Re: Arts and Sciences Program Proposals from the Arts and Humanities Division

Arts and Sciences is pleased to submit the following programs from the Arts and Humanities Division to the Office of Academic Affairs for conversion from quarters to semesters. The programs have been approved by the faculty members and chair of the originating unit, and reviewed and approved by the divisional advisory panel, a subcommittee of the ASC Committee on Curriculum and Instruction (CCI), and the full CCI. The vote for approval of all programs at the full CCI was unanimous.

Arts and Sciences General Education (GE) Program: The GE program for untagged B.A. and B.S. degrees in Arts and Sciences was approved by the Council on Academic Affairs on May 26, 2010, after receiving approval from the Arts and Sciences Faculty Senate. The new proposal for the Bachelors in Arts Management follows the approved GE program. *The remaining programs all have accreditation requirements and unique formulations for their GE programs.* The exceptions to the quarter version of GEC program granted to each of the accredited programs has been previously approved by the CCI and CAA and are detailed in the program proposals. Each program is maintaining the approved exceptions in the context of the semester version of the GE. It is also important to note that all the programs, except the new Bachelors in Arts Management, include the GE as part of their total program requirements as prescribed by their individual accreditation bodies.

College of Arts and Sciences Transition Policy: The College of Arts and Sciences is committed to the principles outlined in the university's Pledge to Undergraduate Students. Each unit has a plan on how best to assist its majors and minors through the transition. And the Arts and Sciences Academic Advising Services will advise students on how to transition their GE program. Dual advising is the existing process used in Arts and Sciences and will continue under semesters.

Special Notes for the Submitted Programs:

Programs Requiring Semesters with More Than 18 Credit Hours: The programs requiring semesters with more than 18 credit hours deliberated on alternative solutions and thoughtfully considered options for their students. The resulting programs have been optimized to keep the number of semesters requiring greater than 18 credit hours to a minimum.

Existing Programs Labeled as "New" in the Electronic Program and Course Approval System: Owing to a quirk in the new electronic approval system, many of the submitted programs did not appear in the system and it was necessary to call them "New" in order to enter them. The actual conversion designation is indicated in the table above.

Course Level Exemption for the Minors in Dance, Design, and Music: Owing to the nature of the minors in Dance, Design, and Music, CCI has approved exemptions to the ASC rules regarding the inclusion of 1000-level courses and the requirement of 6 units of 3000-level course work to these minors. The specifics are detailed in each of the respective minor proposals.

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

- (A)The student develops the ability to hear, identify, and work conceptually with the elements of music such as rhythm, melody, harmony, structure, timbre, texture.
- (B)The student acquires an understanding of and the ability to read and realize musical notation.
- (C)The student acquires an understanding of compositional processes, aesthetic properties of style, and the ways these shape and are shaped by artistic and cultural forces.
- (D)The student develops an acquaintance with a wide selection of musical literature, the principal eras, genres, and cultural sources.
- (E)The student acquires the ability to develop and defend musical judgments.
- (F)The student develops the ability in performing areas at levels consistent with the goals and objectives of the specific liberal arts degree program being followed.
- (G)The student develops an understanding of procedures for realizing a variety of musical styles.
- (H)The student acquires knowledge and/or skills in one or more areas of music beyond basic musicianship appropriate to the individual's needs and interests, and consistent with the purposes of the specific liberal arts degree program being followed.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? Yes

Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.

No modifications are necessary.

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? Yes

All prospective music students must audition.

Lawrence Krissek, Professor of Earth Sciences
Faculty Chair, Committee on Curriculum and Instruction
College of Arts and Sciences

Dear Larry,

The Disciplinary Advisory Committee for Curriculum from the Division of Arts and Humanities within the College of Arts and Sciences met, reviewed, and unanimously approved the undergraduate, accredited, untagged BA degree program from the School of Music during December 2010, with an ultimate unanimous vote on December 14, 2010. The Arts and Humanities-1-Arts Intensive Subcommittee met, reviewed, and approved the BA proposal from the School of Music on February 3rd, and reviewed corrections and reaffirmed the approval on February 10, 2011. The committee focused on re-arrangement of the information, and clearly defined transition plans for students. The committee also asked to have previous and current “checksheets” included in the BA and identified various errata. The BA program has been returned and is ready for full CCI consideration.

Bachelor of Arts in Music: The Bachelor of Arts in Music was last approved by CAA on January 19, 2011. There were no revisions to the program. The Bachelor of Arts program is accredited by the National Association of the Schools of Music (NASM) and has been approved by that body; therefore they must follow particular guidelines for their multiple curricula. The School of Music currently offers one BA degree. We verified on October 15, 2010 that the undergraduate degree programs in the School of Music have assessment plans on file with OAA.

GE: The GEC component of this accredited degree program was first approved by CAA in May of 1991 and reaffirmed in March, June, and October in 2008 by CAA. The BA is retaining its quarter requirement of music courses fulfilling an aspect of the GEC. For the GE, Music 2240-2241 and Music 3351 will fulfill the Global Studies category.

Transition Plans: For the BA degree, the School has laid out detailed four-year plans with identified transition plans for those students in the current program and for those students matriculating in 2011 and later.

PACER Chart: The School chose to include the full 181 hours in its translation of the degree in the “Credit Hour Explanation” box since several of the GE courses are prescribed in order to achieve accreditation, *e.g.*, specific courses in Music fulfill the Global Studies requirement. The quarter-system degree required 181 hours overall with 73 hours in the major course work, and the semester-system degree will require 121 semester credit hours overall with 48-52 semester credit hours of major course work.

