Re: Arts and Sciences Program Proposals from the Arts and Humanities Division

Arts and Sciences is pleased to submit the following programs from the Arts and Humanities Division to the Office of Academic Affairs for conversion from quarters to semesters. The programs have been approved by the faculty members and chair of the originating unit, and reviewed and approved by the divisional advisory panel, a subcommittee of the ASC Committee on Curriculum and Instruction (CCI), and the full CCI. The vote for approval of all programs at the full CCI was unanimous.

**Arts and Sciences General Education (GE) Program:** The GE program for untagged B.A. and B.S. degrees in Arts and Sciences was approved by the Council on Academic Affairs on May 26, 2010, after receiving approval from the Arts and Sciences Faculty Senate. The new proposal for the Bachelors in Arts Management follows the approved GE program. *The remaining programs all have accreditation requirements and unique formulations for their GE programs.* The exceptions to the quarter version of GEC program granted to each of the accredited programs has been previously approved by the CCI and CAA and are detailed in the program proposals. Each program is maintaining the approved exceptions in the context of the semester version of the GE. It is also important to note that all the programs, except the new Bachelors in Arts Management, include the GE as part of their total program requirements as prescribed by their individual accreditation bodies.

**College of Arts and Sciences Transition Policy:** The College of Arts and Sciences is committed to the principles outlined in the university's Pledge to Undergraduate Students. Each unit has a plan on how best to assist its majors and minors through the transition. And the Arts and Sciences Academic Advising Services will advise students on how to transition their GE program. Dual advising is the existing process used in Arts and Sciences and will continue under semesters.

**Special Notes for the Submitted Programs:**

*Programs Requiring Semesters with More Than 18 Credit Hours:* The programs requiring semesters with more than 18 credit hours deliberated on alternative solutions and thoughtfully considered options for their students. The resulting programs have been optimized to keep the number of semesters requiring greater than 18 credit hours to a minimum.

*Existing Programs Labeled as "New" in the Electronic Program and Course Approval System:* Owing to a quirk in the new electronic approval system, many of the submitted programs did not appear in the system and it was necessary to call them "New" in order to enter them. The actual conversion designation is indicated in the table above.

*Course Level Exemption for the Minors in Dance, Design, and Music:* Owing to the nature of the minors in Dance, Design, and Music, CCI has approved exemptions to the ASC rules regarding the inclusion of 1000-level courses and the requirement of 6 units of 3000-level course work to these minors. The specifics are detailed in each of the respective minor proposals.

**Program Learning Goals**

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

**Program Learning Goals**

- (All:Goal A) Students acquire an understanding of the common elements and organizational patterns of music and their interaction, the ability to employ this understanding in aural, verbal, and visual analyses, and the ability to take aural dictation.
- (All:Goal A) Students acquire sufficient understanding of and capability with musical forms, processes, and structures to use this knowledge and skill in compositional, performance, analytical, scholarly, and pedagogical applications.
- (All:Goal A) Students acquire the ability to place music in historical, cultural, and stylistic contexts.
- (All:Goal B) Students acquire technical skills requisite for artistic self-expression in at least one major performance area at a level appropriate for the particular music concentration.
- (All:Goal B) Students acquire an overview understanding of the repertory in their major performance area and the ability to perform from a cross-section of that repertory.
- (All:Goal B) Students acquire the ability to read at sight with fluency demonstrating both general musicianship and, in the major performance area, a level of skill relevant to professional standards appropriate for the particular music concentration
- (All:Goal B) Students acquire knowledge and skills sufficient to work as a leader and in collaboration on matters of musical interpretation. Rehearsal and conducting skills are required as appropriate to the particular music concentration.
- (All:Goal B) Students acquire keyboard competency.
- (All:Goal B) Students attain growth in artistry, technical skills, collaborative competence and knowledge of repertory through regular ensemble experiences.
- (All:Goal C) Students acquire a rudimentary capacity to create derivative or original music both extemporaneously and in written form.
- (All:Goal D) Students acquire basic knowledge of music history and repertoires through the present time.
- (All:Goal E) Students acquire the ability to use technologies current to their area of specialization.
- (All:Goal F) Students solve musical problems by combining, as appropriate to the issue, their capabilities in performance; aural, verbal, and visual analysis; composition and improvisation; history and repertory; and technology.
- (Voice: Goal G) Comprehensive capabilities in the major performing medium including the ability to work independently to prepare performances at the highest possible level.
- (Voice: Goal H) Students develop the use of foreign languages and and acquire diction skills.
- (Voice: Goal I) Students perform as soloists and in ensembles in a variety of formal and informal settings.
- (BHPSW and Piano: Goal G) Students develop comprehensive capabilities in the major performing medium including the ability to work independently to prepare performances at the highest possible level.
- (BHPSW and Piano: Goal G) Students acquire knowledge of applicable solo and ensemble literature.
- (BHPSW and Piano: Goal G) Students acquire knowledge of the fundamentals of pedagogy.
- (BHPSW and Piano: Goal H) Students perform as soloists and in ensembles in a variety of formal and informal settings.

