Subject: Proposal for an Undergraduate Minor in Architecture

The College of Engineering has reviewed the Knowlton School of Architecture's proposal to create an Undergraduate Minor in Architectural Studies and believes that it is a minor that should be approved. The minor meets all of the college's and school's requirements and should be one that is well received by our students. If you have any questions concerning this proposal please let me know.

Status: PENDING

PROGRAM REQUEST
Minor in Architectural Studies

Last Updated: Fink, Steven Scott
01/09/2013

Fiscal Unit/Academic Org	Knowlton Sch of Architecture - D1410
Administering College/Academic Group	Engineering
Co-administering College/Academic Group	
Semester Conversion Designation	New Program/Plan
Proposed Program/Plan Name	Minor in Architectural Studies
Type of Program/Plan	Undergraduate minor
Program/Plan Code Abbreviation	ARCH-MN
Proposed Degree Title	Minor in Architectural Studies

Credit Hour Explanation

Program credit hour requirements		A) Number of credit hours in current program (Quarter credit hours)	B) Calculated result for 2/3rds of current (Semester credit hours)	C) Number of credit hours required for proposed program (Semester credit hours)	D) Change in credit hours
Total minimum credit hours required for completion of program				13	
Required credit hours offered by the unit	Minimum			13	
	Maximum			13	
Required credit hours offered outside of the unit	Minimum			0	
	Maximum			0	
Required prerequisite credit hours not included above	Minimum			0	
	Maximum			0	

Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals • n/a

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? No

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? No

**To: Randy Smith,
Vice Provost for Academic Programs**

**From: Michael Cadwell
Interim Director, Knowlton School of Architecture**

Re: Proposal of Undergraduate Minor in Architectural Studies

Attached is a proposal from the Knowlton School of Architecture requesting approval for an undergraduate minor. The Architecture Curriculum Committee met through the 2010-2011 academic year to develop a model curriculum. It was discussed at faculty meetings and unanimously approved by the faculty. The proposal has my full support.

If you have any questions about this proposal, please contact me at cadwell.1@osu.edu or Associate Professor Beth Blostein, Architecture Section Head at blostein.3@osu.edu.

Sincerely,

Michael Cadwell
Professor and Interim Director

Proposal for Undergraduate Minor in Architectural Studies

Sponsoring Unit: Offered by the Knowlton School of Architecture, administered by the Architecture Section.

Contact person(s): Architecture Section Head, Architecture Undergraduate Programs Chair

Development of the Minor

The University's Academic Plan identified five macro trends: the information age economy, globalization and demographics urbanization, technology, and continuous and rapid change. Architects engage each of these trends: the information age economy through the proliferation of knowledge through digital media; globalization and demographics through the international reach of established and emerging practices and the diversity of its workforce and client base; urbanization through the increasing pressures on the development of cities; technology through advances in digital production in design and construction; and continuous and rapid change through a combination of all of the above. That architecture is central to all of these trends should come as no surprise; architecture is how we shape the world and, in turn how the world shapes us.

Implicit in this definition is a range of complex cultural practices: social, political, economic, artistic, technological, and philosophical. Every student will impact the physical environment, from renovating a family home to voting on large civic projects. Therefore, every student should be educated to make informed decisions when doing so. This is especially true when the physical environment is understood as the entwinement of the natural and the manmade, in brief, an ecology at risk.

Acknowledging that architecture's impact extends beyond its discipline, the Architecture Curriculum Committee met through the 2010-2011 academic year to develop a model curriculum for students outside this major. The curriculum was discussed in faculty meetings, and unanimously approved by the faculty.

Key Audience

Because of architecture's broad cultural impact, the Minor in Architectural Studies is geared towards a wide audience. However, we see this audience coming from three primary groups:

Group 1: Pre-major students in Architecture who have taken courses prerequisite to the major but are either not accepted into the major or elect to pursue other interests as a primary focus.

Group 2: Students pursuing other majors within the KSA.

Group 3: Students pursuing related majors across campus seeking to obtain a complimentary body of knowledge. Based on this curricular experience, it is anticipated that some of these

students may choose to apply to the first year of our three-year graduate program which attracts students from diverse disciplines.

Program Learning Goals

1. Understand the social, political, economic, artistic, and technological, factors that inform architecture.
2. Develop a working knowledge of the design techniques and building technologies by which architecture is realized.
3. Have respect for and responsibility to architecture as a mode of thinking about and acting in the world.

