Re: Arts and Sciences Program Proposals from the Social and Behavioral Sciences Division

Arts and Sciences is pleased to submit the following programs from the Social and Behavioral Sciences Division to the Office of Academic Affairs for conversion from quarters to semesters. The programs have been approved by the faculty members and chair of the originating unit, and reviewed and approved by the divisional advisory panel, a subcommittee of the ASC Committee on Curriculum and Instruction (CCI), and the full CCI. The vote for approval of all programs at the full CCI was unanimous.

**Arts and Sciences General Education (GE) Program:** The GE program for untagged B.A. and B.S. degrees in Arts and Sciences was approved by the Council on Academic Affairs on May 26, 2010, after receiving approval from the Arts and Sciences Faculty Senate. All the programs presented here follow the approved GE program.

**College of Arts and Sciences Transition Policy:** The College of Arts and Sciences is committed to the principles outlined in the university's Pledge to Undergraduate Students. Each unit has a plan on how best to assist its majors and minors through the transition. And the Arts and Sciences Academic Advising Services will advise students on how to transition their GE program. Dual advising is the existing process used in Arts and Sciences and will continue under semesters.

Chair, Arts and Sciences CCI  
Re: Department of Anthropology Minors

Dear Professor Krissek:

At the November 29, 2010 meeting of the Mathematics and Social, Behavioral, and Natural Sciences CCI Subcommittee the semester conversion plans for the Anthropology Minor and the Forensic Science minor, submitted by the Department of Anthropology, were reviewed. The Anthropology minor program consisted of three sub-plans: Physical Anthropology, Cultural Anthropology and Archaeology. These plans were well organized and represented direct conversions from the existing schemes. We noted that there was a change in the administration of the Forensic Science minor. Previously this was an interdisciplinary minor, this program is now formally associated with the Department of Anthropology. The Forensic Science minor program remains essentially unchanged, with the exception of ANT2200 (Introduction to Physical Anthropology), which will be presented as a laboratory course in its semester form. We felt that both proposals presented comprehensive descriptions of their programs and that current students could readily transition to the new plans. For clarity, we requested comments on a number of minor points in the text. These are described below.

For the Anthropology program:

- We noted a text error: In the list of Cultural Anthropology semester courses, Anthropology 597.05H should read 4597.05H.

For the Forensic Science program:

- A semester number is needed for ASC 211.
- Does ASC 211 represent a required course “outside of the unit”? If so, credit hours associated with this course should be reflected in the PACER form in this category.
- Are the successor course number and its semester credit value known for Pharmacy 200?
- Under point “III. List of Semester Courses in the program”: “The Forensic Science minor requires the completion of (15 hours?), which consists of an introductory course (3 hours), a required foundational course (3 hours) and two of three core courses.” Delete “of three” since under semesters there will be five core courses (there were three under quarters).
- Under point “III. List of Semester Courses in the program” and on the Semester Advising Sheet, clarify following reference: (15 hours?).

Since these revisions were viewed as minor, the subcommittee unanimously approved both proposals and we have submitted them for the next step in the approval process.

Sincerely,

Professor Larry Krissek  
Chair, Arts and Sciences CCI

Dear Professor Krissek:

At the undergraduate level the Department of Anthropology has two major programs:

The Bachelor of Arts Anthropology major

The Bachelor of Science Anthropological Sciences major.

In his cover letter, Department Chair Clark Larsen has detailed the careful consideration given by the Department to the semester conversion plans for all programs, especially these two majors and the minimal changes made to the majors in the conversion. These conversion plans were reviewed by me and the Social Sciences Disciplinary Advisory Panel (SS DAP).

Anthropology responded positively to suggestions from SS DAP concerning program goals and other minor changes. As a result SS DAP and I support Anthropology's conversion plans and submit them to you for CCI's consideration.

At the undergraduate level the Department also has two minors:

The Anthropology minor with three tracks; Physical Anthropology, Cultural Anthropology, and Archaeology

The Forensic Science minor

Initially the conversion of the Anthropology minor was presented as the conversion of three minors, one for each track, and this is what is stated in Chairman Larsen's letter. This has subsequently been correctly modified to be the conversion on the Anthropology minor with three sub-plan tracks. Taking account of the fact that the three tracks of the Anthropology minor are part of a single minor, both minors (Anthropology and Forensic Science) have been converted with minimal changes. The SS DAP and I have reviewed both conversion plans and endorse them. As a result we submit them to you for CCI's consideration.

Sincerely,

A handwritten signature in black ink that reads "Gene E. Mummy".

