Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

- Program Learning Goals**
- Students acquire skills in all aspects of music making - creating, performing, and conducting.
 - Students engage in scholarly inquiry that includes such areas as music theory, pedagogy, acoustics, physiology, psychology, and humanities.
 - Students demonstrate intermediate proficiency in violin, viola, cello, string bass, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, trombone, tuba, percussion, harp, voice, or piano.
 - Students acquire and demonstrate performance skills by participating in numerous and diverse ensembles, including choirs, bands, orchestra, opera theater, and chamber music ensembles.
 - Students acquire an understanding of the repertory in their major performance area and the ability to perform from a cross-section of that repertory.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? No

DIRECT MEASURES (means of assessment that measure performance directly, are authentic and minimize mitigating or intervening factors)

Standardized tests

- Local comprehensive or proficiency examinations

Classroom assignments

- Embedded testing (i.e. specific questions in homework or exams that allow faculty to assess students' attainments of a specific learning goal)
- Other classroom assessment methods (e.g., writing assignments, oral presentations, oral exams)

Evaluation of a body of work produced by the student

- Performance or gallery display or work

Direct assessment methods specifically applicable to graduate programs

- Thesis/dissertation oral defense and/or other oral presentation
- Other: RECITAL

INDIRECT MEASURES (means of assessment that are related to direct measures but are steps removed from those measures)

Surveys and Interviews

- Student evaluation of instruction
- Student interviews or focus groups

Additional types of indirect evidence

- Student or alumni honors/recognition achieved
- External program review
- Curriculum or syllabus review
- Outreach participation

USE OF DATA (how the program uses or will use the evaluation data to make evidence-based improvements to the program periodically)

- Meet with students directly to discuss their performance
- Analyze and discuss trends with the unit's faculty
- Analyze and report to college/school
- Analyze and report to accrediting organization
- Make improvements in curricular requirements (e.g., add, subtract courses)
- Make improvements in course content
- Make improvements in course delivery and learning activities within courses
- Make improvements in learning facilities, laboratories, and/or equipment
- Periodically confirm that current curriculum and courses are facilitating student attainment of program goals

Program Specializations/Sub-Plans

Elliot Slotnick, Associate Dean
The Graduate School

Dear Elliot,

The School of Music has completed its proposal for semester versions of its graduate programs. The School of Music currently offers four graduate degrees, each with multiple transcriptable subplans/specializations, on file with the Board of Regents. The Arts and Humanities Disciplinary Advisory Panel within the College of Arts and Sciences reviewed and approved all programs with contingencies during meetings in January 2011, and revisions to the documents ensued throughout the Winter and Spring Quarters of 2011. The School of Music was reviewed in 2008 by the National Association of Schools of Music (NASM), and the graduate programs within the School of Music were found in line with the requirements of the accrediting body; thus the programs are moving forward with minimal conversion.

We are sending forward the following ten program specializations from the School of Music for the Master of Music which range in semester credit hours from 30-34:

Master of Music – minimal conversion

- Specialization in Composition
- Specialization in Woodwind Performance
- Specialization in Voice Performance
- Specialization in String Performance
- Specialization in Piano Performance
- Specialization in Percussion Performance
- Specialization in Brass Performance
- Specialization in Wind Conducting
- Specialization in Orchestral Conducting
- Specialization in Choral Conducting

I have outlined below certain points and aspects common to all of the programs:

Transition Plans: In the Director's letter, Dr Blatti directly addresses the graduate student transition policy. Since the students work with their advisors to create an individual plan, and in close consultation with the Area Heads and Graduate Studies Committee, the School does not foresee any difficulties in transition for its graduate students. If substitutions or changes need to be made to expedite a student's progress, the Director of Graduate Studies, Dr. Patrick Woliver, will approve these changes.

Learning Goals and Curriculum Map: Please note that the learning goals for all programs in the School are set by NASM. The School has provided goals applicable to the Master of Music. It has also provided a comprehensive curricular map applicable to the graduate courses for the Master of Music.

The courses that are specific to all of the programs are listed under the Book 3 listing of Music in PACER and have been advanced along with the program forms. All programs from the School of Music have the approval of Arts and Humanities. If you have any questions or concerns, please do not hesitate to call or email me at 292-5727 or williams.1415@osu.edu.

