter or book); 3) a maximum of 10 pages essay that summarizes the literature sources along with your suggestions as to where and why additional studies need to be done to advance the literature on that topic.
 - In-class essay at the time of the mid-term that lists the 10 most important things as you see it covered to that point in the class.
 - Out-of-class essay over each of the 2 books and film. For the Abraham book discuss the major things it tells you about the connection of politics and health care in the face of a medical crisis. For the Oshinsky book, discuss the image of big time medical science that it provides. Each essay - 2 typed pages. For the film discuss the fundamental elements of how medical care is organized in a combat zone. For book and film, while the undergrads are writing the grad students will pool their thoughts for an oral presentation of about 10 minutes at the end of writing time.
 - Take home final that briefly discusses the 10 most major points covered in the course as you see it. 10 pages
 - The weekly (or near weekly) roundtable discussion with the other grad students and Schwirian over an article you have found in a professional journal related to the course work. This will take place in class. The undergrads will treat this as additional material to be covered in their studies.
-

Who Is Dr. Schwirian?

Dr. Schwirian's areas of specialization are: health and illness in the city, urbanization and urban systems, and human ecology and environmental sociology.

Dr. Schwirian is Professor Emeritus of Sociology. He is also a professor in the College of Medicine and Public Health's Department of Family Medicine. He is a member of the faculty of the Medical College's Primary Care Research Institute where he chairs the Inner City Health Research Group. He is currently researching the health and illness—both physical and mental—of inner city residents; the health and illness of new immigrant and refugee groups including Somalis, Hispanics, and Russians with particular emphasis on the links among family structure, psychological distress, and physical illness; the factors in the political culture and capacity of communities to respond to plagues, natural disasters, and potential bioterrorism; and neighborhood factors in population illness with particular attention to infant mortality, asthma hospitalization, and childhood lead poisoning.

Dr. Schwirian has published six books. The most recent is *High Stakes: Big Time Sports and Downtown Redevelopment*. It was published last year by Ohio State University Press (Coauthors: Tim Curry and Rachael Woldoff). He is presently working on two books tentatively titled *Children of Job: the Medically Underserved in the Inner City*, and *Microbe War: Globalization, Plague, and the Local Community*.

He has also authored over 100 research-based articles published in professional journals and/or presented at scientific meetings. His most recently published articles are (2005): "Globalization, Plague and the Local Community: Healthcare Capacity, Politics, and the Microbe War" in *Sociological Focus* 38:151-170; (2006) "The Political Ecology of Plague in the Global Network of Cities" in McCright and Clark, *Community and Ecology: Dynamics of Place, Sustainability, and Politics*, pp. 241-268; and (2006) "Measuring Psychological Distress in Somali Refugees" in *New Research in Mental Health* 16:229-233 (Co-author Patricia Schwirian). Forthcoming this spring 2007 is "The Interface among Neuroscience, Social Psychology, and Sociology in the Study of Extreme Disorders: Schizophrenia, Severe Depression, and Serious Anxiety" in *Evolution and Sociology*. His most recent presentations at scientific conferences are at the 2006 Conference

of the North Central Sociological Association: “Who’s at Fault? The Politics of Blame in Natural Disasters, Terrorists Attacks, and Plague Outbreaks” and “Unhealthy Places: Neighborhood Distress and the Lead Poisoning of Children” (coauthors: Pat Schwirian and Lisa Nicholson). At Spring 2007’s joint meeting of the Midwest Sociological Society and the North Central Sociological Association he is presenting with Patricia Schwirian, “Age and Psychological Distress among Somali Refugees to a Large City.

Dr. Schwirian graduated from high school in the Chicago suburb of Oak Park. He received his B.S. in secondary social science education from Illinois State University and taught sociology and American Government at University High School. His M.A. and Ph.D. in sociology are from the University of Iowa. He joined the Ohio State faculty in 1962. He was chair of the sociology department from 1977-1982.

STUDENTS WITH DISABILITIES:

THIS MATERIAL IS AVAILABLE IN ALTERNATIVE FORMATS UPON REQUEST. PLEASE CONTACT AN ADVISOR IN THE UNDERGRADUATE STUDENT SERVICES OFFICE AT 292-1175. STUDENTS WITH DISABILITIES ARE RESPONSIBLE FOR MAKING THEIR NEEDS KNOWN AND SEEKING AVAILABLE ASSISTANCE IN A TIMELY MANNER.

Note: Changes in due dates, assignments, meetings, class topics, and lectures are possible as unanticipated events arise

APPENDIX F - Undergraduate Student Input

The advising staff has solicited input from Undergraduate students (that come to see them) and from the undergraduate student members of the Undergraduate Studies Committee. We have yet to hear that the change is unfavorable for students. The following is representative of undergraduate's opinions:

"Regarding the removal of SOC 487 from both the CCJS and SSI Minors: I understand why 487 is removed and I think that the decision makes sense."