Learning Goals: Please note that the learning goals for all programs in the School are set by NASM. There are anywhere from 15-22 entries in PACER because the box only allows for a set

number of characters that is surpassed by the number of characters in the NASM goals. In order to include the goals in their entirety, the school has included them in multiple entries, while naming them "A," "B," etc. The goals labeled "A," "B," etc. listed on the map correspond to the goals in the multiple PACER form entries.

We are sending this accredited, untagged degree forward for review at the full Committee on Curriculum and Instruction.

Thank you for their consideration,

Members of the tenure track faculty of the School of Music led by eight academic area heads are responsible for crafting and delivering the curricula. Beginning in Winter Quarter, 2009, a task force began discussions and identified principles by which the conversion would take place. After comparing the semester systems used by peer institutions, the decision was made to minimize changes to OSU program goals and/or curricular requirements. Led by the Associate Director of Undergraduate Studies and the Chair of Graduate Studies, three committees, including the curriculum, graduate studies, and administrative (comprising the eight area heads), continued their deliberations. Administrative committee discussions yielded the decision to renumber the School's courses based upon the current numbering system rather than developing a new system.

For the remainder of the academic year, each area began to convert its courses to their semester equivalents. In the summer of 2010, new course information was collected to enter the School's 700 courses into the CUT spreadsheet. Also, during the summer of 2010, the Associate Director, in frequent consultation with the area heads, drafted semester programs, four-year plans, and curriculum maps. Each area vetted drafts of these documents at the annual faculty retreat in September of 2010. Simultaneously, the Chair of Graduate Studies, through consultation with area heads and the Graduate Studies Committee, revised the curricular sheets for the graduate degrees. Further modifications were made to these documents through October, and near-final drafts were properly vetted through the curriculum committee, Graduate Studies Committee, and administrative committee during that period. The full faculty approved all semester programs on October 27, 2010.

Transition Plans

In the Autumn of 2010, the School faculty began to advise its students of the approaching conversion to semesters: 1) during the annual welcome convocation, the Associate Director spoke with students about the conversion process and how it will affect them; 2) on the same day, a portion of the School's website was dedicated to the semester conversion. Documents contained therein discuss the semester numbering system, the university's commitment to students, and advice for the students as the semester change approaches. Over time, these web pages will contain more specific information providing details on program and course conversion. Furthermore, the SOM Associate Director will create a spreadsheet that will show current quarter system course numbers and titles and their semester equivalents. During the 2010-2011 school year, the Associate Director will also meet with student organizations such as the Undergraduate Music Council, to discuss the conversion process in detail, and to provide the aforementioned documentation to the students.

In the Autumn of 2011, the Associate Director will offer an extensive group advising session for all undergraduate students on the day prior to the start of classes. Soon thereafter, during "Advising Fairs," members of the SOM faculty, even those not regularly assigned advisory duties, will offer special (one-time only) individual advising sessions in preparation for the School's conversion to semesters. Furthermore, several times in each quarter of 2012, the Associate Director will offer additional undergraduate group sessions which will be advertised by email, web communication, and posted flyers. One-on-one advising sessions with each student's regular advisor, undergraduate and graduate, will serve as follow up during the normal advising period. In determining eligibility for students enrolled in the School's minor programs, those courses taken in the quarter system will be honored using a 1:1 ratio.

It is anticipated that, for a number of students in the School who started earlier than 2008, flexibility will be required to prevent further delays in the time it takes them to graduate; the School intends to use substitute courses within each student's program to alleviate this problem. Moreover, those students who have been away from campus or have fallen behind in their programs will need special guidance to access the correct course sequence and fulfill the necessary prerequisites. For example, any student midway through a sequence in Music Theory or Musicology will have course options which are designed to overlap slightly with courses already taken and those yet to be taken. A specific scenario might describe a performance major who has completed Music 421 (the fourth of six quarters in theory) in the quarter system and needs to complete the sequence in the semester system by taking a seven-week course, designed to serve as a bridge between 421 and 3422, the fourth of four semesters in theory. Musicology sequences will be handled in similar fashion; the attached four-year plans will be of great assistance to all involved in this process.

For those graduate students who matriculate under the quarter system and are transitioning into the semester system, then: 1) no student will have their progress delayed by the change to semesters, 2) any required course under quarters that has been re-envisioned under semesters will be counted, and 3) if, for whatever reason, a student is unable to take a required course, then upon the recommendation of the advisor, either a substitute course will be allowed or the course will be waived by the Chair of Graduate Studies.

I would like to acknowledge the dedicated work of the Associate Director for Undergraduate Studies, Tim Leasure, and the Director of Graduate Studies, Pat Woliver; the documents shepherded by these two gentlemen throughout this time-consuming and frequently overwhelming task are monuments to their commitment, skill, and perseverance.

Respectfully Submitted,

Bachelor of Arts in Music Program Rationale

The Bachelor Arts in Music has been converted with minimal changes with respect to the total number of credits in the program relative to two-thirds of the credit total in its quarterly equivalent. Overall, the changes to the School's theory and history core courses are the source of a 2-credit drop in each of the School's programs relative to two-thirds of each program's quarterly credit totals. The quarter program consists of 181 credits, and, under the semester system, the program will consist of 121 credits. This reflects neither an increase nor a decrease relative to two-thirds of the quarterly credit total.

However, one significant curricular change was made in the program in response to concerns voiced by the School's accreditation body, the National Association of Schools of Music. NASM noted that the number of applied lesson credits required in the program was too low and, in response, the School has added two years of applied lessons to the semester program. Specifically, courses added to the Applied Study and Ensembles category are:

- Music 2201.xx – Applied Music, Principal (2 registrations/2 credits each)
- Music 3403.xx – Applied Music, Principal (2 registrations/2 credits each)

CAA approved the addition of these courses to the Bachelor of Arts in Music program in January 2011. The curriculum sheets from the previous versions are attached to this document.
