Secretary, College of Engineering Committee on Academy Affairs (CCAA)

Subject: Withdrawal of Integrated Systems Engineering's Graduate
Interdisciplinary Specialization in Engineering Management

Attached is a letter from Julie Higle, Department Chair of Integrated Systems Engineering, withdrawing their Graduate Interdisciplinary Specialization in Engineering Management. Their proposal was reviewed by a subcommittee of CCAA. After reviewing the proposal the subcommittee recommended to the full committee that it be approved. After a discussion, CCAA approved the proposal on the 17th of May 2011 and requested that I forward it to you for consideration by CAA. If you have any questions concerning this proposal please let me know.

RE: Semesters Proposal for the Graduate Interdisciplinary Specialization in Engineering Management (ISEM) Program

Dear Ed,

The administration for the Graduate Interdisciplinary Specialization in Engineering Management (ISEM) program is currently the responsibility of the Department of Integrated System Engineering, specifically the Industrial and Systems Engineering Graduate Studies Committee. The graduate faculty of the Industrial and Systems Engineering program have considered the conversion of the ISEM program to semesters, and a vote has been conducted to decide whether or not to withdraw the program.

The vote of the faculty regarding whether or not to retain and convert the ISEM program to semesters or to withdraw the program was 11 votes in favor of withdrawal, and 0 votes in favor of retention and conversion.

Per the outcome of the vote, the ISE faculty has decided to withdraw the ISEM program.

Sincerely,

A handwritten signature in cursive script that reads "Julia L. Higle".

Julia L. Higle
Professor and Chair
Integrated Systems Engineering