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

**Is this a degree program (undergraduate, graduate, or professional) or major proposal?** Yes

**Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs?** Yes

**Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.**

All quarter courses will be converted to semesters.

## Program Specializations/Sub-Plans

March 3, 2011

Lawrence Krissek, Professor of Earth Sciences  
Faculty Chair, Committee on Curriculum and Instruction  
College of Arts and Sciences

Dear Larry,

The Disciplinary Advisory Committee for Curriculum from the Division of Arts and Humanities within the College of Arts and Sciences met, reviewed, and unanimously approved the undergraduate tagged degree BM programs from the School of Music during the months of November and December 2010, with an ultimate unanimous vote on December 14, 2010. The Arts and Humanities-1-Arts Intensive Subcommittee met and reviewed the BM proposal from the School of Music on February 17<sup>th</sup> and 24<sup>th</sup>. The BM proposal was unanimously approved at the March 3, 2011 meeting. The committee focused on re-arrangement of the information, and dividing up the multiple majors into individual proposals. The committee also asked to have previous and current "checksheets" included in the BM in Composition and identified various errata. The BM programs have been returned and are ready for full CCI consideration.

The Bachelor of Music programs are accredited by the National Association of the Schools of Music (NASM) and have been approved by that body; therefore they must follow particular guidelines for their multiple curricula. The School of Music currently offers five BM degrees, two with multiple transcriptable subplans/specializations, on file with the Board of Regents. We verified on October 15, 2010 that the undergraduate degree programs in the School of Music have assessment plans on file with OAA.

Please note that due to difficulties of aligning our current programs in the newly created PACER system (*e.g.*, degrees were coming up combined such as our BM in Music History was combined with the BM in Theory in PACER, and our BME programs were not listed under SOM), we have listed some programs as "NEW," however, they are not new, but rather established programs.

Proposed Semester BM Degree Titles and two name changes:

Bachelor of Music in Composition

Bachelor of Music in Jazz Studies

- Specialization in Composition
- Specialization in Performance

Bachelor of Music in Performance:

- Specialization in Brass, Harp, Percussions, Strings, or Woodwinds (changed from Orchestral)
- Specialization in Piano
- Specialization in Voice

Bachelor of Music in Musicology (changed from Music History)

Bachelor of Music in Theory

I have outlined below certain points and aspects of the programs:

**GE:** The GEC components of the tagged degree programs in the arts were first approved by CAA in May of 1991 and reaffirmed in March, June, and October in 2008 by CAA. The tagged degree programs in the arts are retaining their General Education exemptions and substitutions and have converted with a one-to-one parallel of the quarter-based GEC to the semester-based GE. The GE component is an integral part of the programs in the arts, and therefore it is threaded throughout the advising sheets or four year plans for each individual tagged degree. Unlike a traditional untagged B.A. or B.S. degree, the tagged arts degrees consider no part of the GE ancillary to its program. As such, the GE requirements are included within the degree total for each undergraduate major and specialization.