Proposed Program Requirements

Students are required to complete a minimum of 13 credit hours to fulfill the minor requirements.

Required architecture courses (choose 2):

One from this group:

ARCH 2220, Sustainability in the Built Environment, 3

ARCH 2300, Outlines of the Built Environment, 3

ARCH 5510, Building Construction I, 3

ARCH 5520, Building Construction II, 3

And one from this group:

ARCH 2310, Introduction to Design, 4

ARCH 5110, History of Architecture I, 4

ARCH 5120, History of Architecture II, 4

Architecture electives (remaining credit hours):

History/Theory:

ARCH 5110, History of Architecture I, 4

ARCH 5120, History of Architecture II, 4

ARCH 5190, Topics in Architectural History, 3

ARCH 5210, Forms of Architectural Theory, 3

ARCH 5290, Topics in Architectural Theory, 3

ARCH 5390, Topics in Social and Economic Factors in Architecture, 3

Technology:

ARCH 5510, Building Construction I, 3

ARCH 5520, Building Construction II, 3

ARCH 5590, Topics in Building Technology, 3

ARCH 5690, Topics in Architectural Description, 3

ARCH 5710, Introduction to Architectural Structures, 3

ARCH 5810, Environmental, Mechanical, and Electrical Systems in Architecture, 3

Study Abroad:

ARCH 4880, Interdepartmental Seminar

ARCH 5798, Study Tour

Course Descriptions

ARCH 2300/E Outlines of the Built Environment, 3

Introduction to architecture, landscape architecture, and planning as cultural practices that shape the physical environment. Cross-listed as LARCH 2300. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

ARCH 2310, Introduction to Design, 4

Introduction to the design of the physical environment through the exploration of form, space, and order using drawing and modeling techniques. Cross-listed as LARCH 2310/E. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

ARCH 2220/E, Sustainability in the Built Environment, 3

Introduction to sustainability and the built environment, emphasis on cultural context, including contributing geographic, political, social, and economic factors which influence the form of the constructed world. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

ARCH 4880, Interdepartmental Seminar, 3

Topics to be announced. Cross-listed CRP 4880 and LARCH 4880. Prerequisite: None

ARCH 5110/E, History of Architecture I, 4

History of architecture from ancient to contemporary: historical inquiry, physical and cultural influences, theories, and analytical techniques. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

ARCH 5120/E, History of Architecture II, 4

Continuation of Arch 5110. Prerequisite: None. (Honors standing required for Embedded Honors offering.)

ARCH 5210, Forms of Architectural Theory, 3

Survey of architectural theory that reviews the history of architecture while searching for reinterpretations, strategies, structures, and precedents. Prerequisite: ARCH 5110 and ARCH 5120 and permission of instructor.

ARCH 5290, Topics in Architectural Theory, 3

Investigation of topics in architectural theory. Prerequisite: Enrollment in Architecture major or permission of instructor.

ARCH 5390, Topics in Social and Economic Factors in Architecture, 3

Topics related to social and economic factors in architecture. Prerequisite: Enrollment in Architecture major or permission of instructor.

ARCH 5510, Building Construction I, 3

Introduction to construction materials and techniques. Prerequisite: None.

ARCH 5520, Building Construction II, 3

Introduction to construction materials and techniques. Prerequisite: None.

ARCH 5590, Topics in Building Technology, 3

Investigation of topics in building technology. Prerequisite: Enrollment in Architecture major or permission of instructor.

ARCH 5690, Topics in Architectural Description, 3

Investigation of topics in architectural description. Prerequisite: Enrollment in Architecture major or permission of instructor.

ARCH 5710, Introduction to Architectural Structures, 3

Statics, strength of materials, and structural systems: principles, elements, concepts. Prerequisite: Physics 1200 or equivalent.

ARCH 5798, Study Tour, Repeatable to a maximum of 45 CH

Group international and domestic travel programs. Opportunities tailored to complement the classroom experience. Prerequisite: None. Note: Successful application to study abroad program required.

ARCH 5810, Environmental, Mechanical, and Electrical Systems in Architecture, 3

Introduction to environmental issues and building service systems for architecture. Prerequisite: Physics 1200 or equivalent.

