Re: Changes to the PPE major

---

I'm happy to report that the PPE major has grown quickly since it was approved in the fall of 2018, from just over 20 students to nearly 200, with further growth anticipated. As with any new program, we've identified a few unforeseen blind spots and bottlenecks, and have also had to adapt to changes in the curricula of the three departments that support the major: Economics, Philosophy, and Political Science. This memo summarizes and explains the changes that have been made to the major since approval. The changes are described in full in the attached documents. All of the changes have been incorporated into curriculum.osu.edu and are being applied by our academic advisors. The purpose of this memo is to make ASCC aware of them and to invite comment.

The changes fall into two categories:

(1) **Changes to the PPE Foundations.** The central aim of the PPE major is to introduce students to the tools and perspectives of the three constituent disciplines, and to teach them to integrate and apply those tools and perspectives in addressing important matters of public concern. With that in mind 18 credit hours in the major are devoted to disciplinary "foundations," consisting of one course each in statistics, formal methods, moral philosophy, political theory and philosophy, micro- or macroeconomics, and political economy.

Four adjustments have been made to the Foundations since approval:

- (a) Substitution of PHILOS 2540 (Introduction to the Philosophy of Rational Choice) for PHILOS 5540 (Theory of Rational Choice) in the formal methods category. This new course was developed in 2022 by Sahar Heydari Fard, an Assistant Professor in Philosophy who specializes in rational choice theory. A 2000-level course is of course better suited than a 5000-level course for the "foundations" level, and rational choice theory is closer to the core interests of most PPE students than symbolic logic, the other Philosophy option in this category. PHILOS 5540 has not been offered for some time.
- (b) Addition of POLITSC 3500 (Political Games: Rational Choice Theory and the Study of Politics) to the formal methods category. This new course was developed in 2019 by Alex Acs, an Assistant Professor in Political Science who specializes in game theory. It provides a broader and less technical introduction to the use of rational choice theory in the social sciences than either of the alternatives: ECON 5001 (Game Theory in Economics) and POLITSC 4553 (Game Theory for Political Scientists).

- (c) Renumbering of POLITSC 4280 and 4380 to POLITSC 3280 and 3380, respectively, in the political economy category, and renaming of 3280 from State and Economy to The Politics of Markets. The 3000-level course numbers better reflect the level at which these courses are pitched, and the title change for 3280 better reflects the content of the course and is (we think) more appealing to students.
- (d) Addition of POLITSC 4381 (Comparative International Political Economy) to the political economy category. It was an oversight to have omitted this course from the original proposal, and we decided to add it at the same time that POLITSC 4280 and 4380 were renamed/renumbered.

(2) **Changes to the PPE Concentrations.** The formal requirement for the PPE concentration is quite broad: four courses; at least one from each of the three cooperating departments (Economics, Philosophy, and Political Science), and at least three at the 3000 level or above. To provide some guidance to students the major offers four “off the shelf” concentrations with a list of courses approved for each: Choice and Behavior; Global Cooperation and Conflict; Justice and Moral Reasoning; and Law, Policy and Governance. Students are also allowed to design their own concentration with faculty approval.

Since the major was approved we’ve added five courses to the Choice and Behavior list, nine to the Justice and Moral Reasoning list, fourteen to the Global Cooperation and Conflict list, and seventeen to the Law, Policy and Governance list (several courses were added to more than one list). These are a mix of new courses and existing courses that have come to our attention since the major was designed. We’ve also deleted seven courses across the four concentrations that have gone dormant or are otherwise no longer on the books. Because the concentrations are transcriptable these changes need to be officially recorded.

**PHILOSOPHY, POLITICS, AND ECONOMICS (PPE)  
PROPOSED BACHELOR OF ARTS MAJOR IN THE ARTS AND SCIENCES**

Undergraduate majors in Philosophy, Politics and Economics (PPE) must complete a minimum of 36 credit hours of course work distributed across three areas: (a) foundations courses (18 credit hours); (b) core courses (6 credit hours); and (c) concentration courses (12 credit hours).

**FOUNDATIONS COURSES**  
**18 CREDIT HOURS**

The foundations courses introduce students to basic ideas and concepts in three areas of study: (a) formal reasoning; (b) normative reasoning; and (c) economics and political economy.

**CORE COURSES**  
**6 CREDIT HOURS**

The core courses provide an integrative perspective on the three main disciplines which constitute the major. Students must complete the foundations requirements before taking the core courses.

CORE COURSES		COURSE (CREDIT HOURS)	DESCRIPTION	PREREQUISITES
	REQUIRED	<b>Philos/Politsc/Econ 3001:</b> Economy, Polity, and Community (3)	Examines how different ways of thinking about human nature shape our thinking about philosophy, politics, and economics.	Completion of the PPE foundations requirements.
REQUIRED	<b>Philos/Politsc/Econ 3002:</b> Tradition, Progress, and Utopia (3)	Examines how different ways of thinking about social and political change shape our thinking about philosophy, politics, and economics.	Completion of the PPE foundations requirements.	