PROGRAM TEMPLATE: ANTHROPOLOGY MINOR

**To: Reviewer**

**From: Clark S. Larsen  
W. Scott McGraw**

**Date: October 12, 2010**

**Subject: Conversion of Undergraduate Minor in Archaeology from quarters to semesters.**

The Department of Anthropology is pleased to present materials for conversion of its **Undergraduate Minor in Archaeology** to the semester-based system. Conversion of this program to semesters will occur with minimal changes to program goals and curricular requirements. The materials we present are part of our department's general conversion package which includes templates for the following programs:

I. Graduate

PhD in Anthropology  
MA in Anthropology

II. Undergraduate bachelor degree programs/major

Anthropology (BA)  
Anthropological Sciences (BS)

III. Undergraduate minor programs

Physical Anthropology  
Cultural Anthropology  
Archaeology  
Forensic Science

Our conversion, as with all major curriculum initiatives and revisions, followed the Department of Anthropology Pattern of Administration guidelines through discussions and deliberations involving all department faculty. In this instance, these discussions and deliberations were pursued by an ad hoc Conversion Committee, discussions with all departmental faculty (main and regional campuses) at faculty meetings, discussions amongst the chairs of the Undergraduate and Graduate Studies committees with the department chair, and solicited input from undergraduate and graduate students. In addition, we sought advice from several anthropology departments at benchmark institutions that had undergone calendar conversion in recent years. We have endeavored to follow all guidelines and believe our documents are in accord with what

is required at higher administrative levels. As outlined in the individual program templates, we believe each conversion falls in the category of “conversion with minimal programmatic changes.”

With one exception, all courses have been converted from 5 quarter to 3 semester hours. The single exception involves designating ANT 200 (now ANT 2200) *Introduction to Physical Anthropology* as a laboratory course and changing its hours from 5 to 4 hours.

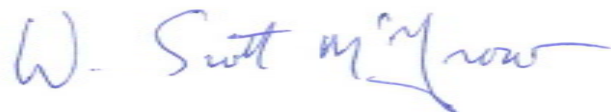

We have renumbered our course offerings in an effort to return consistency and logic to their listing. This renumbering is the result of multiple discussions with faculty and proceeds as follows:

- All 200 level quarter courses are renumbered as 2000 level semester courses.
- All 300, 400 and many 500 level quarter courses are renumbered as 3000 level semester courses.
- A handful of 500 level quarter courses (e.g., 597 capstone courses) are renumbered as 4000 level semester courses.
- All 600 level quarter courses are renumbered as 5000 semester level courses.
- We will have no 6000 level semester courses
- All 700 and some 800 level quarter courses are renumbered as 7000 level semester courses.
- The remainder of our 800 level and all our 900 level quarter courses are renumbered as 8000 level semester courses.

Please let us know if you have any questions.

**Arts and Sciences minor program guidelines**

The following guidelines govern minors.

Required for graduation No

Credit hours required A minimum of 20 (some minors require more)

Transfer credit hours allowed A maximum of 10

Overlap with the GEC Permitted, unless specifically disallowed by an individual minor program.

Overlap with the major Not allowed and  
• The minor must be in a different subject than the major.

- The same courses cannot count on the minor and on the major.

Overlap between minors Each minor completed must contain 20 unique hours.

Grades required

- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

Approval required The minor program description sheet indicates if the minor course work must be approved by:

- The academic unit offering the minor, or
- A college/school counselor.

Filing the minor program form The minor program form must be filed at least by the time the graduation application is submitted to a college/school counselor.

Changing the minor Once the minor program is filed in the college office, any changes must be approved by:

- The academic unit offering the minor, or
- A college/school counselor (depending on the minor).

#### **IV. Transition Policy**

From the Chair:

Students who began their archaeology minor under quarters will not be penalized as we move to semesters, either in terms of progress towards their minor or their expected date of graduation. Transition plans are currently being developed for students who will be at a variety of stages (one year towards degree, two years, etc.), but we anticipate few complications because of (1) the regularity with which all core courses are (and will be) offered, (2) the flexibility afforded by our elective structure (course choices based on sub-discipline rather than specific requirements), (3) and because no major or minor program relies on any course sequence. We do not at present see a need for bridge courses in Anthropology for any students who are beyond the introductory classes. Students who completed ANT 200 (2200) before the addition of the laboratory component will not be required to retake the revised course.

Clark S. Larsen, chair

<sup>1</sup>This is one of three tracks in anthropology.

<sup>2</sup>Each course is five (5) credit hours, unless noted otherwise.

**Arts and Sciences minor program guidelines**

The following guidelines govern minors.

Required for graduation No

Credit hours required A minimum of 20 (some minors require more)

Transfer credit hours allowed A maximum of 10

Overlap with the GEC Permitted, unless specifically disallowed by an individual minor program.

Overlap with the major Not allowed and

- The minor must be in a different subject than the major.
- The same courses cannot count on the minor and on the major.

Overlap between minors Each minor completed must contain 20 unique hours.

Grades required

- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

Approval required The minor program description sheet indicates if the minor course work must be approved by:

- The academic unit offering the minor, or
- A college/school counselor.

Filing the minor program form The minor program form must be filed at least by the time the graduation application is submitted to a college/school counselor.

Changing the minor Once the minor program is filed in the college office, any changes must be approved by:

- The academic unit offering the minor, or
- A college/school counselor (depending on the minor).

#### **IV. Transition Policy**

From the Chair:

Students who began their cultural anthropology minor under quarters will not be penalized as we move to semesters, either in terms of progress towards their minor or their expected date of graduation. Transition plans are currently being developed for students who will be at a variety of stages (one year towards degree, two years, etc.), but we anticipate few complications because of (1) the regularity with which the introductory (ANT 2202) and core course (ANT 3525) is (and will be) offered, (2) the flexibility afforded by our elective structure (multiple choices available every quarter), (3) and because no major or minor program relies on any course sequence. We do not at present see a need for bridge courses in Anthropology for any students who are beyond the introductory classes. Students who completed ANT 2200 (200) before the addition of the laboratory component will not be required to the retake the revised course.