Thank you for your consideration of these proposals,

Rationale

The School of Music offers the following documents for converting its degree programs from quarters to semesters. The School houses nine undergraduate degrees, four graduate degrees, two minors, and one Graduate Interdisciplinary Specialization.

Degrees and Major Programs

Bachelor of Arts in Music

Bachelor of Music in Composition

Bachelor of Music in Jazz Studies with 2 subplans:

in Composition

in Performance

Bachelor of Music in Performance with 3 subplans:

in Brass, Harp, Percussion, Strings, or Woodwinds

in Piano

in Voice

Bachelor of Music in Musicology

Bachelor of Music in Theory

Bachelor of Music Education in General Music

Bachelor of Music Education in Instrumental Music

Bachelor of Music Education in Choral Music

Master of Arts

in Music Education

in Theory

in Musicology

in Brass Pedagogy

in Piano Pedagogy

in String Pedagogy

in Voice Pedagogy

in Woodwind Pedagogy

Master of Music

in Composition

in Choral Conducting

in Orchestral Conducting

in Wind Conducting

in Brass Performance

in Percussion Performance

in Piano Performance

in String Performance
in Voice Performance
in Woodwind Performance

Doctor of Philosophy
in Music Education
in Music Theory
in Musicology

Doctor of Musical Arts
in Composition
in Conducting
in Instrumental Performance
in Voice Performance

Minor Programs

Minor in Music

Minor in Music, Media, and Enterprise

Specializations

Graduate Interdisciplinary Specialization in Singing Health

Members of the tenure track faculty of the School of Music led by eight academic area heads are responsible for crafting and delivering the curricula. Beginning in Winter Quarter, 2009, a task force began discussions and identified principles by which the conversion would take place. After comparing the semester systems used by peer institutions, the decision was made to minimize changes to OSU program goals and/or curricular requirements. Led by the Associate Director of Undergraduate Studies and the Chair of Graduate Studies, three committees, including the curriculum, graduate studies, and administrative (comprising the eight area heads), continued their deliberations. Administrative committee discussions yielded the decision to renumber the School's courses based upon the current numbering system rather than developing a new system.

For the remainder of the academic year, each area began to convert its courses to their semester equivalents. In the summer of 2010, new course information was collected to enter the School's 700 courses into the CUT spreadsheet. Also, during the summer of 2010, the Associate Director, in frequent consultation with the area heads, drafted semester programs, four-year plans, and curriculum maps. Each area vetted drafts of these documents at the annual faculty retreat in September of 2010. Simultaneously, the Chair of Graduate Studies, through consultation with area heads and the Graduate Studies Committee, revised the curricular sheets for the graduate degrees. Further modifications were made to these documents through October, and near-final drafts were properly vetted through the curriculum committee, Graduate Studies Committee, and administrative committee during that period. The full faculty approved all semester programs on October 27, 2010.

Transition Plans

In the Autumn of 2010, the School faculty began to advise its students of the approaching conversion to semesters: 1) during the annual welcome convocation, the Associate Director spoke with students about the conversion process and how it will affect them; 2) on the same day, a portion of the School's website was dedicated to the semester conversion. Documents contained therein discuss the semester numbering system, the university's commitment to students, and advice for the students as the semester change approaches. Over time, these web pages will contain more specific information providing details on program and course conversion. Furthermore, the SOM Associate Director will create a spreadsheet that will show current quarter system course numbers and titles and their semester equivalents. During the 2010-2011 school year, the Associate Director will also meet with student organizations such as the Undergraduate Music Council, to discuss the conversion process in detail, and to provide the aforementioned documentation to the students.

In the Autumn of 2011, the Associate Director will offer an extensive group advising session for all undergraduate students on the day prior to the start of classes. Soon thereafter, during "Advising Fairs," members of the SOM faculty, even those not regularly assigned advisory duties, will offer special (one-time only) individual advising sessions in preparation for the School's conversion to semesters. Furthermore, several times in each quarter of 2012, the Associate Director will offer additional undergraduate group sessions which will be advertised by email, web communication, and posted flyers. One-on-one advising sessions with each student's regular advisor, undergraduate and graduate, will serve as follow up during the normal advising period. In determining eligibility for students enrolled in the School's minor programs, those courses taken in the quarter system will be honored using a 1:1 ratio.