Junior Honors Sociology major

"The idea is sound. I don't see why they would need research methods if they are MINORING in these programs. Same with 101 actually. If you pick up a minor you have a good idea about what you want to do and what the minor is about. The list of classes you offer is a good choice. It covers all the material you would NEED to know having a minor in either of those subjects. It gives a good background and presents some good overlap that will allow the student to be fully immersed into the minor without having to worry about fulfilling the requirements of the major. All in All....I say 2 thumbs up!"

Senior Sociology major

"Overall changes: The curriculum changes seem to make a great deal of sense and be much more beneficial students with Soc or Crim minors."

Junior Honors Sociology major

"This is a more appealing minor option for me than the current curriculum. I am not interested in taking another research methods course - my major requires one."

International Studies Major

"This makes more sense and is a more attractive minor. I would want to take more courses about different topics in Criminology, instead of a methods course."

Psychology Major

Arts and Sciences Committee on Curriculum and Instruction

Approved Minutes

Friday, May 29, 2009

1. Sociology Minor Revision (guest: Paul Bellair)
 - Introduction (Harder) Dept of Sociology has 3 current minors (Sociology with approximately 100 students; Soc Stratification and Inequality, which is undersubscribed and in need of revision; and Criminology, which has successful enrollments.) Soc is proposing to revise the 3 existing minors and to add a new minor named "Health and Society"; The CCI subcommittee on Sciences was impressed with proposals and rationales and feels changes can attract more students.
 - a. "Soc Stratification and Inequality" minor is proposing a name change to "Inequality and Society" to make the name of the minor more appealing and understandable to students. Also, the structure of this minor has been revised substantially, leaving students with 2 electives from a long list.
 - b. The newly titled "Criminology and Criminal Justice Studies" minor provides more depth in Criminal Justice system. The name change also mirrors the recently approved renaming of the major.
 - c. The New Health and Society minor reflects new faculty areas and student interest.
 - d. Subcommittee was initially unclear about 100-level rules and was concerned with differences among 4 minors with Soc 100 requirement. Upon further reflection, it was decided that nearly everyone that goes into a Soc minor has already had 101 and also, 101 is now included on every minor.

A&S Guidelines for minors state the following with regard to 100-level courses on a minor: 2. The inclusion of 100-level courses, X94 (group studies) courses, or introductory courses designed to meet the General Education Curriculum (GEC) is discouraged. For every five credit hours of 100-level course work on the minor, the minimum total (20) required for the minor is increased by five. (2008-09 Operations Manual, 20)

- Rationale (Bellair)
 - a. Now minors include methods course (488) which is a rigorous course
 - b. Revision is based on revision of Soc and CJ majors
 - c. The Sociology department was surprised to see Soc minor outperforming CJ minor because there are more Soc majors. Soc program netted most minors so they were hesitant to change this traditional minor because of student demand.
 - d. CJ minor: Dept felt they could get better enrollments in minor and have tried to organized broadly to facilitate revision
 - e. Inequality and Society minor:
 - i. typo include new name on minor advising sheet
 - ii. Min of 20 credit hours
 - iii. All 5 credit hour courses, 101 is only non-200-level or above course.
 - iv. Make boilerplate language on right hand side advising sheets consistent with 25 credit hour minimums
 - f. Internship credit does not count on minors. Because dept. is expecting increased enrollment in internship class as it is a new major requirement, internship course was left off minor so as to facilitate demand among majors. Sts may still take it but won't count toward minors.

- g. Q: Why must students consult with departmental advisors? Program is well- staffed in advising encourages students to consult advisors. This system has been in place historically and has worked well for students. It could change in the future as undergrad student population has become more savvy in understanding of requirements and restrictions, but dept still likes this clause for now.

Subcommittee approval stands as motion to approve

2nd Vaessin

UNANIMOUSLY APPROVED

CCI Social, Behavioral, Biological, Mathematical and Physical Sciences Subcommittee
Approved Minutes
Tuesday, May 12, 2009

1. Sociology Minor Revision

- **Clarification on contingencies**
- The motion (4/7/09) was that 101 not be included as an elective or requirement in the minor, and to remove the statement that it will not increase the credit hours for the minor.
- It was found that 101's can be used in minors, though they are discouraged. Research could not bring forward documentation of that supposed rule.
- Sociology's inclusion of 101 was based on recruiting minors from that class. It did not add extraneous hours to the minor.
- Is 101 appropriate for a minor, which is supposed to be a more rigorous treatment of a 4- or 5-course cluster? Keeping it in there could make it misleading to students who have to take an additional 5 credit hours.
- **Motion to 1) remove the two contingencies approved on 4/7/09, i.e., Sociology was instructed to remove the statement in the proposal about not increasing credit hours and 2) remove 101 as a required and/or elective within the Sociology minor proposals and 3) approve the Sociology minor as submitted**

Fredal, Mummy - **UNANIMOUSLY APPROVED**

CCI Social, Behavioral, Biological, Mathematical and Physical Sciences Subcommittee
Approved Minutes
Tuesday, April 07, 2009