There is no one common GE for all arts programs; each program has a *different* formulation. Please keep this in mind as your subcommittees review the multiple programs from the tagged degrees in the arts. Each degree and specialization for the BM is addressed within the body of the Chair's letter and rationale, and each comes with its own "checksheet" (advising sheets) for both the semester and quarter programs. Please note that each "checksheet" is different and holds a different GEC/GE. There is no one GEC/GE for each program. Therefore the "checksheets" represent the whole programmatic requirements.

**Transition Plans:** For all BM degrees, the School has laid out detailed four-year plans with identified transition plans for those students in the current program and for those students matriculating in 2011 and later.

**Learning Goals:** Please note that the learning goals for all programs in the School are set by NASM. There are anywhere from 15-22 entries in PACER because the box only allows for a set number of characters that is surpassed by the number of characters in the NASM goals. In order to include the goals in their entirety, the school has included them in multiple entries, while naming them "A," "B," etc. The goals labeled "A," "B," etc. listed on the map correspond to the goals in the multiple PACER form entries.

**"PACER" Chart:** The Credit Hour Explanation Chart includes both the "GE" and "major" course work. Minima and Maxima are reflective of the lowest and highest combinations of specializations.

**Bachelor of Music in Composition:** The Bachelor of Music in Composition was last approved by CAA on January 19, 2011. There were no revisions to the program. The BM in Music in Composition will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 182 quarter-credit hours to 124 semester-credit hours. Since the program was just revised eight weeks ago, the program did not change at all. Quarter courses transitioned to semester courses.

**Bachelor of Music in Jazz Studies with a Specialization in Performance:** The Bachelor of Music in Jazz Studies Performance was last approved by CAA on April 20, 2008. There were minor revisions to the program with respect to the re-arrangement of course content. The BM in Music with a Specialization in Jazz Studies Performance will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 196 quarter-credit hours to 135 semester-credit hours. The 4-credit increase comes from the appropriate valuation of the applied courses, which have historically been

undervalued with respect to credits. The School took this opportunity to bring those courses in the Jazz Studies Performance into line with credit hour valuation.

**Bachelor of Music in Jazz Studies with a Specialization in Composition:** The Bachelor of Music in Jazz Studies Composition was last approved by CAA on April 20, 2008. There were minor revisions to the program with respect to the combination of two courses and the replacement of one course for another. The BM in Music with a Specialization in Jazz Studies Composition will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 189 quarter-credit hours to 128 semester-credit hours. The 4-credit increase comes from the appropriate valuation of the applied courses, which have historically been undervalued with respect to credits. The School took this opportunity to bring those courses in the Jazz Studies Composition into line with credit hour valuation.

**Bachelor of Music in Musicology:** The Bachelor of Music in Musicology was last approved by CAA on April 20, 2008. The School chose to change the name from “Music History” to “Musicology” which is more reflective of the research and creative activity that goes on in the School. There were minor revisions to the program with respect to the re-arrangement of course content. The BM in Musicology will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 188 quarter-credit hours to 123 semester-credit hours. The School re-envisioned four of its courses that count on the major: 4501.xx, 2261.01, 2261.02, 2200.21.

**Bachelor of Music in Performance with a Specialization in Brass, Harp, Percussion, Strings, or Woodwinds:** The Bachelor of Music in Performance Orchestral Instrument was last approved by CAA on April 20, 2008. The School chose to change the name from “Orchestral Instrument” to “Brass, Harp, Percussions, Strings, or Woodwinds” which is more reflective of the breadth of instruments in which students and faculty conduct research and creative activity. There were minor revisions to the program with respect to the re-arrangement of course content. The BM in Performance with a specialization in Brass, Harp, Percussion, Strings, or Woodwinds will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 183 quarter-credit hours to 125 semester-credit hours. The School added two major-focused senior capstone-type courses that will be a part of the specialization: 5591 and 4679.05.

**Bachelor of Music in Performance with a Specialization in Piano:** The Bachelor of Music in Performance Piano was last approved by CAA on April 20, 2008. There were minor revisions to the program with respect to the re-arrangement of course content. The BM in Performance with a specialization in Piano will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 181 quarter-credit hours to 122 semester-credit hours.