It is anticipated that, for a number of students in the School who started earlier than 2008, flexibility will be required to prevent further delays in the time it takes them to graduate; the School intends to use substitute courses within each student's program to alleviate this problem. Moreover, those students who have been away from campus or have fallen behind in their programs will need special guidance to access the correct course sequence and fulfill the necessary prerequisites. For example, any student midway through a sequence in Music Theory or Musicology will have course options which are designed to overlap slightly with courses already taken and those yet to be taken. A specific scenario might describe a performance major who has completed Music 421 (the fourth of six quarters in theory) in the quarter system and needs to complete the sequence in the semester system by taking a seven-week course, designed to serve as a bridge between 421 and 3422, the fourth of four semesters in theory. Musicology sequences will be handled in similar fashion; the attached four-year plans will be of great assistance to all involved in this process.

For those graduate students who matriculate under the quarter system and are transitioning into the semester system, then: 1) no student will have their progress delayed by the change to semesters, 2) any required course under quarters that has been re-envisioned under semesters will be counted, and 3) if, for whatever reason, a student is unable to take a required course, then upon the recommendation of the advisor, either a substitute course will be allowed or the course will be waived by the Chair of Graduate Studies.

I would like to acknowledge the dedicated work of the Associate Director for Undergraduate Studies, Tim Leasure, and the Director of Graduate Studies, Pat Woliver; the documents shepherded by these two gentlemen throughout this time-consuming and frequently overwhelming task are monuments to their commitment, skill, and perseverance.

Respectfully Submitted,

Professor and Interim Director

Master of Music Program Rationale

The School of Music offers two Master's degree programs: the Master of Music and the Master of Arts. Embedded within the **Master of Music** degree are 10 subprograms.

During 2008, the National Association of Schools of Music (the accrediting body for music) reported that the Master of Music degree program was in compliance with their standards. For conversion to semesters, the SOM Graduate Studies Committee and graduate faculty voted to convert with minimal changes to the overall structure of the program and has moved forward with the principle of adhering to (in most cases) a 2/3 credit hour reduction in minimum requirements. Five subprograms have converted from 45 minimum quarter credit hours to 30 minimum semester credit hours. The subprograms that require more than 30 semester credit hours are:

- Master of Music in Brass Performance 34 minimum credits
- Master of Music in Choral Conducting 32 minimum credits
- Master of Music in Voice Performance 32 minimum credits
- Master of Music in Woodwind Performance 34 minimum credits

The curricula for the subprograms are not rigid and the curricular sheet for each program acts as a guidepost for degree requirements. The sheet is intended to indicate both the nature of the course work and the usual elements for fulfilling the requirements for the degree. The student's actual course work is designed to provide a well-rounded total program, including depth in the major area and breadth in supportive studies. As stated in the School of Music Graduate Handbook, each student is assigned a graduate advisor. After assignment, the student consults with the adviser, and together develops a tentative program of studies. Coursework is chosen from 5000-level through 8000-level courses of which at least 50% must be 6000 level or higher. The adviser and student are charged with the responsibility of seeing that all degree requirements are met. At an appropriate time, an advisory committee is selected by the student and the advisor. This advisory committee oversees the master's recital (considered the thesis) and a one hour oral examination. Due to the various and diverse constituencies within the School of Music, the faculty offers a comparatively large number of graduate courses (see MM goals and curriculum map).

The following courses will be re-designed:

Music 630 (1) "Composer's Seminar" will be offered as Music 5630 (2) and Music 6630 (2) to allow the option of providing the course to a combined undergraduate and graduate population or to a graduate only population.

Music 637 (3-5) "Composition with Electronic Media" will be divided, under the semester system, into two courses Music 5637.01 (3) "Composition with Electronic Media I" and Music 5637.02 (3) "Composition with Electronic Media II" thus allowing a primary level of study and a secondary level.

Music 648 (3) “History and Literature of Chamber Music” will be retitled Music 5648 (2) “Western Art Music: I, Music from 1700 to 1870”. Music 648 separated chamber music from its broader historical context and only addressed instrumental music. The revised course will treat the same sorts of issues and focus on the same sorts of repertory, but the context will be broader and will include vocal music.

