HRS Curriculum Committee:

The HRS PhD Graduate Studies Committee met, reviewed and approved the proposal for the Occupational Therapy program curriculum change to reflect the increase of credits for ANATOMY 6000 from a 4 credit course to a 5 credit course on 1-28-16. This change would cause the first term of the program to increase from 6 to 7 total credits, and the total credits of the program to increase from 97 to 98 credits. Please accept the further submission of this proposal for your review.

Best Regards,

James Onate, PhD, AT, ATC, FNATA