**Bachelor of Music in Performance with a Specialization in Voice:** The Bachelor of Music in Performance Voice was last approved by CAA on April 20, 2008. There were minor revisions to the program with respect to the re-arrangement of course content. The BM in Music with a specialization in Voice will retain its previously approved GE with one adjustment: Music 3342, *Introduction to Opera* a current GEC course will move to the “GEC-side” of the “checksheet.” Music 3342 *Introduction to Opera* will replace the current requirement of Theatre 280 *The Craft of Acting* as a “required GEC.” The GEC was originally approved in 1991 and reaffirmed by

CAA in 2008. The program converted from 202 quarter-credit hours to 136 semester-credit hours.

**Bachelor of Music in Theory:** The Bachelor of Music in Theory was last approved by CAA on April 20, 2008. There were minor revisions to the program with respect to the re-arrangement of course content. The BM in Music Theory will retain its previously approved GE. The GEC was originally approved in 1991 and reaffirmed by CAA in 2008. The program converted from 182 quarter-credit hours to 124 semester-credit hours. Two courses were added to the specialization: Music 5623 and 4679.01.

We are sending these programs forward for review at the full Committee on Curriculum and Instruction.

Members of the tenure track faculty of the School of Music led by eight academic area heads are responsible for crafting and delivering the curricula. Beginning in Winter Quarter, 2009, a task force began discussions and identified principles by which the conversion would take place. After comparing the semester systems used by peer institutions, the decision was made to minimize changes to OSU program goals and/or curricular requirements. Led by the Associate Director of Undergraduate Studies and the Chair of Graduate Studies, three committees, including the curriculum, graduate studies, and administrative (comprising the eight area heads), continued their deliberations. Administrative committee discussions yielded the decision to renumber the School's courses based upon the current numbering system rather than developing a new system.

For the remainder of the academic year, each area began to convert its courses to their semester equivalents. In the summer of 2010, new course information was collected to enter the School's 700 courses into the CUT spreadsheet. Also, during the summer of 2010, the Associate Director, in frequent consultation with the area heads, drafted semester programs, four-year plans, and curriculum maps. Each area vetted drafts of these documents at the annual faculty retreat in September of 2010. Simultaneously, the Chair of Graduate Studies, through consultation with area heads and the Graduate Studies Committee, revised the curricular sheets for the graduate degrees. Further modifications were made to these documents through October, and near-final drafts were properly vetted through the curriculum committee, Graduate Studies Committee, and administrative committee during that period. The full faculty approved all semester programs on October 27, 2010.

### **Transition Plans**

In the Autumn of 2010, the School faculty began to advise its students of the approaching conversion to semesters: 1) during the annual welcome convocation, the Associate Director spoke with students about the conversion process and how it will affect them; 2) on the same day, a portion of the School's website was dedicated to the semester conversion. Documents contained therein discuss the semester numbering system, the university's commitment to students, and advice for the students as the semester change approaches. Over time, these web pages will contain more specific information providing details on program and course conversion. Furthermore, the SOM Associate Director will create a spreadsheet that will show current quarter system course numbers and titles and their semester equivalents. During the 2010-2011 school year, the Associate Director will also meet with student organizations such as the Undergraduate Music Council, to discuss the conversion process in detail, and to provide the aforementioned documentation to the students.

In the Autumn of 2011, the Associate Director will offer an extensive group advising session for all undergraduate students on the day prior to the start of classes. Soon thereafter, during "Advising Fairs," members of the SOM faculty, even those not regularly assigned advisory duties, will offer special (one-time only) individual advising sessions in preparation for the School's conversion to semesters. Furthermore, several times in each quarter of 2012, the Associate Director will offer additional undergraduate group sessions which will be advertised by email, web communication, and posted flyers. One-on-one advising sessions with each student's regular advisor, undergraduate and graduate, will serve as follow up during the normal advising period. In determining eligibility for students enrolled in the School's minor programs, those courses taken in the quarter system will be honored using a 1:1 ratio.