Music 649 (3) “History and Literature of Symphonic Music” will be retitled Music 5649 (2) “Western Art Music: II, Music from 1870 to the present”. Music 649 separated symphonic music from its broader historical context. The revised course will treat the same sorts of issues and focus on the same sorts of repertory, but the context will be broader.

Music 653 (3) “Piano Literature” will be divided into two courses, Music 5653.01 (3) “Piano Literature I” and Music 5653.02 (3) “Piano Literature II”, due to the vast amount of literature for study.

Music 674 (5) “Russian Opera: Meanings and Identities” will be retitled Music 5674 (3) “Meaning and Identity in Russian Opera”.

Music 677 (3) “Multimedia for Musicians” will be divided, under the semester system, into two courses, Music 5677.01 (2) “Multimedia for Musicians I” and Music 5677.02 (2) “Multimedia for Musicians II”, thus allowing a primary level of study and a secondary level.

Music 730.01 (5) “The Musical Object: Toward Musical Sound” and Music 730.02 (5) “The Musical Subject: Toward Musical Context” will be condensed into one course, Music 7730 (3) “Introduction to Musicology”.

Music 740 (4) “Studies in Medieval Music” and Music 741 (4) “Studies in Renaissance Music” will be condensed into one course, Music 7740 (3) “Studies in Music before 1600”.

Music 742 (4) “Studies in Baroque Music” and Music 743 (4) “Studies in Classical Music” will be condensed into one course, Music 7741 (3) “Studies in Music from 1600 to 1800”.

Music 744 (4) “Studies in Romantic Music” and Music 745 (4) “Studies in 20th Century Music” will be condensed into one course, Music 7742 (3) “Studies in Music from 1800 to the Present”.

Music 761 (3) “Principles of Music Learning” will be retitled Music 7761 (3) “Principles of Music Learning in Diverse Settings”.

Music 787.01 (5) “Music Cultures in Asia and the Middle East: Chinese Music” will be retitled as Music 7787 (3) “Chinese Music”.

Music 787.02 (5) “Music Cultures in Asia and the Middle East: Indian Music” and Music 787.03 (5) “Music Cultures in Asia and the Middle East: Arabic Music” will be condensed into one course, Music 7788 (3) “Music of the Arabic and Indian Traditions”.

Music 789 (5) “Performance Practices in Sub-Saharan African Music” will be retitled and redesigned as Music 7789 (3) “African Music: Ideas Forms and Trajectories”.

Music 810.21 (3) “Music Pedagogy: Vocal” and Music 810.22 (3) “Music Pedagogy: Vocal Practicum” will be condensed into a single course, Music 7810.21 (3) “History and Practice of Voice Pedagogy”.

Music 818.01 (3) “Theories of Schenker – Foundations” and Music 818.02 (5) “Theories of Schenker - Analysis Practicum” will be condensed into a single course, Music 8818 (3) “Theories of Heinrich Schenker”.

Music 820.01 (3) “Music Theory: Pedagogy” and Music 820.02 (3) “Music Theory: Teaching Practicum” will be condensed into a single course, Music 8820 (2) “Music Theory Pedagogy”.

Music 823 (5) “Seminar: Atonal Theory” will be divided, under the semester system, into two courses: Music 8823.01 (3) “20th Century Tone Structures: Sets and Series” and Music 8823.02 (3) “Transformational Theory and Analysis”.

Music 829 (3-5) “Seminar: Contemporary Theories of Music” will be divided into six (3 credit hour) courses under the semester system:

Music 6829 “Analysis and Performance” (studies in the interaction of musical performance and analysis: how musical analysis informs performance, but also how musical performance informs analysis. Both analytical writing and chamber music performance will be included);

Music 7829.01 “Scale Theory: Transformation and Tonality” (formal approaches to the theory of musical scales, with the premise that the distinct subfields of scale theory and transformational theory speak to fundamental questions of tonality - with that term understood broadly as some kind of orientation in pitch space);

Music 7829.02 “Sonata Theory” (studies in 18th- and 19th-century music through the lens of musical form, especially in terms of the treatment by Hepokoski and Darcy, but also considering Caplin, Rosen, Webster, and others);