**CONCENTRATIONS**  
**12 CREDIT HOURS**

The concentration courses allow students to pursue additional upper-level coursework in a substantive area of interest that spans the three main disciplines which constitute the major. Students may satisfy this requirement by taking four courses distributed among Economics, Philosophy, and Political Science according to the following criteria: students must take at least one course in each of these three departments; three of the courses must be at the 3000 level or above, while the fourth course may be at the 2000 level or above. Students may also petition to count other courses toward the concentration requirement (all of the courses listed below have been approved). Concentration courses can be taken at any time during completion of the major; however the same course(s) cannot be used to satisfy both the foundations and the concentration requirement.

## Philosophy, Politics and Economics BA

Undergraduate majors in PPE must complete a minimum of 36 credit hours of course work distributed across three areas: (a) foundation courses (18 credits); (b) core courses (6 credit hours); and (c) concentration courses (12 credit hours)

### Foundations

The PPE foundations courses introduce students to basic ideas and concepts in three areas of study: formal reasoning, normative reasoning, and economics and political economy.

### Formal Reasoning

Statistics (choose 1)

- **Economics/International Studies 3400: Analysis & Display of Data**  
Introduction to the analysis of data. Topics include sampling, data collection, probability, inference, random variables, display of data, correlation, and analysis of variance.
- **Political Science 3780 (H): Data Literacy & Data Visualization**  
Introduction to the tools of data analysis in political science, with an emphasis on data visualization.

Formal Methods (choose 1)

- **Economics 5001: Game Theory in Economics**  
Analysis of behavior in strategic situations - when a person or firm's best action depends on what others do.
- **Philosophy 2500: Symbolic Logic**  
A formal presentation of the elements of modern deductive logic; decision and proof procedures in sentential logic and functional logic.
- **Philosophy 2540: Introduction to the Philosophy of Rational Choice**  
Introduction to the principles and methods of the theory of rational choice with applications in the theory of knowledge, ethics, and social and political philosophy.
- **Political Science 3500: Political Games: Rational Choice Theory and the Study of Politics**  
Are political outcomes and institutions the result of decision-making by rational, self-interested political actors? This course explores how the assumption of individual rationality has shaped the field of political science.
- **Political Science 4553 (H): Game Theory for Political Scientists**  
Provides entry-level understanding of the basic concepts of game theory and how these concepts are applied to the study of political phenomena.

**Commented [VBC1]:** This course replaces Philosophy 5540 Theory of Rational Choice

**Commented [VBC2]:** Added

### Normative Reasoning

Moral Philosophy

#### **Philosophy 3300: Moral Philosophy**

A rigorous examination of major issues in moral philosophy, such as the basic moral value(s); the relation between value and obligation; justification of moral judgment.

Political Philosophy & Political Theory (choose 1)

- **Philosophy 2400: Political and Social Philosophy**  
Philosophical bases of social and political institutions and practices; analysis of such fundamental conceptions as rights, justice, equality, political obligation, and civil disobedience.
- **Political Science 2400 (H): Introduction to Political Theory**  
An introduction to the field of political theory through classic and contemporary texts and selected case studies.

Economics & Political Economy

Economics (choose 1)

- **Economics 2001.01: Principles of Microeconomics**  
Introduction to economic theory: supply and demand for goods, services, and factor inputs; market structure; international trade, the distribution of income. First required course for students planning to take 4000-level courses in Economics.

## Core courses

The PPE core courses provide an integrative perspective on the three main disciplines that constitute the PPE major. Students must complete the foundations requirements before taking the core courses.

- **Philosophy/Political Science/Economics 3001: Economy, Polity, and Community**  
This interdisciplinary course, available only to PPE majors, examines three models of human nature, each of which captures something important about social and political life, and each of which has significant blind spots. The first model sees human beings as *rational actors* who seek to maximize the satisfaction of their preferences. The second model sees human beings as *citizens* with public responsibilities that orient them toward the pursuit of the common good. The third model sees human beings as *members of communities* that provide an identity and a set of values that enable them to navigate the social world.
- **Philosophy/Political Science/Economics 3002: Tradition, Progress, and Utopia**  
This interdisciplinary course, available only to PPE majors, examines three ways of thinking about social and political change, each of which captures something important about social and political life, and each of which has significant blind spots. The first focuses on certain “traditional” values or ways of life that should be protected and preserved. The second envisions a future of steady progress toward an identifiable social or political ideal. The third looks forward to a radical social transformation that allows us to transcend existing institutions and values.

## Concentrations

Concentrations allow PPE students to pursue upper-level coursework in a specialized area of interest. A concentration consists of four courses, with at least one course in Economics, Philosophy, and Political Science, three courses at the 3000 level or above, and a fourth course at the 2000 level or above. Students may petition to count other relevant courses toward the concentration requirement. Concentration courses can be taken at any time during completion of the PPE major; however the same course(s) cannot be used to satisfy both the foundations and the concentration requirement.

Students may also design their own concentration as long as they satisfy the above criteria.

## Philosophy, Politics and Economics BA

Undergraduate majors in PPE must complete a minimum of 36 credit hours of course work distributed across three areas: (a) foundation courses (18 credits); (b) core courses (6 credit hours); and (c) concentration courses (12 credit hours)

### Foundations

The PPE foundations courses introduce students to basic ideas and concepts in three areas of study: formal reasoning, normative reasoning, and economics and political economy.

