From: Terry L. Gustafson, Special Assistant to the Executive Dean for Semester Conversion

Re: Arts and Sciences Program Proposals from the Natural and Mathematical Sciences Division

Arts and Sciences is pleased to submit the following programs from the Natural and Mathematical Sciences Division to the Office of Academic Affairs for conversion from quarters to semesters. The programs have been approved by the faculty members and chair of the originating unit, and reviewed and approved by the divisional advisory panel, a subcommittee of the ASC Committee on Curriculum and Instruction (CCI), and the full CCI. The vote for approval of all programs at the full CCI was unanimous.

Program Name	Academic Plan Code	Conversion Designation	CCI Approval	Last Revision
Chemistry BS	CHEM-BS	Converted	6/10/2011	Prior to 2006
Chemistry BA	CHEM-BA	Converted	6/10/2011	Prior to 2006
Earth Sciences BS	EARTHSC-BS	Re-envisioned	6/10/2011	Prior to 2006
Evolutionary Studies Minor	EVOSTDS-MN	Converted	6/10/2011	Prior to 2006
Molecular Genetics BA	MOLGEN-BA	Deactivated	6/10/2011	Prior to 2006
Plant Cellular and Molecular Biology BA	PCMB-BA	Deactivated	6/10/2011	Prior to 2006

Arts and Sciences General Education (GE) Program: The GE program for untagged B.A. and B.S. degrees in Arts and Sciences was approved by the Council on Academic Affairs on May 26, 2010, after receiving approval from the Arts and Sciences Faculty Senate. All the programs presented here follow the approved GE program.

College of Arts and Sciences Transition Policy: The College of Arts and Sciences is committed to the principles outlined in the university's Pledge to Undergraduate Students. Each unit has a plan on how best to assist its majors and minors through the transition. And the Arts and Sciences Academic Advising Services will advise students on how to transition their GE program. Dual advising is the existing process used in Arts and Sciences and will continue under semesters.

Status: PENDING

PROGRAM REQUEST
Evolutionary Studies Minor

Last Updated: Andereck, Claude David

Fiscal Unit/Academic Org	School of Earth Sciences - D0656
Administering College/Academic Group	Arts And Sciences
Co-administering College/Academic Group	Mathematical And Physical Sci
Semester Conversion Designation	Converted with minimal changes to program goals and/or curricular requirements (e.g., sub-plan/specialization name changes, changes in electives and/or prerequisites, minimal changes in overall structure of program, minimal or no changes in program goals or content)
Current Program/Plan Name	Evolution Studies Minor
Proposed Program/Plan Name	Evolutionary Studies Minor
Program/Plan Code Abbreviation	EVOSTDS-MN
Current Degree Title	

Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program		20	13.3	13	0.3
Required credit hours offered by the unit	Minimum				
	Maximum				
Required credit hours offered outside of the unit	Minimum				
	Maximum				
Required prerequisite credit hours not included above	Minimum	0	0.0	0	0.0
	Maximum	0	0.0	0	0.0

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals •

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? No

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? No

Larry Krissek
Chair, Arts and Sciences CCI

Dear Larry:

It is a pleasure to forward to you for consideration by the CCI and the Sciences Subcommittee the proposal for the Evolutionary Studies minor under semesters. This minor has only recently been implemented as an interdisciplinary minor for Arts and Sciences (now under the School of Earth Sciences), and therefore requires only a straightforward conversion to the semester version.

Beyond my own review of the documents, the proposal has been discussed by colleagues from other NMS units at a meeting on June 2, 2011. Feedback from these discussions has now been incorporated in the proposal.

If you have any questions, I would be happy to address them.

Sincerely,

David Andereck
Professor of Physics
Associate Dean of Natural and Mathematical Sciences, College of Arts and Sciences

LETTER FROM PROGRAM-OFFERING UNIT

DATE: 20 May 2011

TO: NMS, ASC, and OAA Reviewers

FROM: W. Berry Lyons, Director, School of Earth Sciences

Lawrence Krissek, Associate Director for Administration, School of Earth Sciences

SUBJECT: Conversion of undergraduate interdisciplinary minor in Evolutionary Studies

The School of Earth Sciences (SES) has the following programs that will be converted from quarters to semesters:

- 1) B.A. in Geological Sciences (converted to B.A. in Earth Sciences)
- 2) B.S. in Geological Sciences (converted to B.S. in Earth Sciences, with 4 subprograms)
- 3) Minor in Geological Sciences (converted to Minor in Earth Sciences, with 8 subprograms)
- 4) M.S. in Geological Sciences (converted to M.S. in Earth Sciences)
- 5) Ph.D. in Geological Sciences (converted to Ph.D. in Earth Sciences)
- 6) M.S. in Geodetic Sciences
- 7) Ph.D. in Geodetic Sciences.

In addition, the School of Earth Sciences is now the administrative home for the Undergraduate Interdisciplinary Minor in Evolutionary Studies. The conversion of that Interdisciplinary Minor is the subject of this proposal.

The interdisciplinary minor in Evolutionary Studies was established in 2008/09, and was originally established as an ASC minor. Its administration was moved into SES this year, but the interdisciplinary nature of the minor was not changed by that administrative move.

The process for converting the Evolutionary Studies minor was coordinated by Prof. William Ausich, the lead faculty member for this minor within SES. Through informal discussions with other faculty members involved in the minor, a consensus was developed that no changes were needed in the structure or content of the minor. This conclusion was based on 2 points: 1) the recent development of this minor, and 2) the fact that most courses in the present minor were being converted on a 1-to-1 basis .

Because this is an interdisciplinary minor, its conversion was not the subject of a vote by the SES faculty. However, we fully support this as an appropriate conversion.

PROGRAM RATIONALE STATEMENT

The undergraduate interdisciplinary minor in Evolutionary Studies was initiated in 2008-09.

The proposed conversion of the undergraduate interdisciplinary minor in Evolutionary Studies can be categorized as a conversion with minimal changes to program goals and/or curricular requirements.

In its quarter format, this minor required one foundational course, three elective courses (distributed among 3 of 4 categories), and either a research experience or one additional course. At least 20 quarter credit hours were required to complete this minor.

In its semester format, this minor still requires the one foundational course, the three elective courses (chosen from 3 of the same 4 categories as in the quarter format), and either a research experience or one additional course. At least 13 semester credit hours are required to complete this minor.

With a few exceptions (i.e., 2 quarter-version courses that are not being converted to semesters; 2 cases where a pair of quarter-version courses has been merged into a single semester course), the foundational course and the elective courses have converted on a 1-to-1 basis.

As a result, this conversion involves minimal changes, both at the level of individual courses and at the level of the overall requirements for the minor.

TRANSITION POLICY

Students who began progress toward the interdisciplinary minor in Evolutionary Studies under quarters (defined as having completed at least one course within the minor) will not be penalized as we move to semesters, either in terms of progress towards their degree or their expected date of graduation. The foundational course, which is the only required course within this minor, has converted directly into a semester form, so students who span the transition will be able to apply either the quarter-version or the semester-version of the foundational course to their minor program. The same is true for the elective courses and the research experience; students who span the transition will meet those requirements for the Evolutionary Studies minor with any combination of approved quarter-version and semester-version courses that totals 3 courses plus the appropriate amount of research experience (3 quarter hours or 2 semester hours), or 4 courses and no research experience.