Music 7829.03 “Compositional Modeling and Musical Allusion” (analysis of possible instances of composers who have used the work of their predecessors as models, and the interaction in such cases with notions of musical allusion. The case studies include but are not limited to compositions by Beethoven, Brahms, and Dvorak);

Music 7829.04 “Studies in Meter and Rhythm” (theory of meter and rhythm in music, with particular attention to work by Lerdaahl and Jackendoff, Hasty, and London. Also, compositional strategies for creating musically interesting rhythmic surfaces: rhythmic canons, quasi-periodic patterns, self-similar rhythms, and self-similar melodies);

Music 7829.05 “Special Topics” (special topics in music theory and/or music cognition).

Music 837 (3-5) “Composition with Electronic Media II” will be divided, under the semester system, into two courses, Music 6837 (3) “Composition with Electronic Media III”, and Music 8837 (3) “Composition with Electronic Media IV”. This change will allow for an intermediate level and an advanced level of instruction.

Music 838 (5) “Seminar in Music Perception” will be divided into four (3 credit hour) courses under the semester system: Music 8838.01 “Topics in Music Cognition” (critical survey of perceptual, cognitive, affective, or neuroscience research related to music); Music 8838.02 “Topics in Empirical Musicology” (critical survey of quantitative and systematic research related to music); Music 8838.03 “Music and Emotion” (an examination of modern ideas related to music and affect); and Music 8838.04 “Topics in Recent Literature of Music Cognition” (critical readings and discussion of current research publications in music cognition).

Music 839 (3) “Research Practicum in Music Perception” will be divided into two (3 credit hour) courses under the semester system: Music 8839.01 “Music Cognition Research Laboratory” (practical experiences in laboratory studies of music); and Music 8839.02 “Research Methods in Empirical Musicology” (philosophical and methodological foundations of empirical music research. A study of the main techniques and concepts of empirical music research).

Music 970 (2-6) “Masters Project - Plan B” will be renamed Music 6998 (1-3) “Master's Research Non-Thesis”.

The following graduate courses are new:

Music 5313 (3) “Opera Chorus”
Music 6881 (1) “Conducting Seminar”
Music 7784 (2) “Bibliography for Musicologists”
Music 7785 (3) “Cognitive Ethnomusicology”

Program Goals and Curriculum Map for SOM MM

A-Students acquire skills in all aspects of music making - creating, performing, and conducting.

B-Students engage in scholarly inquiry that includes such areas as music theory, pedagogy, acoustics, physiology, psychology, and humanities.

C-Students demonstrate intermediate proficiency in violin, viola, cello, string bass, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, trombone, tuba, percussion, harp, voice, or piano.

D-Students acquire and demonstrate performance skills by participating in numerous and diverse ensembles, including choirs, bands, orchestra, opera theater, and chamber music ensembles.

E-Students acquire an understanding of the repertory in their major performance area and the ability to perform from a cross-section of that repertory.

Master of Music in Brass Performance (Semesters)

The program for the Master of Music in Brass Performance provides studies for the performer and teacher-scholar. The program requires a minimum of 34 semester credit hours of advanced graduate study after completion of a baccalaureate degree in music with trumpet, horn, trombone, euphonium, or tuba as the major or principal instrument. The applicant must be sufficiently prepared to begin studies at the Music 7802 level. Deficiencies may be removed by additional preparatory course work assigned by the advisor.

The program described below is not rigid. It is intended to indicate both the nature of the course work and the usual elements for fulfilling the requirements for the M.M. degree. The student's actual course work will be designed to provide a well-rounded total program, including depth in the major area and breadth in supportive studies.

The advisor, with the assistance of the Advisory Committee, has the right and the responsibility to determine the content of each assigned advisee's program. At least 50% of the courses must be designated graduate study only (courses at the 6000-8000 level).

Transition Plan for Master of Music Degree Program

For those graduate students who matriculate under the quarter system and are transitioning into the semester system, the transition plan includes: 1) no student will have their progress delayed by the change to semesters, 2) any required course under quarters that has been re-envisioned under semesters will be counted, and 3) if, for whatever reason, a student is unable to take a required course, then upon the recommendation of the advisor, either a substitute course will be allowed or the course will be waived by the Chair of Graduate Studies.
