**Subject:** Requesting CAA Approval for ATI Agricultural Communication - AS Revision

**Date:** Friday, November 8, 2019 1:27:59 PM **Attachments:** combined files AGRCOMM AS 19-20.pdf

image001.png

Dear Dr. Smith,

The College of Food, Agricultural, and Environmental Sciences is requesting Council on Academic Affairs approval for a revision to the Agricultural Communication - AS program offered at Ohio State ATI as outlined in the attached document. We are requesting that these changes be made effective Autumn 2020. The proposed change – removing COMLDR 2530 and adding AGRCOMM 2531– aligns this program with the Agricultural Communication BS degree program in the Department of Agricultural Communication, Education, and Leadership. As a result of these proposed changes, there is an overall increase from 63 to 64 credits required to complete the major.

This proposal has been approved by the Academic Affairs Committee of Ohio State ATI and by the College Academic Affairs Committee. Please let me know if any additional information is needed in support of this request.

Sincerely,

Jeanne

# Jeanne M. Osborne

Assistant Dean for Academic Affairs College of Food, Agricultural, and Environmental Sciences 100E Agricultural Administration, 2120 Fyffe Rd. Columbus, OH 43210

Ms. Jeanne Osborne

Assistant Dean for Academic Programs

100E Agricultural Administration Building 2120 Fyffe Rd Columbus, OH 43210

Dear Ms. Osborne,

October 22, 2019

Enclosed please find the proposed revisions to the curriculum plan and course sequence for the Associate of Science Agricultural Communication program submitted for consideration by the FAES Academic Affairs Committee.

The proposed revisions to the current program were developed by the program coordinator, Rachael Ramsier. One course was removed, and one course was added. The overall credits for the degree increased from 63 to 64. The changes to the curriculum plan align the Associate of Science curriculum with the Bachelor of Science curriculum. Ms. Ramsier provides the following rationale for the curricular change:

Add AGRCOMM 2531 Agricultural Communication, Education, and Leadership and remove COMLDR 2530 Introduction to Agricultural Communication, Education, and Leadership:

The Department of Agricultural Communication, Education, and Leadership changed the curriculum for the Bachelor of Science Agricultural Communication program. Previously, COMLDR 2530 was required. As of AU19, AGRCOMM 2531 was added and COMLDR 2530 was removed from the degree. At Ohio State ATI, the Associate of Science Agricultural Communication program feeds into Bachelor of Science Agricultural Communication program. The proposed changes align the Associate of Science program to the Bachelor of Science program.

AGRCOMM 2531 does not require an English pre-requisite, but it does have a writing component and is a 2000 level course. We have chosen to move the course offering to 2nd year AU semester so students can complete their English course requirements.

The proposed changes to the current curriculum plan and course sequence for the Associate of Science Agricultural Communication program were approved by the Arts, Science, and Business Division at Ohio State ATI and the Ohio State ATI Academic Affairs committee. Ohio State ATI is committed to protecting the academic progress of students. This program change will not disrupt progress toward degree for students

enrolled in this degree program. Course substitutions and manual management of the degree audits will occur as needed for students enrolled in this degree program during the transition. When appropriate, coursework completed by students under the current degree program will be utilized for completion of the proposed degree program.

Enclosed please find the following documents:

- Current curriculum plan and course sequence for the Associate of Science Agricultural Communication program
- Proposed curriculum plan and course sequence for the Associate of Science Agricultural Communication program

Please let me know if there are questions, or if additional information or documentation is required to accompany this submission. We look forward to hearing from the FAES Academic Affairs Committee regarding next steps in the approval process.

Sincerely,

Carri A. Gerber

Carri A. Gerber

Assistant Director, Academic Affairs