1. Sociology minor revision

- This was sent back previously, revolving around the issue of Soc 101 as an elective
- Their response is that 20 of the 25 hrs will be non-100 level coursework
- Basic substance: no complaints here regarding that
- Does the response satisfy the committee?
 - Some sense of false advertising here: if you take 101 you still need to have 5 courses beyond that
 - In soc strat & ineq: that is 25 hrs without 101
- By faculty rule, depts. cannot use 101 as an elective in the minor

MOTION TO APPROVE WITH CONTINGENCY: 101 not be included as an elective or a requirement in any minor- could be a prereq to the minor but cannot count it (could recommend it), and as it goes forth the proposal must remove the statement that it will not increase the credit hours for the minor- Harder, Fredal- UNANIMOUSLY APPROVED

CCI Social, Behavioral, Biological, Mathematical and Physical Sciences Subcommittee
Approved Minutes
Monday, February 09, 2009

1. Sociology minor

- Adding a minor (in health), changing 2 minor names and taking some general sociology courses and tailor the courses more to the topics
- Does not add more credit hours; 101 is not a prereq for many of these; students will still
- 511, 629 and 630 have 487 & 488 as prereqs- **will check if prereqs changed**
 - **ADDED AFTER THE MEETING: Todd Bitters:** The prerequisite for Sociology 511, 629, and 630 is now listed as: **5 credit hours in Sociology at the 200 - 400 level or graduate standing**
- Rationale includes having more faculty to teach these new courses; crim minor is more attractive with this tailoring and already has a huge major following
- 101 listed as elective- can a 101 fulfill a minor? No. **Take 101 off the elective list (or provide rationale for why they should keep it on there)**
- More focused curriculum, good alternative for students including premed
- Minor can be attained with Soc 101 plus 20 cr hour of these courses, or 25 credits (minus 101)- must standardize the minor- some can do it in 20, some 25. **Do they really want a 20 cr hr minor with 101?**

SENT BACK WITH RECOMMENDATIONS ABOVE- general sense is we were happy with the changes; unanimously approved

College of Social and Behavioral Sciences Curriculum Committee
Approved Minutes
January 13, 2009

1. Sociology Minor Program revision

- Part 3 of the sociology curriculum revisions, following the major program, prerequisites for undergrad and upper level courses in particular- the main focus is to find ways to make the minor programs more interesting and stimulate demand; currently 3 minors: sociology minor, criminology & social strat/inequality; the soc minor enrolls the most students (sp08- 105), which enrolls more than Crim, seen as odd given that the Crim major enrolls more than Soc major; Psych students are the most often Soc minor recipients, others are from Poli Sci, Comm & Social Work; enrollment in social strat/inequality minor is 1 student right now (probably more when degree audits occur) (perhaps because the current requirements are nearly identical with the Soc major, which has an established name brand with it)- this current structure was developed and proposed years ago, perhaps because the interdisciplinary minors were proliferated at the time; the

current minors were set up with the mini-major philosophy (not based on enrollments at the time)

- Changes: Leaving sociology minor as is; change other 2 minors more substantively based and add the Health and Society minor program; there are no credit hr requirement changes (25 hr); potential reason for lack of enrollment- students may not know what social strat and inequality is so decision was to change title to inequality and society, and change title of Crim minor to match Crim major title: Criminology and Criminal Justice Studies; 3 core courses for the 3-non-Soc tracks; removal of research methods course for these minors because most of the programs where the minors are coming from already have a methods course
- Benchmark institutional data shows not much homogeneity across institutions as Wisconsin has interdisciplinary concentrations rather than minors, UCLA has no minors but immersion programs/course clusters; 25 hr requirement falls a bit below other minor-granting institutions and much variation within Big 10 programs (20 hr is the minimum) but making hours larger is counter-productive to increasing enrollment; undergraduate advisors began to talk with students and they seemed to like the idea, preferring not take an additional research methods course
- Low enrollment in Crim rationale- seems unequal to the previous statement stating 67 enrollees in Spring 2008. Sociology minor has about 105 enrollees in the same quarter; that is what that statement is getting at; perhaps *underperforming is a better language*
- Is it wise to submit in 1 package and send them out, in case 1 flies through and another wouldn't? Administratively 1 meeting is ideal. If there is delay with 1 or another minor it could hold it up; but seeing them all together as 1 package is more holistic.
- The revision differentiates the minor programs more substantially
- *Under current Crim requirements, it should say 2 electives*
- *The methods course (488, 549) pulled is not listed in possible electives; but each elective sheet was asked to be differentiated based on substance; will be added to each Appendix A and B*
- Intro to Sociology not a requirement for social strat and crim, but it is included in the appendices as electives
- Prereqs for upper level courses are some mid-level courses; not a deceptive attempt to increase the number of credit hours students must take
- Students taking a research methods in another department cannot count that in the sociology suite of minors credit
- Public health minor (allied med or occupational therapy)? Some contact with those departments especially in relation to the health minor

UNANIMOUSLY APPROVED