Architecture Minor Program Guidelines

1. Required for graduation: No.
2. Credit hours required: A minimum of 13; 1000 level courses shall not be counted toward the 13 CH minimum.
3. Transfer credit hours allowed: No.
4. Overlap with the GE: permitted unless specifically disallowed by home unit.
5. The minor must be in a different subject than the major.
6. Overlap with the major not allowed.

7. Grades required: Minimum C- for a course to counted towards the minor; Minimum 2.00 cumulative point-hour ratio required for the minor; Course work graded Pass/Non-Pass cannot count towards the minor.
8. Students wishing to have variations to the program considered must submit them in writing to the Chair of the Knowlton School of Architecture Curriculum Committee who will then approve or reject them.

Action Required of Students

Students pursuing the Minor in Architectural Studies are required to complete a Minor Program Form. This form can be completed at any time during the pursuit of the minor but it is highly recommended that students meet with a Knowlton School of Architecture advisor prior to entering into the minor. The Minor Program Form must be completed and signed by an advisor in the Knowlton School of Architecture and by the student's advisor in their Major Program and submitted prior to or along with the graduation application in order for the student to be awarded the minor. Copies of this form will be retained by both the Architecture Program and the student's Major Program. Students should consult their Major Program for any additional constraints.

Administration and Advising

The Architecture Section will support the minor in Architectural Studies. The Curriculum Committee will be responsible for on-going development of the minor. This committee will report to the Architecture Section Head.

Estimates of Student Interest and Needed Instructional Resources

Although difficult to anticipate, demand for the minor is initially projected at 5-10 students per year. This Minor does not require any additional courses or teaching resources. The core courses are offered on a regular basis and the addition of students pursuing the minor is estimated to have minimal impact on class sizes. Should interest increase beyond projections, it is anticipated that the fiscal resources generated will be adequate to cover the additional expenses.

Student Learning Outcome Assessment Plan

The Curriculum Committee will be charged with assuring the assessment of student learning outcomes. The Architecture section will administer a minor completion survey. The survey will explore student perceptions of 1) the attainment of the learning goals indicated for the minor, and 2) structure, availability, and appropriateness of courses in the minor. This data, along with enrollment data, will be reviewed annually by the committee.

Implementation Date

The minor is proposed for implementation in Summer of 2013.

Requirement/Elective Designation

General Education course:

Human, Natural, and Economic Resources

The course is an elective (for this or other units) or is a service course for other units

Course Details

Course goals or learning objectives/outcomes

- An understanding of the meanings of sustainability from broad social, cultural, and historical perspectives
- An understanding of the scales of decisions by individuals, groups, and societies regarding the use of natural and economic resources that have impacted the built environment
- The ability to discuss local and global policies regarding the built environment that are meant to mitigate past decisions

Content Topic List

- Social and historical background of environmental sustainability
- Sustainable and ecological politics and legislation
- Sustainable urban planning
- Sustainable landscapes
- Sustainable architecture

2300E - Status: PENDING

Last Updated: Sershen, Douglas J
11/16/2012

Term Information

Effective Term Summer 2013
Previous Value Summer 2012

Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)

Course number is changing from 1210E to 2300E; exclusion updated to reflect new number; application for GE status.

What is the rationale for the proposed change(s)?

Upon retrospect, the faculty have determined that the course is deserving of a 2000 level number based on its academic rigor. The section leadership believes the course can benefit students across the University as a GE.

What are the programmatic implications of the proposed change(s)?

(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?

None.

Is approval of the request contingent upon the approval of other course or curricular program request? No

Is this a request to withdraw the course? No

General Information

Course Bulletin Listing/Subject Area	Architecture
Fiscal Unit/Academic Org	Knowlton Sch of Architecture - D1410
College/Academic Group	Engineering
Level/Career	Graduate, Undergraduate
Course Number/Catalog	5710
Course Title	Introduction to Architectural Structures I
Transcript Abbreviation	Arch Structures 1
Course Description	Statistics, strength of materials, and structural systems: principles, elements, concepts.
Semester Credit Hours/Units	Fixed: 4

Offering Information

Length Of Course	14 Week
Flexibly Scheduled Course	Never
Does any section of this course have a distance education component?	No
Grading Basis	Letter Grade
Repeatable	No
Course Components	Laboratory, Lecture
Grade Roster Component	Lecture
Credit Available by Exam	No
Admission Condition Course	No
Off Campus	Never
Campus of Offering	Columbus

Prerequisites and Exclusions

Prerequisites/Corequisites	Prereq: 1250 for students pursuing a B.S. in Arch; or Physics 1200 (111).
Exclusions	Not open to students with credit for 426, 616, 617, or 618.

