RE: Deactivation of School Nurse Licensure program

Dear Dr. Warnick:

The Department of Educational Studies is deactivating the School Nurse Licensure program, effective August 31, 2017. The program is being deactivated due to low enrollments and the need to prioritize resources in the Technical Education and Training program. In anticipation of this deactivation, the program has ceased admitting students and has developed a completion program for each student. All the required courses will be scheduled as usual and needed, and the two-year time frame was established to ensure that all students could finish by the end of spring semester in 2017, with the summer semester used as a backup in the unlikely event a student has not finished by then. Independent studies will be offered to fulfill any requirements needed should a student miss the last offering of a regularly scheduled course.

If you have any questions or need additional information, please contact me at your convenience. I am at your service.

Sincerely,

Joe E. Wheaton, Associate Chair  
Dept of Educational Studies