It is anticipated that, for a number of students in the School who started earlier than 2008, flexibility will be required to prevent further delays in the time it takes them to graduate; the School intends to use substitute courses within each student's program to alleviate this problem. Moreover, those students who have been away from campus or have fallen behind in their programs will need special guidance to access the correct course sequence and fulfill the necessary prerequisites. For example, any student midway through a sequence in Music Theory or Musicology will have course options which are designed to overlap slightly with courses already taken and those yet to be taken. A specific scenario might describe a performance major who has completed Music 421 (the fourth of six quarters in theory) in the quarter system and needs to complete the sequence in the semester system by taking a seven-week course, designed to serve as a bridge between 421 and 3422, the fourth of four semesters in theory. Musicology sequences will be handled in similar fashion; the attached four-year plans will be of great assistance to all involved in this process.

For those graduate students who matriculate under the quarter system and are transitioning into the semester system, then: 1) no student will have their progress delayed by the change to semesters, 2) any required course under quarters that has been re-envisioned under semesters will be counted, and 3) if, for whatever reason, a student is unable to take a required course, then upon the recommendation of the advisor, either a substitute course will be allowed or the course will be waived by the Chair of Graduate Studies.

I would like to acknowledge the dedicated work of the Associate Director for Undergraduate Studies, Tim Leasure, and the Director of Graduate Studies, Pat Woliver; the documents shepherded by these two gentlemen throughout this time-consuming and frequently overwhelming task are monuments to their commitment, skill, and perseverance.

Respectfully Submitted,

## **Bachelor of Music in Performance Program Rationale**

### **General Education**

No changes have been made to the GE requirements for the Bachelor of Music programs so they are maintaining their previously approved requirements. The GEC requirements were originally approved in 1991 and reaffirmed by CAA in 2008. Music 2240 and 2241, Music History I and II, will continue to serve in the Historical Studies GE category as well as acting as the Global Studies course. Music 3351, World Music, will serve as a Culture and Ideas/Open Option GE as well as a Global Studies course.

### **Bachelor of Music in Performance - Brass, Harp, Percussion, Strings, or Woodwinds**

The School has changed the name of the Bachelor of Music in Performance – Orchestral Instrument to Bachelor of Music in Performance – Brass, Harp, Percussion, Strings, or Woodwinds. It has been converted with minimal changes to the total number of credits relative to two-thirds of the quarterly program. Under quarters, the program consists of 183 credits and, under the semester system, the program will consist of 125 units. This reflects an increase of 3 credits relative to two-thirds of the quarterly credit total. The School has added two courses to this program's curriculum:

- Career Development in Music (Music 5591)
- Senior Pedagogy Project (Music 4679.05)

Both courses were added in response to fundamental realities facing the School's graduates. Music 5591 educates them in entrepreneurial opportunities in the field and provides tactics for self-promotion and marketing. Music 4679.05 is a pedagogy project related to each student's primary instrument for use in the student's private teaching studio following graduation.

### **Bachelor of Music in Performance - Piano**

The Bachelor of Music in Performance – Piano has been converted with minimal changes. Under quarters, the program consists of 181 credits and, under the semester system, the program will consist of 122 units. This reflects an increase of 2 credits relative to two-thirds of the quarterly credit total.

The increase in credits in this program comes from the musicology category. Piano Literature, Music 653 in the quarter program, has been converted to two courses in semesters, Piano Literature I (Music 5653.01) and Piano Literature II (Music 5663.02), and each course remains at 3 credits. The Piano Pedagogy I and II courses, Music 611 and Music 612, have been collapsed into one course, Music 4611, Piano Pedagogy I.

**Bachelor of Music in Performance – Voice**

The Bachelor of Music in Performance – Voice has been converted with minimal changes. Under quarters, the program consists of 202 credits and, under the semester system, the program will consist of 136 credits. This represents an increase of one credit relative to two-thirds of the quarterly credit total. We moved Introduction to Opera (Music 3342), a current GEC course, to the GE “side” of the check sheet. Music 3342 will replace the current Theatre 280 requirement.