Cross-Listings

Cross-Listings

Subject/CIP Code

Subject/CIP Code	04.0201
Subsidy Level	Masters Course
Intended Rank	Junior, Masters

Quarters to Semesters

Quarters to Semesters	Semester equivalent of a quarter course sequence (e.g., a 3-quarter sequence becomes a 2-semester sequence, a 2-quarter sequence becomes a 2-semester sequence, a 2-quarter sequence becomes a 1-semester course)
List the current and proposed sequences by number and title	Arch 426 and 616: Introduction to Architectural Structures; Arch 617: Wood and Steel Structures; Arch 618: Masonry and Concrete Structures; Arch 724: Structural Systems in Architecture.

COURSE REQUEST

Requirement/Elective Designation

Required for this unit's degrees, majors, and/or minors

General Education course:

Physical Science

Course Details

Course goals or learning objectives/outcomes

- Qualitative knowledge of structural systems

Content Topic List

- Statics
- Strength of materials
- Structural systems
- Principles
- Elements
- Concepts

Attachments

Comments

- This course, coupled with its Physics prerequisites, is approved as a Physical Science GE for students pursuing a B.S. in Architecture. The department would like to open this course to all undergraduates seeking to fulfill the Physical Science GE. *(by Griffin, Holly M on 06/09/2011 01:56 PM)*
- Needs statement if it is a current GEC course and, if not, it will need all of the required supporting information to become a GE course. *(by McCaul Jr, Edward Baldwin on 06/07/2011 08:49 AM)*

Subject: FW: SENR - LARCH Minor Proposal Letter of support
Attachments: LARCH Minor .doc

Hi Holly,

So I finally got a, sort of letter of support from ENR. Better than nothing. I'm going to try to work with them in order to address some of their concerns.

Best,

Jake

Good afternoon,

Attached is the letter of support that you requested from the SENR - I apologize for the delay in getting this to you as it was an oversight on my part.

Thank you!

Mary

Hi Beth,
Good to hear from you - and I am sure like you we are already at runners pace - where did the summer go?

Nice to hear about your Undergraduate Minor in Architectural Studies.
I would think that there will definitely be interest from design undergrads.
I have cc'd Design's Interior Design Faculty, Jeff Haase and Susan Melsop, as well as Design's undergrad advisor, Karen Dimmick.

Congrats on your appointment to the Section Head of Architecture.
maria

Subject: Undergraduate Minor in Architectural Studies

Hi Maria,

Hope you semester is off to a good start. I didn't think the beginning was as chaotic as I anticipated, but the summer was way too short!

We are about to seek approval for a proposal for an Undergraduate Minor in Architectural Studies. I was hoping you could take a look at it (attached) and let us know your thoughts about potential interest among students in Design. We fairly regularly have Design students in our courses and they are always a welcome addition. If you think someone else in your department would be interested in knowing about our proposed Minor, I would be grateful if you would pass this along or put me in contact with them. Interest among parties outside the KSA helps bolster our case for the proposal.

I sincerely appreciate your time.
Kindest regards,
Beth

Subject: RE: Minor in Architectural Studies

Hi!

Our students will definitely be interested, I can tell you right now. I won't get a chance to review it until next week – when I'll also be working on the dual major – perfect timing! And I'll let you know. I'll also send it to a couple of other people who would be involved and we will give you our collective input. OK?

Thanks – I think this sounds like a very good idea.

Bev

Subject: Minor in Architectural Studies

Dear Beverly,

I am the Architecture Section Head in the School of Architecture. We always enjoy having CSM students participate in our classes, particularly our construction courses. We are in the process of developing an Undergraduate Minor in Architectural Studies. The proposal is attached. I am hoping you could take a quick look at it and let us know if you think this would be of interest/benefit to your students. Having support outside our unit will help bolster our case for this proposal. If there is a better person to review this, I would be very grateful if you could pass this along or direct me to them.

I sincerely appreciate your time.
Kindest regards,
Beth
