Fiscal Unit/Academic Org Arts & Science & Business Tech - D0881
Administering College/Academic Group Food, Agric & Environ Science
Co-administering College/Academic Group
Semester Conversion Designation New Program/Plan
Proposed Program/Plan Name Community Leadership
Type of Program/Plan Undergraduate associate degree program
Program/Plan Code Abbreviation COMLDR
Proposed Degree Title Associate of Science

Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program				62	
Required credit hours offered by the unit	Minimum			62	
	Maximum			62	
Required credit hours offered outside of the unit	Minimum				
	Maximum				
Required prerequisite credit hours not included above	Minimum				
	Maximum				

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

- Program Learning Goals**
- Articulate a personal and professional philosophy based on history and foundations of the Community Leadership disciplines.
 - Create a Community Leadership program based on assessed needs.
 - Demonstrate capacity to utilize leadership strategies.
 - Conduct formative and summative evaluation of Community Leadership programs.
 - Use scholarly research in professional practice of Community Leadership.

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? No

DIRECT MEASURES (means of assessment that measure performance directly, are authentic and minimize mitigating or intervening factors)

Classroom assignments

- Embedded testing (i.e. specific questions in homework or exams that allow faculty to assess students' attainments of a specific learning goal)

Status: PENDING

PROGRAM REQUEST
Community Leadership

Last Updated: Pfister, Jill Ann
02/05/2012

- Pre- and post-testing
- Other classroom assessment methods (e.g., writing assignments, oral presentations, oral exams)

Evaluation of a body of work produced by the student

- Practicum, internship or research evaluation of student work
- Capstone course reports, papers, or presentations

INDIRECT MEASURES (means of assessment that are related to direct measures but are steps removed from those measures)

Surveys and Interviews

- Student survey
- Alumni survey
- Employer feedback or survey
- Student evaluation of instruction

Additional types of indirect evidence

- Job or post-baccalaureate education placement
- Student or alumni honors/recognition achieved
- Peer review of program
- External program review
- Curriculum or syllabus review
- Grade review
- Outreach participation
- Comparison or benchmarking

USE OF DATA (how the program uses or will use the evaluation data to make evidence-based improvements to the program periodically)

- Meet with students directly to discuss their performance
- Analyze and discuss trends with the unit's faculty
- Analyze and report to college/school
- Make improvements in curricular requirements (e.g., add, subtract courses)
- Make improvements in course content
- Make improvements in course delivery and learning activities within courses
- Make improvements in learning facilities, laboratories, and/or equipment
- Periodically confirm that current curriculum and courses are facilitating student attainment of program goals
- Benchmark against best programs in the field

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Program Specialization/Sub-Plan Name CEE (Community & Extension Ed)

Program Specialization/Sub-Plan Goals •

Program Specialization/Sub-Plan Name LDR (Leadership)

Program Specialization/Sub-Plan Goals •

Dr. Jill Pfister, Assistant Dean
College of Food, Agricultural and Environmental Sciences
The Ohio State University
100E Agricultural Administration
2120 Fyffe Rd.
Columbus, OH 43210

Dear Dr. Pfister:

I am writing to request approval of a new **Associate of Science major entitled Community Leadership with specializations in Community and Extension Education and in Leadership**. Ohio State ATI faculty have been working with faculty of the Department of Agricultural Communication, Education and Leadership within the College of Food, Agricultural and Environmental Sciences to develop this Associate of Science transfer program. The proposal was approved by the ATI Academic Affairs committee and by the ATI faculty. Department of Agricultural Communication, Education and Leadership representatives reviewed and approved the proposal.

This new associate of science major will allow students to complete the first half of their bachelor's degree at Ohio State ATI. This new major at ATI aligns with the curricular changes that have been made by the Department of Agricultural Communication, Education and Leadership as a result of semester conversion. Once this major is approved, students will have a pathway in place to facilitate transfer and it is anticipated that there will be a demand for this major. Upon completion of the major in Columbus, graduates will enjoy a wide range of career opportunities. This new Associate of Science major in Community Leadership at Ohio State ATI will strengthen program offerings and provide expanded opportunities for students planning to continue their education at the Columbus campus.

I am requesting approval for this new major effective autumn 2012. The associated fiscal code is 08810. If you need further clarification or justification, please contact me.

Sincerely,

Steven M. Neal, Ph.D.
Professor
Assistant Director for Academic Affairs

Degree: Associate of Science
Program: Community Leadership
Plan Code: COMLDR-AS

Program Rationale:

PROPOSAL FOR AN ASSOCIATE OF SCIENCE COMMUNITY LEADERSHIP PROGRAM
WITH COMMUNITY AND EXTENSION EDUCATION AND LEADERSHIP SPECIALIZATIONS

The attached proposal for a Community Leadership Program with specializations is presented so that ATI can offer Associate of Science (AS) programs that are in line with the programs in the College. In the Quarter system the proposed programs were options in the Agricultural Science (Agricultural Education) program. This was the case at ATI (Pre-Agricultural Education) and in the Dept of Agricultural Communication, Education and Leadership (formerly Human and Community Resource Development).

With the advent of semesters, the ACEL Dept. has separated the Agriscience Education program from the others. This was done as the Agriscience Education program has strict course requirements so that graduates can be certified by the State Dept. of Education to teach agricultural science in the high schools. For example, Agriscience Education students are required to take the Production Agriculture Minor while those interested in Extension Education can take a number of different minors.

To follow the ACEL Dept. we are requesting that ATI accept the attached proposal which transitions with the program in the Columbus Dept. This program has been developed with ACEL Dept. personnel. This program requires no additional course offerings at ATI and offers the students interested in an Extension or Leadership career have a more flexible program than if they were enrolled in the Agriscience Education program as now occurs. The number of students enrolled may be few, but the transition for them will be easier. The advisor for the Agriscience Education students can also advise the students in the Community Leadership program as they will transition to the same department in Columbus.