### Formal Reasoning

Statistics (choose 1)

- **Economics/International Studies 3400: Analysis & Display of Data**  
Introduction to the analysis of data. Topics include sampling, data collection, probability, inference, random variables, display of data, correlation, and analysis of variance.
- **Political Science 3780 (H): Data Literacy & Data Visualization**  
Introduction to the tools of data analysis in political science, with an emphasis on data visualization.

Formal Methods (choose 1)

- **Economics 5001: Game Theory in Economics**  
Analysis of behavior in strategic situations - when a person or firm's best action depends on what others do.
- **Philosophy 2500: Symbolic Logic**  
A formal presentation of the elements of modern deductive logic; decision and proof procedures in sentential logic and functional logic.
- **Philosophy 2540: Introduction to the Philosophy of Rational Choice**  
Introduction to the principles and methods of the theory of rational choice with applications in the theory of knowledge, ethics, and social and political philosophy.
- **Political Science 3500: Political Games: Rational Choice Theory and the Study of Politics**  
Are political outcomes and institutions the result of decision-making by rational, self-interested political actors? This course explores how the assumption of individual rationality has shaped the field of political science.
- **Political Science 4553 (H): Game Theory for Political Scientists**  
Provides entry-level understanding of the basic concepts of game theory and how these concepts are applied to the study of political phenomena.

### Normative Reasoning

Moral Philosophy

#### **Philosophy 3300: Moral Philosophy**

A rigorous examination of major issues in moral philosophy, such as the basic moral value(s); the relation between value and obligation; justification of moral judgment.

### Political Philosophy & Political Theory (choose 1)

- **Philosophy 2400: Political and Social Philosophy**  
Philosophical bases of social and political institutions and practices; analysis of such fundamental conceptions as rights, justice, equality, political obligation, and civil disobedience.
- **Political Science 2400 (H): Introduction to Political Theory**  
An introduction to the field of political theory through classic and contemporary texts and selected case studies.

### Economics & Political Economy

#### Economics (choose 1)

- **Economics 2001.01: Principles of Microeconomics**  
Introduction to economic theory: supply and demand for goods, services, and factor inputs; market structure; international trade, the distribution of income. First required course for students planning to take 4000-level courses in Economics.
- **Economics 2001.03H: Principles of Microeconomics**  
An advanced introduction to economic theory: supply and demand for goods, services, and factor inputs; market structure; international trade, the distribution of income. First required course for students planning to take 4000-level courses in Economics.
- **Economics 2002.01: Principles of Macroeconomics**  
Introduction to the theory of national income determination; economic fluctuations; money; government policy; international economics.
- **Economics 2002.03H: Principles of Macroeconomics**  
An advanced introduction to the theory of national income determination; economic fluctuations; money; government policy; international economics.

#### Political Economy (choose 1)

- **Political Science 3280: The Politics of Markets**  
Introduction to comparative political economy; relations between the state and the economy, politics and markets, and democracy and capitalism; the consequences of state intervention.
- **Political Science 3380: Political Analysis of International Economic Relations**  
Examines the relationship between political and economic events in the international system; topics include global interdependence, inequality, scarce resources, and periphery nation strategies.
- **Political Science 4381: Comparative International Political Economy**  
A survey of foreign economic policies followed by European and other advanced industrial economies since the Napoleonic Wars, with a special emphasis on Britain, France, Germany, the United States, and Japan.

## Core courses

The PPE core courses provide an integrative perspective on the three main disciplines that constitute the PPE major. Students must complete the foundations requirements before taking the core courses.

- **Philosophy/Political Science/Economics 3001: Economy, Polity, and Community**  
This interdisciplinary course, available only to PPE majors, examines three models of human nature, each of which captures something important about social and political life, and each of which has significant blind spots. The first model sees human beings as *rational actors* who seek to maximize the satisfaction of their preferences. The second model sees human beings as *citizens* with public responsibilities that orient them toward the pursuit of the common good. The third model sees human beings as *members of communities* that provide an identity and a set of values that enable them to navigate the social world.
- **Philosophy/Political Science/Economics 3002: Tradition, Progress, and Utopia**  
This interdisciplinary course, available only to PPE majors, examines three ways of thinking about social and political change, each of which captures something important about social and political life, and each of which has significant blind spots. The first focuses on certain “traditional” values or ways of life that should be protected and preserved. The second envisions a future of steady progress toward an identifiable social or political ideal. The third looks forward to a radical social transformation that allows us to transcend existing institutions and values.

## Concentrations

Concentrations allow PPE students to pursue upper-level coursework in a specialized area of interest. A concentration consists of four courses, with at least one course in Economics, Philosophy, and Political Science, three courses at the 3000 level or above, and a fourth course at the 2000 level or above. Students may petition to count other relevant courses toward the concentration requirement. Concentration courses can be taken at any time during completion of the PPE major; however the same course(s) cannot be used to satisfy both the foundations and the concentration requirement.

Students may also design their own concentration as long as they satisfy the above criteria.
